

Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a state to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waivers target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the state, service delivery system structure, state goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for a Renewal to a §1915(c) Home and Community-Based Services Waiver

1. Major Changes

Describe any significant changes to the approved waiver that are being made in this renewal application:

Major Waiver Renewal Changes:

1. Add a new service definition for standalone Remote Supports service.
2. Update the Assistive Technology service definition to remove remote supports components.
3. Update Environmental Accessibility Adaptations-Home/Vehicle Modification service definition to clarify vehicle modification provider requirements, use of service funds for provider owned/leased vehicle adaptations, and vehicle maintenance.
4. Update Personal Assistant agency provider types.
5. Increase Applied Behavior Analysis maximum unit amounts for Behavior Identification Assessment and Behavior Identification Supporting Assessment-Observational.
6. Addition of provider for Adaptive Behavior Treatment by Protocol by Technician in limitations.
7. Update UR Committee to UR Process throughout application.
8. Add the Missouri Adaptive Ability Scale as the standard instrument for determining substantial functional limitation.
9. Add Virtual Delivery of service requirements to Applied Behavior Analysis.
10. Add Community Specialist to Self-Directed Service rate methodology in Appendix I-2.
11. Update Value Based Payments for enhanced provider payments in Appendix I-3.

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

A. The State of Missouri requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).

B. Program Title (*optional - this title will be used to locate this waiver in the finder*):

Missouri Children with Developmental Disabilities (MOCDD) Waiver

C. Type of Request: renewal

Requested Approval Period: (*For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.*)

☐ 3 years ☒ 5 years

Original Base Waiver Number: MO.40185

Draft ID: MO.005.06.00

D. Type of Waiver (*select only one*):

Regular Waiver

E. Proposed Effective Date: (mm/dd/yy)

07/01/23

PRA Disclosure Statement

The purpose of this application is for states to request a Medicaid Section 1915(c) home and community-based services (HCBS) waiver. Section 1915(c) of the Social Security Act authorizes the Secretary of Health and Human Services to waive certain specific Medicaid statutory requirements so that a state may voluntarily offer HCBS to state-specified target group(s) of Medicaid beneficiaries who need a level of institutional care that is provided under the Medicaid state plan. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0449 (Expires: December 31, 2023). The time required to complete this information collection is estimated to average 160 hours per response for a new waiver application and 75 hours per response for a renewal application, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid state plan (*check each that applies*):

☐ **Hospital**

Select applicable level of care

☐ **Hospital as defined in 42 CFR §440.10**

If applicable, specify whether the state additionally limits the waiver to subcategories of the hospital level of care:

☐ **Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160**

☐ **Nursing Facility**

Select applicable level of care

☐ **Nursing Facility as defined in 42 CFR ??440.40 and 42 CFR ??440.155**

If applicable, specify whether the state additionally limits the waiver to subcategories of the nursing facility level of care:

☐ **Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR**

§440.140

- ☒ **Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)**

If applicable, specify whether the state additionally limits the waiver to subcategories of the ICF/IID level of care:

1. Request Information (3 of 3)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities

Select one:

☒ **Not applicable**

☐ **Applicable**

Check the applicable authority or authorities:

☐ **Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I**

☐ **Waiver(s) authorized under §1915(b) of the Act.**

Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

Specify the §1915(b) authorities under which this program operates (check each that applies):

☐ **§1915(b)(1) (mandated enrollment to managed care)**

☐ **§1915(b)(2) (central broker)**

☐ **§1915(b)(3) (employ cost savings to furnish additional services)**

☐ **§1915(b)(4) (selective contracting/limit number of providers)**

☐ **A program operated under §1932(a) of the Act.**

Specify the nature of the state plan benefit and indicate whether the state plan amendment has been submitted or previously approved:

☐ **A program authorized under §1915(i) of the Act.**

☐ **A program authorized under §1915(j) of the Act.**

☐ **A program authorized under §1115 of the Act.**

Specify the program:

H. Dual Eligibility for Medicaid and Medicare.

Check if applicable:

☒ **This waiver provides services for individuals who are eligible for both Medicare and Medicaid.**

2. Brief Waiver Description

Brief Waiver Description. In one page or less, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

GOAL: Establish and maintain a community based system of care for children with developmental disabilities that includes a comprehensive array of services that meets the individualized support needs of children to allow them to remain at home with their families rather than enter an institution, group home or other out of home care.

OBJECTIVES: 1) provide families choice between ICF/ID institutional care and comprehensive, cost effective community based care; 2) maintain and improve a community based system of care that diverts children from institutional care and residential care; 3) maintain and improve community based care so services are sufficient to support children living at home with their family; and 4) provide choice and flexibility within a community based system of care.

Children in this waiver are living at home with their family but require services and supports so that family members can continue employment and primary caregivers can access relief. This waiver allows certain State MO HealthNet eligibility requirements to be waived so that children targeted for participation may be determined MO HealthNet eligible. In Missouri, the income and resources of a child's parents must be considered in determining the child's financial eligibility for MO HealthNet when the child lives in the home with the parents. This requirement called deeming parental income to the child is waived for children who participate in the waiver. For these children, financial eligibility for MO HealthNet is determined solely on the income and resources of the child.

The waiver is administered by the Division of Developmental Disabilities (DD) through an interagency agreement with the Department of Social Services, the Single State Medicaid Agency. Division of DD has 5 Regional Offices with 6 satellite offices (herein referred to as Regional Offices) that are the gatekeepers for the waiver. The Regional Offices determine eligibility, provide case management, and other administrative functions including quality enhancement, person centered planning, and operation of prior authorization and utilization review processes. Through contracts administered by the Department of Mental Health, SB-40 Boards (public entities) and other Targeted Case Management (TCM) entities provide limited waiver administration functions (case management) in coordination with Regional Offices and oversight from the Division of DD.

Service delivery methods in this waiver include provider-managed (for all waiver services); and there is a self-directed option for personal assistant and community specialist.

Each waiver provider has a contract with the Division of DD. Division of DD Regional Offices authorize services to the providers. Providers must bill through the Division of DDs prior authorization system. The Division of DD submits the qualified bills to the Medicaid claim processing fiscal agent. The Medicaid MMIS pays the providers directly for services provided.

The State Option to Provide HCBS in Acute Care Hospitals in accordance with Section 1902(h)(1) of the Act. The state chooses the option to provide HCBS in acute care hospitals under the following conditions.

The HCBS are provided to meet needs of the individual that are not met through the provision of acute care hospital services;

The HCBS are in addition to, and may not substitute for, the services the acute care hospital is obligated to provide;

The HCBS must be identified in the individual's person-centered service plan; and

The HCBS should be used to ensure smooth transitions between acute care setting and community-based settings and to preserve the individual's functional abilities.

The 1915(c) HCBS that can be provided by the 1915(c) HCBS provider are not duplicative of services available in the acute care hospital setting.

The 1915(c) HCBS will assist the individual in returning to the community, and are designed to ensure smooth transitions between acute care settings and home and community-based settings.

3. Components of the Waiver Request

The waiver application consists of the following components. *Note: Item 3-E must be completed.*

A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.

B. Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the state expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

C. Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.

D. Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the state uses to develop, implement and monitor the participant-centered service plan (of care).

E. Participant-Direction of Services. When the state provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):

- ☒ **Yes. This waiver provides participant direction opportunities.** Appendix E is required.
- ☐ **No. This waiver does not provide participant direction opportunities.** Appendix E is not required.

F. Participant Rights. Appendix F specifies how the state informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

G. Participant Safeguards. Appendix G describes the safeguards that the state has established to assure the health and welfare of waiver participants in specified areas.

H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.

I. Financial Accountability. Appendix I describes the methods by which the state makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

J. Cost-Neutrality Demonstration. Appendix J contains the state's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

A. Comparability. The state requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid state plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.

B. Income and Resources for the Medically Needy. Indicate whether the state requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (*select one*):

- ☐ Not Applicable
- ☒ No
- ☐ Yes

C. Statewide. Indicate whether the state requests a waiver of the statewide requirements in §1902(a)(1) of the Act (*select one*):

- ☒ No
- ☐ Yes

If yes, specify the waiver of statewide requirements that is requested (*check each that applies*):

- ☐ **Geographic Limitation.** A waiver of statewide requirements is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the state. Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:

- ☐ **Limited Implementation of Participant-Direction.** A waiver of statewide requirements is requested in order to make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the state. Participants who reside in these areas may elect to direct their services as provided by the state or receive comparable services through the service delivery methods that are in effect elsewhere in the state. Specify the areas of the state affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the state provides the following assurances to CMS:

- A. Health & Welfare:** The state assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
1. As specified in **Appendix C**, adequate standards for all types of providers that provide services under this waiver;
 2. Assurance that the standards of any state licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The state assures that these requirements are met on the date that the services are furnished; and,
 3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable state standards for board and care facilities as specified in **Appendix C**.
- B. Financial Accountability.** The state assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- C. Evaluation of Need:** The state assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in **Appendix B**.
- D. Choice of Alternatives:** The state assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
1. Informed of any feasible alternatives under the waiver; and,
 2. Given the choice of either institutional or home and community-based waiver services. **Appendix B** specifies the procedures that the state employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- E. Average Per Capita Expenditures:** The state assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid state plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in **Appendix J**.
- F. Actual Total Expenditures:** The state assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the state's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- G. Institutionalization Absent Waiver:** The state assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- H. Reporting:** The state assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid state plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- I. Habilitation Services.** The state assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The state assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the state has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the state has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

- A. Service Plan.** In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including state plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- B. Inpatients.** In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.
- C. Room and Board.** In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the state that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- D. Access to Services.** The state does not limit or restrict participant access to waiver services except as provided in **Appendix C**.
- E. Free Choice of Provider.** In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the state has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- F. FFP Limitation.** In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- G. Fair Hearing:** The state provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the state's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
- H. Quality Improvement.** The state operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the state assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The state further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the state will implement the Quality Improvement Strategy specified in **Appendix H**.
- I. Public Input.** Describe how the state secures public input into the development of the waiver:

The Division's Quality Council, which was established in 2006, is comprised of self-advocates and family members. The Council meets quarterly and provides input regarding quality enhancement. The division director and staff from the division's executive management team meet several times each year with the Missouri Developmental Disability Council (formerly Missouri Planning Council), the Missouri Association of County Developmental Disability services, the Missouri Association of Rehabilitation Facilities, and the Missouri ARC. During these meetings, open discussions about the waivers take place. The division periodically assembles ad hoc workgroups to discuss and provide input on specific issues emerging from these discussions. All formal policies and guidelines are developed with stakeholder input, and drafts are posted for comment on the website before finalized and implemented.

In accordance with Centers for Medicare and Medicaid Services (CMS) guidance, the Comprehensive, Community Support Waiver, Missouri Children with Developmental Disabilities (MOCDD) and Partnership for Hope (PfH) Waiver applications were made available for public comment for 30 days beginning XX/XX/XXXX to XX/XX/XXXX to allow all self-advocates, providers and stakeholders an opportunity to provide input.

The public comment notice, along with waiver amendment applications for the Comprehensive, Community Support, Partnership for Hope and Missouri Children with Developmental Disabilities waiver was published on MHD's website with a link to review the entire waiver applications. MHD also published notice in five (5) newspapers in Missouri with the greatest population; The Columbia Tribune, Independence Examiner, Kansas City Star, Springfield News Leader and The St. Louis Post Dispatch, on XX/XX/XXXX.

The notice was published on MHD's website and in the newspaper notifying of the public notice and comment period timeframe. The public notice provided an address for submission of written and electronic comments and the deadline for submission of comments. Once the notice was published in the newspapers and on the MHD website, the public had 30 days to either mail, or email comments to MHD.

Drafts of the waiver amendments were posted on the MO HealthNet website at <https://dss.mo.gov/mhd/alerts~public-notices.htm>.

Written Public Comments were accepted by MO HealthNet and were mailed or emailed to:

MO HealthNet Division
P.O. Box 6500
Jefferson City, MO 65102-6500
Attn: MO HealthNet Director
Email: Ask.MHD@dss.mo.gov

The public comment period was open XX/XX/XXXX to XX/XX/XXXX.

Paper copies were distributed to DMH, Division of Developmental Disabilities Regional Offices.

Below is the comment received:

Federally recognized tribe in the state of Missouri; Kansas City Indian Center. Tribal notice was sent to Kansas City Indian Center by e-mail on XX/XX/XXXX. Comments were requested within 30 days (XX/XX/XXXX-XX/XX/XXXX). No comments were received.

J. Notice to Tribal Governments. The state assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.

K. Limited English Proficient Persons. The state assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003). **Appendix B** describes how the state assures meaningful access to waiver services by Limited English Proficient persons.

8. Authorizing Signature

This document, together with Appendices A through J, constitutes the state's request for a waiver under §1915(c) of the Social Security Act. The state assures that all materials referenced in this waiver application (including standards, licensure and certification requirements) are **readily** available in print or electronic form upon request to CMS through the Medicaid agency or, if applicable, from the operating agency specified in Appendix A. Any proposed changes to the waiver will be submitted by the Medicaid agency to CMS in the form of waiver amendments.

Upon approval by CMS, the waiver application serves as the state's authority to provide home and community-based waiver services to the specified target groups. The state attests that it will abide by all provisions of the approved waiver and will continuously operate the waiver in accordance with the assurances specified in Section 5 and the additional requirements specified in Section 6 of the request.

Attachments**Attachment #1: Transition Plan**

Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

- ☐ Replacing an approved waiver with this waiver.
- ☐ Combining waivers.
- ☐ Splitting one waiver into two waivers.
- ☐ Eliminating a service.
- ☐ Adding or decreasing an individual cost limit pertaining to eligibility.
- ☐ Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
- ☐ Reducing the unduplicated count of participants (Factor C).
- ☐ Adding new, or decreasing, a limitation on the number of participants served at any point in time.
- ☐ Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.
- ☐ Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

The state assures that this waiver amendment or renewal will be subject to any provisions or requirements included in the state's most recent and/or approved home and community-based settings Statewide Transition Plan. The state will implement any CMCS required changes by the end of the transition period as outlined in the home and community-based settings Statewide Transition Plan.

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

CONTINUED FROM APPENDIX I-3-C:

3. Establish Incentive Payments for DMH DD HCBS waiver providers who employ new Direct Support Professionals who participate in the US Department of Labor Missouri Talent Pathways Registered Apprenticeship (Missouri Talent Pathways | dmh.mo.gov).

Payment earned and paid to the DMH DD provider for each qualifying direct support professional that a waiver provider recruits to participate in the Talent Pathways apprenticeship program. This incentive payment is applicable when the DMH DD waiver provider organization contracts for one or more of the following waiver services: Personal Assistant, Personal Assistant - Medical Exception, Day Habilitation, Day Habilitation - Behavioral Exception, Day Habilitation - Medical Exception, Community Networking, Individualized Skill Development, Career Planning, Prevocational, Job Development, Supported Employment, In-Home Respite—Day, In-Home Respite—Individual, In-Home Respite—Group, Out-of-Home Respite—Day, Temporary Residential, Residential Group Homes, Individualized Supported Living, Shared Living, and Intensive Therapeutic Residential Habilitation.

There are two quality payments available:

- One payment of \$1560 is paid to the provider once the direct support professional achieves 50% completion of the Missouri Talent Pathways Certified Direct Support Professional registered apprenticeship program.
- A second payment of \$1560 is paid to the provider once a direct support professional achieves full (100%) completion of the Missouri Talent Pathways Certified Direct Support Professional registered apprenticeship program in accordance with required wage increase.

DMH DD HCBS waiver provider eligible employees are either: 1) New direct support professionals who enroll in the Certified Direct Support Professional Apprentice Program within the first 45 days of employment or 2) Previous employees who enroll in the Certified Direct Support Professional Apprentice Program and who have at least 6 months of employment separation from the HCBS waiver provider. HCBS waiver providers retain all 100% of the value based payment incentive supplemental, including the Federal and State Share.

4. Establish incentive payments for DMH DD providers who demonstrate their non-licensed professional staff who deliver Home and Community Based services have completed certain levels of direct support professional training above the required training. This incentive payment is applicable when the DMH DD waiver provider organization contracts for one or more of the following waiver services: Personal Assistant, Personal Assistant - Medical Exception, Day Habilitation, Day Habilitation - Behavioral Exception, Day Habilitation - Medical Exception, Community Networking, Individualized Skill Development, Career Planning, Prevocational, Job Development, Supported Employment, In-Home Respite—Day, In-Home Respite—Individual, In-Home Respite—Group, Out-of-Home Respite—Day, Temporary Residential, Residential Group Homes, Individualized Supported Living, Shared Living, and Intensive Therapeutic Residential Habilitation.

Payment earned and paid to the DMH DD provider based on percentage of staff meeting a given training level.

Three levels of incentive payments are available as follows:

1. Provider can demonstrate that 90% of their DSP workforce that has at least 6 month tenure with the same agency has completed level 1 DSP training;
2. Provider can demonstrate that level 1 DSP benchmark has been met and maintained and 50% of DSP workforce that has at least 6 months tenure with the same agency has completed level 2 DSP training;
3. Provider can demonstrate that level 1 and 2 DSP benchmarks have been met and maintained and 50% of DSP workforce that has at least 1 year tenure with the same agency has completed level 3 DSP training.

A DMH DD provider may earn an incentive payment for each training level twice a year, once every six months (i.e., once for the July-December time period and once for the January-June time period). To earn the payment(s), the provider must provide verification to the state that shows their DSP workforce has met one of the above training levels. The incentive payment amount is equivalent to 1% per each training level (maximum of 3%) of the total applicable Medicaid paid claims made to the agency provider for the applicable six month period. Applicable Medicaid paid claims are: Personal Assistant, Personal Assistant - Medical Exception, Day Habilitation, Day Habilitation - Behavioral Exception, Day Habilitation - Medical Exception, Community Networking, Individualized Skill Development, Career Planning, Prevocational, Job Development, Supported Employment, In-Home Respite—Day, In-Home Respite—Individual, In-Home Respite—Group, Out-of-Home Respite—Day, Temporary Residential, Residential Group Homes, Individualized Supported Living, Shared Living, and Intensive Therapeutic Residential Habilitation.

HCBS waiver providers retain all 100% of the value based payment incentive supplemental, including the Federal and State Share.

5. Establish Incentive Payments for DMH DD HCBS Waiver service providers of residential, in-home, and non-residential services that complete the National Core Indicator (NCI)-IDD State of the Workforce Survey and subsequent annual NCI-IDD State of the Workforce Surveys.

Payment earned and paid to the DMH DD provider organization for annual survey completion in the NCI system.

There is one payment available per year per DMH DD provider organization. The payment is an annual lump sum payment of \$2,000. This incentive payment is applicable when the waiver provider organization contracts for one or more of the following waiver services: Personal Assistant, Personal Assistant - Medical Exception, Day Habilitation, Day Habilitation - Behavioral Exception, Day Habilitation - Medical Exception, Community Networking, Individualized Skill Development, Career Planning, Prevocational, Job Development, Supported Employment, In-Home Respite—Day, In-Home Respite—Individual, In-Home Respite—Group, Out-of-Home Respite—Day, Temporary Residential, Residential Group Homes, Individualized Supported Living, Shared Living, and Intensive Therapeutic Residential Habilitation providers. To earn the payment, the provider must submit a completed NCI-IDD State of the Workforce Survey to the NCI system by NCI's deadline. HCBS waiver providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.

6. Establish Incentive Payments for DMH DD Agency Residential Service; Group Home, Individualized Supported Living, Shared Living, and Intensive Therapeutic Residential Habilitation where designated provider agency staff serving in the role of the Health Risk Screening Tool (HRST) Rater are engaged in completing the initial HRST for waiver participants.

Payment earned and paid to the DMH DD provider when designated provider agency staff successfully complete the initial HRST for waiver participants in the IntellectAbility electronic system.

There is a one-time payment of \$72.20 to the DMH DD provider for each individual initial HRST that a provider completes prior to end of State Fiscal Year 2023. HCBS waiver providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.

7. Establish Incentive Payments for DMH DD Agency Respite and Agency Individualized Supported Living Services where waiver Agency Respite & Agency ISL providers have assisted waiver participants to implement Remote Supports.

Payment earned and paid to the DMH DD Agency Individualized Supported Living and Agency Respite provider based on cost savings realized through the implementation of Remote Supports in the Assistive Technology service and the correlating decrease in Agency Respite and Agency Individualized Supported Living services. The goal of remote supports implementation is person-centered to attain a level of independence and self-sufficiency while maintaining and supporting community integration. The State supports remote supports to address goals related to self-direction, independence, and control of their own home. Increased independence and self-direction positively impacts a person's ability to participate in community activities and develop non-paid relationships with community members. Remote monitoring will assist the individual to fully integrate into the community, participate in community activities, and avoid isolation.

The payment to the DMH DD provider is equivalent to 15% of the savings realized due to the reduction of individualized supported living or respite paid supports with the implementation of remote supports. The savings is calculated as follows:

Individualized Supported Living

- a. The hours authorized to Individualized Supported Living in the month prior to remote support implementation at the current ISL unit rate reimbursed OR when the two services are implemented simultaneously and no previous month of Individualized Supported Living exists, the savings is based on the individual's share of twenty-four hours a day of Individualized Supported Living at the current unit rate reimbursement supports. LESS
- b. The hours authorized to Individualized Supported Living at the current unit rate in the remote support implemented eligible month of the quality incentive payment LESS
- c. The monthly authorized amount for remote support components (purchase, lease, monthly service agreement, and remote response staff).

Agency respite

- d. The difference of average respite hours per month utilized in the previous individualized support plan year less the respite hours utilized in the remote support implemented eligible month of the quality incentive payment equals the number of hours saved.
- e. The number of respite hours saved at the current respite reimbursement rate LESS
- f. The number of respite hours saved at the hourly cost of all remote support components (purchase, lease, monthly service

agreement, and remote response staff).

The savings is calculated monthly and summed across the previous six (6) calendar month period. Then this is multiplied by 15% to obtain the provider's incentive payment. A provider may earn the quality payment up to twice a year. HCBS waiver providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.

8. Establish Pay for Reporting incentive payments for DMH DD waiver providers who deliver Individualized Supported Living (ISL) services and submit identified positive behavior support data elements.

Payment earned and paid to the DMH DD provider for active Tiered Agencies that provide Individualized Supported Living and submit 100% of data elements identified in the tiered supports monthly data share (Tiered Supports | dmh.mo.gov).

Twelve payments of \$174 paid to ISL agencies are available, one for each month in which 100% of data elements for the previous calendar month are reported. DMH DD HCBS waiver providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.

9. Establish quality incentive payments for DMH DD Agency Individualized Supported Living providers who successfully implement Tiered Supports

Payment earned and paid to DMH DD ISL agencies who implement Tiered Supports system using criteria defined in the provider contract.

Three levels of payment are available on a quarterly basis:

1. High Implementation Payment: The agency demonstrates evidence of substantial implementation of best practice positive behavior support on quarterly Tier One Systems Assessment. This includes adoption and execution of PBS values, regular data-based problem solving, regular communication channels, competency-based training and ongoing coaching of direct support staff, and data systems that capture agency processes and immediate outcomes. Payments of \$15,000 paid to the provider are available, one for each quarter in which this level of implementation is met for the previous quarter. HCBS providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.
2. Moderate Implementation Payment: The agency demonstrates evidence of moderate implementation of best practice positive behavior support on quarterly Tier One Systems Assessment. This includes partial adoption and execution of PBS values, regular data-based problem solving, regular communication channels, competency-based training and ongoing coaching of direct support staff, and data systems that capture agency processes and immediate outcomes. Payments of \$10,500 paid to the provider are available, one for each quarter in which this level of implementation is met for the previous quarter. HCBS providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.
3. Low Implementation Payment: The agency demonstrates evidence of minimal implementation of best practice positive behavior support on quarterly Tier One Systems Assessment. This includes planning for adoption and execution of PBS values, regular data-based problem solving, regular communication channels, competency-based training and ongoing coaching of direct support staff, and data systems that capture agency processes and immediate outcomes. Payments of \$6,000 paid to the provider are available, one for each quarter in which this level of implementation is met for the previous quarter. HCBS providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.

10. Establish Incentive Payments for DMH DD HCBS Waiver service providers of residential services that have agency assigned MO HRST Raters complete the Electronic MO Person Centered Thinking Training in the IntellectAbility System.

Payment earned and paid to the DMH DD provider organization when designated MO HRST Rater staff for the provider agency successfully complete the Electronic MO Person Centered Thinking Training in the IntellectAbility electronic system.

There is a one-time payment of \$288.80 (\$72.20 x 4) to the DMH DD residential service provider for each agency MO HRST Rater that completes the designated training in the IntellectAbility electronic system prior to end of State Fiscal Year 2024. HCBS waiver residential service providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.

11. Establish Incentive Payments for DMH DD HCBS Waiver service providers of residential services that have agency assigned MO HRST Raters complete the Electronic Advanced Fatal Five Plus Training in the IntellectAbility System.

Payment earned and paid to the DMH DD provider organization when designated MO HRST Rater staff for the provider agency

successfully complete the Electronic Advanced Fatal Five Plus Training in the IntellectAbility System.

There is a one-time payment of \$433.20 (\$72.20 x 6) to the DMH DD residential service provider for each agency MO HRST Rater that completes the designated training in the IntellectAbility electronic system prior to end of State Fiscal Year 2024. HCBS waiver residential service providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.

VIRTUAL DELIVERY ASSURANCES continued from Behavior Analysis service definition.

Virtual Delivery of Services (VDS) is an allowable mode of delivery for Applied Behavior Analysis services. The use of VDS must be aligned with the individual's preference, assessed need through the person centered planning process and identified in the Individual Support Plan. The purpose of a VDS option is to maintain and/or improve an individual's functional abilities, enhance interactions, support meaningful relationships, and promote their ability to live independently in their community. The VDS must meet the following requirements:

- Each provider of the VDS option must demonstrate policies and procedures that include they have a HIPAA compliant platform. Compliance
 - will be reviewed regularly through the licensure and certification survey and provider relations monitoring process.
- Each provider will sign an attestation that they are using a HIPAA compliant platform for the virtual delivery service component. The
 - provider requirements and assurances regarding HIPAA have been approved by the state's HIPAA Compliance Officer.
- Privacy rights of individuals will be assured. Each individual will utilize their own equipment or equipment provided by the provider
 - during the provision of virtual delivery services. The individual has full control of the device, can turn off the device and end services any time they wish.
- VDS must be delivered using a live, non-public facing, real-time audio-visual connection that allows the staff member to actively
 - interact with the individual. Text messaging and e-mailing do not constitute virtual support and, therefore, will not be considered provision of support under this waiver program service.
- Individuals must have informed choice between in person and VDS.
- The service provider will maintain documentation of each individual's written consent.
- The service provider must maintain a physical location where in-person services are offered.
- There must always be an option for in-person services. Individuals who require hands on assistance during the provision of the service
 - must receive services in-person.
- The provider must develop and maintain written policies, train staff on those policies, and advise individuals and their person-centered
 - planning team regarding those policies that address:
- The VDS individuals can select;
- The process to assess appropriateness of VDS;
- Identification of whether the individual's needs, including health and safety, can be addressed safely via VDS;
- Identification of intervention strategies if the individual experiences an emergency during provision of VDS.
- The use of the VDS option will not restrict, prohibit or limit the use of in-person services or access to the community.
- VDS will not be used for the provider's convenience. The option must be used to support an individual in achieving goals and outcomes
 - identified in their person centered plan.

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (*select one*):

- ☐ The waiver is operated by the state Medicaid agency.

Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (*select one*):

☐ **The Medical Assistance Unit.**

Specify the unit name:

(Do not complete item A-2)

☐ **Another division/unit within the state Medicaid agency that is separate from the Medical Assistance Unit.**

Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

(Complete item A-2-a).

☒ **The waiver is operated by a separate agency of the state that is not a division/unit of the Medicaid agency.**

Specify the division/unit name:

Missouri Department of Mental Health, Division of Developmental Disabilities

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. *(Complete item A-2-b).*

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

The Missouri DSS, MO HealthNet Division (MHD) has developed a HCBS waiver quality management strategy that is used to ensure that the operating agency, the Division of DD, is performing its assigned waiver operational functions and administrative functions in accordance with the waiver requirements during the period that the waiver is in effect. MHD and Division of DD meet quarterly to discuss administrative/operational components of the Missouri Children with Developmental Disabilities Waiver. This time is also used to discuss the quality assurances as outlined in Appendix H. Through a Memorandum of Understanding (MOU) that exists between the two (2) agencies, communication remains open and additional discussions occur on an as needed basis.

MHD conducts an analysis of quarterly and annual reports submitted by Division of DD to ensure that the operational functions as outlined in A-7 are being implemented in a quality manner. MHD reviews the information to ensure the following assurances are meeting the established outcomes: 1) Level of Care (LOC), 2) Plan of Care, 3) Qualified Providers, 4) Health and Welfare, 5) Administrative Authority, and 6) Financial Accountability. Meetings take place quarterly and annually between MHD and Division of DD to discuss MHD's analysis of the reports submitted by Division of DD. MHD and Division of DD work together to address any deficiencies, outlining the steps to be taken to ensure the waiver assurances are being met. MHD works closely with Division of DD to set goals and establish timeframes for remediation and improvement activities. If significant problems are identified, MHD may decide to follow-up with a targeted review to ensure the problem is remediated. These findings are again discussed during quarterly quality review meetings.

In addition to Division of DD's ongoing record reviews throughout the year, MHD annually reviews a randomly selected sample of participant records. The MHD provides Division of DD with a findings report and the Division of DD provides remediation and any needed corrective action plan to MHD outlining the steps being taken to address the findings or any problem areas identified. MHD continues to monitor for compliance to ensure that the action steps have been taken in a timely manner.

The MHD monitors that DMH Division of DD is providing oversight for disseminating information concerning the waiver to potential enrollees, assisting individuals in waiver enrollment, and conducting level of care (LOC) evaluation activities through quarterly meetings, review of quarterly and annual reports and MHD's annual record review.

Appendix A: Waiver Administration and Operation

3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (*select one*):

- ☒ **Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).**

Specify the types of contracted entities and briefly describe the functions that they perform. *Complete Items A-5 and A-6.:*

Division of DD has a statewide contract for Vendor Fiscal Employer Agent (VF/EA) Financial Management Services (FMS) that provides administrative functions to support individuals who self-direct services. This is the only contracted entity that provides administrative services to waiver participants. The contractor's responsibilities are specifically related to processing payroll and reporting and paying related taxes and is not responsible for any functions listed in A-7.

- ☐ **No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).**

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (*Select One*):

- ☐ **Not applicable**
- ☒ **Applicable** - Local/regional non-state agencies perform waiver operational and administrative functions. Check each that applies:

- ☒ **Local/Regional non-state public agencies** perform waiver operational and administrative functions at the local or regional level. There is an **interagency agreement or memorandum of understanding** between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

Specify the nature of these agencies and complete items A-5 and A-6:

Local non-state entities (counties), referred to as Missouri County SB-40 Boards that are approved to provide Targeted Case Management for persons who have Developmental Disabilities, perform waiver operational and administrative functions at the local level with oversight from the operating agency, Division of DD. There is a contract between the Division of DD and these entities that sets out the responsibilities and performance requirements. The contract between the State operating agency and these entities is available through the MHD, the Medicaid agency. Participation in administrative/operational functions include: Participant waiver enrollment; waiver enrollment managed against approved limits; LOC evaluation; review of participants' service plans; utilization management; quality assurance and quality improvement activities.

The delegated functions are based on regional availability. The Division of DD designates local non-state entities and local non-governmental, non-state entities and maintains an active case management agreement or inter-governmental agreement with the Division of DD.

- ☒ **Local/Regional non-governmental non-state entities** conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The **contract(s)** under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

Local non-governmental non-state entities, referred to as other not for profit entities that contract with the Division of DD to provide Targeted Case Management services perform waiver operational and administrative functions at the local level with oversight from the operating agency, Division of DD. There is a contract between the State and these entities that sets out the responsibilities and performance requirements for these entities. The MOU between the State operating agency and these entities is available through the MHD, the Medicaid agency. Participation in administrative/operational functions include: Participant waiver enrollment; waiver enrollment managed against approved limits; LOC evaluation; review of participants' service plans; utilization management; quality assurance and quality improvement activities.

Appendix A: Waiver Administration and Operation

- 5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities.** Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

The Operating Agency, Division of DD, is responsible for assessing the performance of entities approved as TCM providers for persons who have developmental disabilities and that also have responsibility for limited waiver administrative functions. In addition, the sample records of waiver participants that the MHD reviews, includes records of individuals for whom SB-40 County Boards provide administrative functions.

Division of DD is also responsible for monitoring the VF/EA FMS contractor to ensure participants are promptly enrolled, workers are accurately paid, and associated payroll taxes for the employers are deposited.

Appendix A: Waiver Administration and Operation

- 6. Assessment Methods and Frequency.** Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in

accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

1) Support coordinators employed by regional offices and other approved TCM entities conduct the initial and annual LOC evaluation. The Division of DD Regional Offices provides final approval of eligibility decisions, all support plans, and prior authorizations.

Each Regional Office has a Utilization Review (UR) process. The UR process is used for review of all new service plans and budgets and also any support plans and associated budget when an increase in spending or new service is requested. All decisions are subject to the approval of the MHD.

2) Division of DD Regional Office Technical Assistance Coordinators (TAC) conducts quarterly reviews with TCM entities (both local public entities and local non-public entities) that have been delegated waiver administrative functions in the following areas:

a. Participant waiver enrollment

Qualifications of staff;

Evidence the annual support plan was prepared according to guidelines;

Evidence due process and appeals processes are followed;

Accuracy of information entered in the Division of DD Information System;

Evidence records are maintained for each consumer receiving support coordination; and

Evidence participant was provided choice of waiver service or ICF-ID service.

b. Participant waiver enrollment managed against approved limits

c. LOC evaluation

Qualifications of staff;

Evidence the ICF/ID LOC form was completed following the procedures;

Evidence the participant was accurately found eligible or ineligible; and

Evidence participants were reevaluated annually by qualified staff, who followed the process; and

Evidence determinations were accurate

d. Review of participant support plans

e. Utilization management

Support plan supports waiver services that are prior authorized;

Support coordinator case notes indicate monitoring was conducted of participants to prevent occurrences of abuse, neglect, and exploitation using risk assessment & planning;

Service authorizations accurately reflect budget and support plan;

Support plans are updated/reviewed at least annually or when warranted by changes in the participant's needs;

Evidence that provider monthly reviews were done and documented in log notes;

Evidence that quarterly reviews were prepared;

Evidence services were delivered in accordance with the support plan including the type, scope, amount, duration, and frequency as specified in the support plan.

f. Quality assurance and quality improvement activities

3) Annually, the MHD reviews case records for a randomly selected group of waiver participants. This is a comprehensive compliance review of all waiver administrative responsibilities. All determinations and decisions by Division of DD and county entities in operating the waiver are subject to approval of the MHD.

MHD, at any time, can choose to review and approve/deny any of the items identified in this section. Per 3) annually MHD reviews case records. In addition, MHD conducts an analysis of all quarterly and annual reports.

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.*

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze

and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of DMH's quality reviews with findings which have been remediated.
(Number of DMH's quality reviews with findings that have been remediated by DMH/total number of quality reviews that had findings determined to require remediation.)

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

MO HealthNet receives and reviews quarterly reports from the Division of DD in advance of quarterly quality oversight meetings. These reports are discussed with the Division of DD administrative and quality enhancement leadership team prior to quality oversight meetings. These meetings are held to discuss findings from the reports. Findings are discussed and trends are noted and are also discussed at quarterly quality oversight meetings. As needed, MO HealthNet requests additional information and corrective action, based on a review of data reported and discussed. Quarterly quality oversight meeting minutes record discussions and follow-up/remediation actions required of the Division of DD by MO HealthNet.

In addition to quarterly reviews, issues which require individual remediation may come to MO HealthNet's attention through day-to-day activities and communications. Activities may include utilization review and quality review processes or complaints from MHD participants by phone or letter relating to waiver participation/operation.

MHD addresses individual problems as they are discovered by contacting Division of DD and advising them of the issue. A follow-up memo or email is sent from MHD to Division of DD identifying the problem, and if appropriate, a corrective action resolution. While some issues may need to be addressed immediately, remediation activities will be reported to MO HealthNet by the Division of DD as follow-up to these activities, and will also be aggregated in the Division of DD Quality Management Reports. Based upon the situation, MHD will establish an appropriate timeframe for Division of DD to respond. Written documentation is maintained by both MHD and Division of DD, and as needed, discussion will be included during quarterly quality meetings. Any trends or patterns will be discussed and resolved as appropriate.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party(<i>check each that applies</i>):	Frequency of data aggregation and analysis (<i>check each that applies</i>):

	<input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 30px; width: 100%; margin-top: 5px;"></div>

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

- a. Target Group(s).** Under the waiver of Section 1902(a)(10)(B) of the Act, the state limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:*

Target Group	Included	Target SubGroup	Minimum Age	Maximum Age	
				Maximum Age Limit	No Maximum Age Limit
<input type="checkbox"/> Aged or Disabled, or Both - General					
	<input type="checkbox"/>	Aged			<input type="checkbox"/>
	<input type="checkbox"/>	Disabled (Physical)			
	<input type="checkbox"/>	Disabled (Other)			
<input type="checkbox"/> Aged or Disabled, or Both - Specific Recognized Subgroups					
	<input type="checkbox"/>	Brain Injury			<input type="checkbox"/>
	<input type="checkbox"/>	HIV/AIDS			<input type="checkbox"/>
	<input type="checkbox"/>	Medically Fragile			<input type="checkbox"/>
	<input type="checkbox"/>	Technology Dependent			<input type="checkbox"/>
<input checked="" type="checkbox"/> Intellectual Disability or Developmental Disability, or Both					
	<input type="checkbox"/>	Autism			<input type="checkbox"/>
	<input checked="" type="checkbox"/>	Developmental Disability	0	17	<input type="checkbox"/>
	<input checked="" type="checkbox"/>	Intellectual Disability	0	17	<input type="checkbox"/>
<input type="checkbox"/> Mental Illness					
	<input type="checkbox"/>	Mental Illness			<input type="checkbox"/>
	<input type="checkbox"/>	Serious Emotional Disturbance			

- b. Additional Criteria.** The state further specifies its target group(s) as follows:

The child must be living at home and not in a group home residential placement or in custody of the state. The child must be under the age of 18.

- c. Transition of Individuals Affected by Maximum Age Limitation.** When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (*select one*):

- ☐ Not applicable. There is no maximum age limit
- ☒ The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.

Specify:

Prior to the individual's 18th birthday, the needs of the participant and how best to meet the needs will be reassessed. All potential means of continuing to meet the participant's needs will be considered including, but not limited to: access to private insurance, State plan services, local programs, other state programs, and enrollment in another DD HCBS waiver for which the individual is eligible.

Participants have priority consideration as they age out and there is reserve capacity in the other waivers.

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (*select one*). Please note that a state may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- ☐ **No Cost Limit.** The state does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*
- ☐ **Cost Limit in Excess of Institutional Costs.** The state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the state. *Complete Items B-2-b and B-2-c.*

The limit specified by the state is (*select one*)

- ☐ **A level higher than 100% of the institutional average.**

Specify the percentage:

- ☐ **Other**

Specify:

- ☒ **Institutional Cost Limit.** Pursuant to 42 CFR 441.301(a)(3), the state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. *Complete Items B-2-b and B-2-c.*

- ☐ **Cost Limit Lower Than Institutional Costs.** The state refuses entrance to the waiver to any otherwise qualified individual when the state reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the state that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the state is (*select one*):

- ☐ **The following dollar amount:**

Specify dollar amount:

The dollar amount (*select one*)

- ☐ Is adjusted each year that the waiver is in effect by applying the following formula:

Specify the formula:

- ☐ May be adjusted during the period the waiver is in effect. The state will submit a waiver amendment to CMS to adjust the dollar amount.
- ☐ The following percentage that is less than 100% of the institutional average:

Specify percent:

- ☐ Other:

Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

- b. Method of Implementation of the Individual Cost Limit.** When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

In advance of enrollment in the waiver, the needs of the individual and how best to meet the needs are identified. From this assessment, a support plan is developed that specifies the amount, frequency, and duration of all services that are needed to assure health and safety. All potential sources for meeting the needs will be explored such as private insurance, other federal programs, state and local programs as well as non-paid support provided by family and friends. The total cost of needed services through the waiver will be compared to the average cost of ICF/ID care.

If enrollment in the waiver is denied, the applicant is notified in writing that they have an opportunity to request a fair hearing.

- c. Participant Safeguards.** When the state specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the state has established the following safeguards to avoid an adverse impact on the participant (*check each that applies*):

- ☐ The participant is referred to another waiver that can accommodate the individual's needs.
- ☐ Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

- ☒ Other safeguard(s)

Specify:

Participants in this waiver are not eligible for MO HealthNet due to parental income and resources without access to the waiver. Therefore, they will not be eligible for another waiver. Other safeguards: 1) Most have private insurance and are encouraged to keep their private insurance coverage. Children whose parents have or have access to private insurance are encouraged to apply for the DSS Health Insurance Premium Payment Program; and 2) participants are children under the age of 18 whose family members usually assist with some of the care without compensation. If an individual cap was met and additional services were needed, the Regional Office may consider using State funds to meet the additional need, may refer the family to a local County SB-40 Board for funds to meet the additional need, and may refer the individual to other services in the community.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

- a. Unduplicated Number of Participants.** The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The state will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year	Unduplicated Number of Participants
Year 1	366
Year 2	366
Year 3	366
Year 4	366
Year 5	366

- b. Limitation on the Number of Participants Served at Any Point in Time.** Consistent with the unduplicated number of participants specified in Item B-3-a, the state may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the state limits the number of participants in this way: *(select one)*

- ☒ The state does not limit the number of participants that it serves at any point in time during a waiver year.
☐ The state limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b

Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	
Year 2	
Year 3	
Year 4	
Year 5	

Appendix B: Participant Access and Eligibility

c. Reserved Waiver Capacity. The state may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (*select one*):

- ☐ Not applicable. The state does not reserve capacity.
- ☒ The state reserves capacity for the following purpose(s).

Purpose(s) the state reserves capacity for:

Purposes	
Emergency/Crisis Status Determined by Utilization Review	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (*provide a title or short description to use for lookup*):

Emergency/Crisis Status Determined by Utilization Review

Purpose (*describe*):

Assure individuals on waiting lists with greatest needs are given priority consideration for participation when openings occur. The prioritization of need process assesses the child's unmet needs and assigns points on a scale of 0-12. Twelve (12) representing individuals who have the greatest need in the state. Individuals with scores of 12 are served first state wide before individuals with scores of 11, 10, etc.

Describe how the amount of reserved capacity was determined:

Based on experience in operating the waiver the average annual turnover is 16.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	16
Year 2	16
Year 3	16
Year 4	16
Year 5	16

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. Scheduled Phase-In or Phase-Out. Within a waiver year, the state may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):

- ☒ The waiver is not subject to a phase-in or a phase-out schedule.
- ☐ The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix

B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. Allocation of Waiver Capacity.

Select one:

- ☒ Waiver capacity is allocated/managed on a statewide basis.
- ☐ Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

Division of DD's UR Process, conducted by regional offices, prioritizes the needs of individuals in order to identify and serve individuals with the greatest needs first. The UR process is applied to all new support plans and new/increased budgets developed by planning teams. The UR process is standardized for use at all regional offices. Support plans and budgets developed by TCM Entities are also subject to this review process. The process rates priority of need and assigns points with a score of 12 representing individuals who have the greatest need in the State. Individuals with scores of 12 are served first statewide before individuals with scores of 11, 10, etc. are served. Should there be any change in the person's status during this time, the UR Process will be updated in order to reflect the individual's current needs.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

a. 1. State Classification. The state is a (select one):

- ☐ §1634 State
- ☐ SSI Criteria State
- ☒ 209(b) State

2. Miller Trust State.

Indicate whether the state is a Miller Trust State (select one):

- ☐ No
- ☒ Yes

b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the state plan. The state applies all applicable federal financial participation limits under the plan. Check all that apply:

Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)

- ☐ Low income families with children as provided in §1931 of the Act

- ☐ SSI recipients
- ☐ Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121
- ☐ Optional state supplement recipients
- ☐ Optional categorically needy aged and/or disabled individuals who have income at:

Select one:

- ☐ 100% of the Federal poverty level (FPL)
- ☐ % of FPL, which is lower than 100% of FPL.

Specify percentage:

- ☐ Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII) of the Act)
- ☐ Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act)
- ☐ Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)
- ☐ Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)
- ☐ Medically needy in 209(b) States (42 CFR §435.330)
- ☐ Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)
- ☒ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

See below, special home and community-based waiver group under 42 CFR 435.217.

Special home and community-based waiver group under 42 CFR §435.217) Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed

- ☐ No. The state does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.
- ☒ Yes. The state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

Select one and complete Appendix B-5.

- ☐ All individuals in the special home and community-based waiver group under 42 CFR §435.217
- ☒ Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

- ☒ A special income level equal to:

Select one:

- ☐ 300% of the SSI Federal Benefit Rate (FBR)
- ☐ A percentage of FBR, which is lower than 300% (42 CFR §435.236)

Specify percentage:

- ☒ A dollar amount which is lower than 300%.

Specify dollar amount:

- ☐ Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)
- ☐ Medically needy without spend down in states which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)
- ☐ Medically needy without spend down in 209(b) States (42 CFR §435.330)
- ☐ Aged and disabled individuals who have income at:

Select one:

- ☐ 100% of FPL
- ☐ % of FPL, which is lower than 100%.

Specify percentage amount:

- ☒ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

The State is not adding any additional eligibility groups. Only the special home and community-based waiver group under 42 CFR 432.217 in a special income level equal to \$1,370 as of 1/1/20. For each calendar year for the remainder of this waiver period, the special income level will be adjusted on January 1 by a percentage equal to any Social Security COLA in effect for that year.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

- a. Use of Spousal Impoverishment Rules.** Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the period beginning January 1, 2014 and extending through September 30, 2019 (or other date as required by law), the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

- ☒ **Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the state uses spousal post-eligibility rules under §1924 of the Act.**

Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law).

Note: The following selections apply for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law) (select one).

- ☒ **Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.**

In the case of a participant with a community spouse, the state elects to (select one):

- ☒ **Use spousal post-eligibility rules under §1924 of the Act.**
(Complete Item B-5-c (209b State) and Item B-5-d)

- ☐ Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State) (Complete Item B-5-c (209b State). Do not complete Item B-5-d)
- ☐ Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The state uses regular post-eligibility rules for individuals with a community spouse. (Complete Item B-5-c (209b State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

c. Regular Post-Eligibility Treatment of Income: 209(B) State.

The state uses more restrictive eligibility requirements than SSI and uses the post-eligibility rules at 42 CFR 435.735 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following amounts and expenses from the waiver participant's income:

i. Allowance for the needs of the waiver participant (select one):

- ☐ The following standard included under the state plan

(select one):

- ☐ The following standard under 42 CFR §435.121

Specify:

- ☐ Optional state supplement standard
- ☐ Medically needy income standard
- ☐ The special income level for institutionalized persons

(select one):

- ☐ 300% of the SSI Federal Benefit Rate (FBR)
- ☐ A percentage of the FBR, which is less than 300%

Specify percentage:

- ☐ A dollar amount which is less than 300%.

Specify dollar amount:

- ☐ A percentage of the Federal poverty level

Specify percentage:

- ☐ Other standard included under the state Plan

Specify:

- ☐ The following dollar amount

Specify dollar amount: If this amount changes, this item will be revised.

- ☐ The following formula is used to determine the needs allowance:

Specify:

- ☒ Other

Specify:

The allowance for the needs of the participant is \$1,370 as of 1/1/20. For each calendar year for the remainder of this waiver period, allowance for the needs of the participant will be adjusted on January 1 by a percentage equal to any Social Security COLA in effect for that year.

ii. Allowance for the spouse only (select one):

- ☒ Not Applicable
- ☐ The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:

Specify:

Specify the amount of the allowance (select one):

- ☐ The following standard under 42 CFR §435.121

Specify:

- ☐ Optional state supplement standard

- ☐ Medically needy income standard

- ☐ The following dollar amount:

Specify dollar amount: If this amount changes, this item will be revised.

- ☐ The amount is determined using the following formula:

Specify:

iii. Allowance for the family (select one):

- ☐ Not Applicable (see instructions)
☒ AFDC need standard
☐ Medically needy income standard
☐ The following dollar amount:

Specify dollar amount: The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

- ☐ The amount is determined using the following formula:

Specify:

- ☐ Other

Specify:

iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

- a. Health insurance premiums, deductibles and co-insurance charges
 b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

- ☐ Not Applicable (see instructions) *Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.*
☒ The state does not establish reasonable limits.
☐ The state establishes the following reasonable limits

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

(select one):

- ☐ SSI standard
- ☐ Optional state supplement standard
- ☐ Medically needy income standard
- ☐ The special income level for institutionalized persons
- ☐ A percentage of the Federal poverty level

Specify percentage:

- ☐ The following dollar amount:

Specify dollar amount: If this amount changes, this item will be revised

- ☐ The following formula is used to determine the needs allowance:

Specify formula:

- ☒ Other

Specify:

The allowance for the needs of the participant is \$1,370 as of 1/1/20. For each calendar year for the remainder of this waiver period, allowance for the needs of the participant will be adjusted on January 1 by a percentage equal to any Social Security COLA in effect for that year.

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:

- ☒ Allowance is the same
- ☐ Allowance is different.

Explanation of difference:

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:

- a. Health insurance premiums, deductibles and co-insurance charges
- b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

- ☐ **Not Applicable (see instructions)** *Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.*
- ☒ **The state does not establish reasonable limits.**
- ☐ **The state uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.**

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

e. Regular Post-Eligibility Treatment of Income: SSI State or §1634 State - 2014 through 2018.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

f. Regular Post-Eligibility Treatment of Income: 209(B) State - 2014 through 2018.

Answers provided in Appendix B-5-a indicate the selections in B-5-c also apply to B-5-f.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the state provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

- a. **Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the state's policies concerning the

reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is:

ii. Frequency of services. The state requires (select one):

- ☐ The provision of waiver services at least monthly
- ☒ Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the state also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (*select one*):

- ☐ Directly by the Medicaid agency
- ☐ By the operating agency specified in Appendix A
- ☒ By a government agency under contract with the Medicaid agency.

Specify the entity:

The State Plan was amended in 2009 to add a fourth type of TCM provider: not for profit agency registered with Secretary of State and designated by the Division of DD. The Division of DD Regional Office has final approval of all LOC evaluations.

An approved ISP on the wait list indicates the division has agreed there is a reasonable indication services may be needed in the future.

Initial evaluations and reevaluations are conducted by a qualified support coordinator employed by the Division of DD or TCM Entities approved by the Division of DD to provide TCM. Initial evaluations and reevaluations LOC determinations are approved by the Division of DD RO's and are subject to the approval of the State Medicaid Agency.

- ☐ Other
- Specify:*

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Initial evaluations are conducted by a qualified Support coordinator employed by the Division of DD or TCM Entities approved by Division of DD to provide TCM. All LOC determinations are approved by the Division of DD Regional Offices and are subject to the approval of the State Medicaid Agency.

Qualifications of individuals performing LOC evaluations are specified in the Medicaid state plan for TCM for persons with developmental disabilities approved by CMS effective July 1, 2018. This states that case managers employed by a qualified provider shall have one of the following qualifications: (1) A Registered Nurse; or (2) A Bachelor's degree from an accredited college or university. Case managers employed by a qualified provider on or before June 30, 2018 shall remain qualified.

- d. Level of Care Criteria.** Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the state's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The tool used to evaluate and reevaluate LOC is "Evaluation of Need for an ICF/DD Level of Care and Eligibility for the DD Waiver." An assessment of the individual is conducted before the Level of Care Determination form is completed. The Division uses standard tools to determine level of functioning. The appropriate assessment tool for determining functional limitations are specified in Chapter 2 of 9CSR-45. Historically, the division used the MOCABI and Vineland as the typical tests of adaptive behavior for all waiver participants. In 2022, the Division began a switch to the Missouri Adaptive Ability Scale (MAAS) as the standard instrument for determining substantial functional limitation. The MAAS is a standardized and normative referenced measure of adaptive function that compares the ability of the individual being assessed to their same-aged peers in the general population. In addition, educational, psychological and medical records, etc. may be used to assist in documenting the individual's diagnosis and level of functioning. These other standardized assessments will not impact eligibility, and current waiver participants will not lose eligibility or services based on these assessments.

The Division of DD Waiver ICF/ID LOC Determination must confirm and document the following:

- 1) The person has an intellectual disability or a related condition;
- 2) The person requires a program of support which may include prevention of regression from current optimal function and/or aggressive, consistent implementation of specialized and generic training, treatment, health and related services intended to maximize self-determination and independence and
- 3) there is a reasonable indication, based on observation and assessment of the person's physical, mental and environmental condition, that the only alternative services that can meet the individual's needs, if waiver services are not available, are services through an ICF/ID.

State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the Division of DD.

Evaluations of LOC are completed by qualified support coordinators employed by the Regional Office or an entity enrolled with the MHD to provide TCM for individuals who have DD. Regional Office administrative staff review the evaluation of LOC, the draft support plan, the priority of need recommendation and determine final eligibility for the waiver.

All LOC redeterminations are approved by the Division of DD Regional Offices and are subject to the approval of the State Medicaid Agency.

- e. Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):

- ☐ The same instrument is used in determining the level of care for the waiver and for institutional care under the state Plan.
- ☒ A different instrument is used to determine the level of care for the waiver than for institutional care under the state plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

The state uses the same tool to determine eligibility for the ICF/ID services and eligibility for nursing home services. Therefore, a different process/tool is used to determine waiver eligibility. The process/tool is analogous to the initial LOC assessment performed for admission to the ICF/ID and nursing home programs, but is more appropriate to the assessment of persons with DD. These other standardized assessments will not impact eligibility, and current waiver participants will not lose eligibility or services based on these assessments. Any standardized assessment tool utilized will not make it more difficult for an applicant to become waiver eligible. Rather, the tool streamlines the process for applicants, by reducing several different assessments into a single tool.

The tool walks the evaluator through the process of determining:

- 1) if the individual has intellectual disability or a related condition based on identifying substantial functional limitations in three or more major life activities;
- 2) if the individual requires a program of support which may include prevention of regression from current optimal function and/or aggressive, consistent implementation of specialized and generic training, treatment, health and related services intended to maximize self-determination and independences; and
- 3) if there is reasonable indication that without access to waiver services the only alternative services that will be available to meet the person's need are ICF/ID services.

The Division of DD Waiver ICF/ID LOC Determination Form is used to determine eligibility. To assess functioning level, the Division uses the MAAS as the typical tests of adaptive behavior administered to complete the LOC. Other assessments of adaptive function such as the MOCABI or Vineland assessments historically used for determining functional limitations may continue to be used as an alternative until the individual is assessed through the MAAS. In addition, educational, psychological and medical records, etc. may be used to assist in documenting the individual's diagnosis and level of functioning. The evaluator is asked to document what assessments and evaluations from the individual's record were considered. Information from these assessments is used to complete the actual LOC determination form which results in a determination of eligibility or ineligibility.

- f. Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

Qualified Support Coordinators reevaluate each participant annually to determine if the individual continues to be eligible for the waiver. The same tool is used in the reevaluations process as is used in the initial eligibility process. The reevaluation includes the reviewing and/or updating previous assessments on which the previous evaluation was based, including the Vineland and re-documentation of conditions of eligibility as listed above.

The following is included in the instructions of the "Evaluation of Need for an ICF/DD Level of Care and Eligibility for the DD Waiver": The Division uses standard tools to determine level of functioning. The assessment tool is specified in Chapter 2 of 9CSR-45. The MAAS will, over time, supersede traditional instruments such as the MOCABI and Vineland as the typical tests of adaptive behavior for all waiver participants.

The MAAS will not make it more difficult for an applicant to become waiver eligible and current waiver participants will not lose eligibility or services based on these assessments. Rather, the MAAS streamlines the process for applicants, by reducing duplicative assessments into a single tool. In addition, educational, psychological and medical records, etc. may be used to assist in documenting the individual's diagnosis and level of functioning.

- g. Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):

- ☐ Every three months
- ☐ Every six months
- ☒ Every twelve months
- ☐ Other schedule

Specify the other schedule:

h. Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations (*select one*):

☒ **The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.**

☐ **The qualifications are different.**

Specify the qualifications:

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the state employs to ensure timely reevaluations of level of care (*specify*):

Support Coordinators employed by Division of DD Regional Offices or TCM Entities are responsible for reevaluating each participant as part of the annual person centered planning process regarding the individual's need for an ICF/ID LOC. Division of DD regional offices must approve claims of eligibility and associated documentation made by TCM entity employees. All decisions are subject to approval of the Medicaid Agency.

The Division of DD Regional Office, in conjunction with the TCM entity providing support coordination, is responsible for ensuring that reevaluations are completed annually. The number of annual re-determinations conducted of all current waiver participants and the number of individuals who continue to be found eligible and the number found to be ineligible are tracked electronically. On a quarterly basis, the TCM Technical Assistant Coordinator (TAC) Unit pulls data to assure compliance with this process as well as implement any necessary corrective action. In addition, Regional Office staff as well as TCM entity staff have direct access to reports to monitor when LOC determinations and formal assessments are coming due. Support Coordinators and Support Coordinator Supervisors receive automated notification as a reminder of upcoming LOC determinations and formal assessments coming due. Support Coordinators enter evaluations electronically. All support coordinators and supervisors have access to centralized data systems in order to verify evaluations are conducted timely.

Quality Management Reports submitted to the MHD by the operating agency and annual sample reviews conducted by the MHD also ensures that a system has been designed and implemented for assuring reevaluations of the LOC need are conducted in a timely manner.

The Division of DD Information System is a comprehensive data base that contains consumer demographics, service coordination information, waiver assignment, dates of evaluations, service plans, provider demographics, services by provider, waiver service authorizations and other information. The Information System also has sophisticated reporting capacity, which is the process used to assure timely evaluations.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the state assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Evaluation and reevaluation records are located electronically by the Division of DD Information System.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

- a. Sub-assurance:** *An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Waiver applicants w/reasonable indications services may be needed having a completed evaluation. (Number of individuals w/reasonable indication services will be needed requesting a waiver slot w/ a completed evaluation in the identified time period divided by Total number of individuals with a reasonable indication services will be needed requesting a waiver slot within the identified time period)

Data Source (Select one):

Analyzed collected data (including surveys, focus group, interviews, etc)

If 'Other' is selected, specify:

Responsible Party for data collection/generation (check each that applies):	Frequency of data collection/generation (check each that applies):	Sampling Approach (check each that applies):
<input type="checkbox"/> State Medicaid Agency	<input type="checkbox"/> Weekly	<input checked="" type="checkbox"/> 100% Review
<input checked="" type="checkbox"/> Operating Agency	<input type="checkbox"/> Monthly	<input type="checkbox"/> Less than 100% Review
<input checked="" type="checkbox"/> Sub-State Entity	<input type="checkbox"/> Quarterly	<input type="checkbox"/> Representative Sample Confidence Interval = <div style="border: 1px solid black; height: 20px; width: 100px; margin-top: 5px;"></div>

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

On a quarterly basis LOC data is reviewed to analyze compliance. Data is submitted to TCM TACs for review and follow up. Issues from LOCs are documented in the Division of DD Information System and communicated to the TCM entity within 10 working days of the issue date. The designated Regional Office TCM TAC enters the issue and remediation into the Division of DD Information System within ten (10) working days describing how the issue was corrected.

The TCM TAC's complete a quarterly analysis of data to identify trends of TCM entities which is shared with TCM and Regional Office Management to determine what improvement activities to initiate based on the trends.

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.

a. Procedures. Specify the state's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Support Coordinator's employed by Division of DD Regional Offices and TCM Entities approved to provide case management explain to individuals the choice between ICF/ID institutional services and Home and Community Based services (HCBS). Support coordinators educate individuals/guardians regarding all waiver services and providers available. This will be completed by the support coordinator reviewing options with the individuals/guardians, then the individuals may meet with providers to make their selection.

Individuals, or a legally responsible party, are asked to make a choice between receiving services through the ICF/ID Program or the HCBS Waiver Program. This is documented by the individual or a legal representative signing and dating a Waiver Choice Form. The support coordinator also signs and dates the Waiver Choice form. Prior to authorization of waiver services, the individual completes a form giving them the choice between ICF/ID services and waiver services. If they choose the latter only then will waiver services begin. Forms are available upon request from the operating agency.

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Signed and dated Waiver Choice Forms are maintained in the individual's record at the regional office or the office of the TCM entity that provides TCM.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the state uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

The state of Missouri maintains a statewide services contract for procurement of in-person spoken language interpretation and a statewide services contract for written language translation. These contracts are available to all State-operated agencies. As a secondary option, the state of Missouri maintains a contract for telephone interpretation for situations in which an in-person interpreter cannot be obtained in a timely manner. Foreign language interpretation includes interpretation in over 240 languages. Additionally, all providers of services under contract with the Department are contractually obligated to comply with the Civil Rights Act, and the Department requires that contractors take reasonable steps to ensure meaningful access to services for limited English proficient persons. If a client requests that a volunteer, friend, family member, etc. provide interpretation services, the state agency or contracted service provider may utilize the volunteer, friend, family member, etc. to provide interpretation services, as long as reasonable steps have been taken to ensure the use of a non-professional interpreter is appropriate in the circumstances. In addition, interpreting is an available service in the Division of DD service catalog, and contracted providers are permitted to bill the cost of interpreting services for person-centered planning meetings to the Division of DD. Interpreting capabilities include, but are not limited to, interpreting medical concepts/language, medical brochures, mental health therapy, mental health testing and evaluation, mental health topics in therapeutic situations, legal topics/concepts that focus on a client's incarcerations, capacity, etc., and highly technical concepts such as data processing terms. Interpreters who have completed the Department's Introduction to Mental Health Interpreting course receive preferential hiring for assignments at Department-operated facilities and at contracted service providers.

The State Medicaid Agency (MO HealthNet) operates several informational hotlines. One is the MO HealthNet Participant Services hotline. This is available for MO HealthNet participants who have questions related to their eligibility, covered services, etc. If an individual with limited English proficiency calls, interpreting services are made available.

Appendix C: Participant Services

C-1: Summary of Services Covered (1 of 2)

a. Waiver Services Summary. List the services that are furnished under the waiver in the following table. If case management is not a service under the waiver, complete items C-1-b and C-1-c:

Other Service	Remote Supports		
Other Service	Specialized Medical Equipment and Supplies (Adaptive Equipment)		
Other Service	Transportation		

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:**Service:****Alternate Service Title (if any):****HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Category 4:****Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Day Habilitation services are designed to assist the individual to acquire, improve and retain the self-help, socialization and adaptive skills that enhance social development and develop skills in performing activities of daily living and community living. Day Habilitation services may also be used to provide supported retirement activities. As people get older they may no longer desire to work and may need support to assist them in meaningful retirement activities. This might involve altering schedules to allow for more rest time throughout the day, support to participate in hobbies, clubs, and/or other senior related activities in their communities. Day habilitation services focus on enabling the participant to attain or maintain his or her maximum potential and shall be coordinated with any needed therapies in the individual's person-centered service plan, such as physical, occupational, or speech therapy. Day Habilitation may not provide services that are vocational in nature.

Activities and environments are designed to foster the acquisition of skills, building positive social behavior and interpersonal competence, greater independence and personal choice. Activities should be appropriate to the setting and occur in the most natural setting possible to maximize transference of skill acquisition.

This service does not provide basic child care (a.k.a. "baby sitting"). When services are provided to children the ISP must clearly document that services are medically necessary to support and promote the development of independent living skills of the child or youth, and are over and above those provided to a child without disabilities. The ISP must document how the service will be used to reinforce skills or lessons taught in school, therapy or other settings and neither duplicates nor supplants the services provided in school, therapy or other settings. ISPs must include outcomes and action steps individualized to what the participant wishes to accomplish, learn and/or change. The UR process, authorized under 9 CSR 45-2.017 ensures all services authorized are necessary based on the needs of the individual and ensures that Day Habilitation services is not utilized in lieu of basic child care that would be provided to children without disabilities.

Day habilitation services provide regularly scheduled activities in a non-residential setting, separate from the participant's private residence or other residential living arrangement. Day Habilitation services are provided in part with a stand-alone certified day habilitation facility, but should be provided in any of a variety of settings in the community and not limited to fixed site facilities. Costs for transporting the participant from their place of residence to the place where day habilitation services are provided is not included in the day service rate, but may be provided and billed separately as a waiver transportation service. Transportation needed to participate in community activities as a part of the Day Habilitation service is included in the service.

Meals provided as part of these services do not constitute a full nutritional regiment.

Medical Exception:

People with exceptional medical supports needs may be granted a medical exception. Exceptional medical supports require services from the following: a Certified Nursing Assistance (CNA), a licensed practical nurse within their scope of practice as prescribed by the state law, a registered nurse, or for mobility, by appropriately trained staff. The process must include the identification and rationale for staffing ratios and the level of direct care provided to meet the identified needs and be clearly documented in their service plan. The process shall include a component of professional assessment by licensed interdisciplinary team member (RN, primary care physician, OT, PT, SLP, etc.).

The intent of the Medical Exception Day Service is to provide an enhanced level of services and supports to individuals requiring the following:

- Direct care, assessment, care coordination and/or planning by a RN or an LPN (under the direct supervision and oversight of an RN) within their scope of practice and/or
- Nursing tasks that are delegated by a RN and performed by a Unlicensed Health Care Personnel under the direct supervision and oversight of a RN

Unlicensed Health Care Personnel shall be defined as the following:

- a DHSS Certified Restorative Aide
- a DHSS Certified Medication Technician(CMT)
- a DHSS Certified Nursing Assistant (CNA)
- a DHSS Certified Level I Medication Aide(LIMA)
- a DMH DD Certified Medication Aide or
- a DMH DD Direct Support Professional

This is to promote individuals ability to access community based services and integration to the fullest extent of their capabilities. A separate rate and code modifier is available for this service.

Requests for Medical Exception supports must be reviewed and approved via the UR Committee and include the following documentation:

- Written Support Plan which includes clinical outcome data with criteria for reduction of supports if relevant to the identified medical condition(s).
- Written documentation noting the individual's assessed need for medical or mobility supports by the individual's medical practitioner.

Behavior Exception:

People with exceptional behavioral support needs may be granted a behavior exception when additional staffing is required to keep them and/or others safe. Requests for a Behavioral Exception shall be submitted to the UR process and include one of the following types of documentation:

- An ISP inclusive of a Behavior Support Plan including supports to be implemented through the Day Habilitation service and confirmation of ongoing applied behavior analysis services.
- or
- An approved ISP documenting behavior supports have been recommended and are being pursued.

Personal Assistant services may be a component of Day Habilitation as necessary for the individual to participate in the service but may not comprise the entirety of the service.

A separate rate and code modifier is available for this service. This is to promote individuals ability to access community based services and integration to the fullest extent of their capabilities. (A Behavioral Exception is to ensure people with significant behavioral support needs have access to the community to the fullest extent possible.)

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

In-home respite care is provided to individuals unable to care for themselves, on a short-term basis, because of the absence or need for relief of those persons (other than paid caregivers) normally providing the care. Respite care may not be furnished for the purpose of compensating relief or substituting staff. This service is not delivered in lieu of day care for children nor does it take the place of day habilitation. While ordinarily provided on a one-to-one basis, in-home respite may include assisting up to three individuals at a time. The service is provided in the individual's home or private place of residence. Personal Assistant services may be a component of In-home respite as necessary for the individual to participate in the service but may not comprise the entirety of the service.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

A unit of service is 15 minutes or one day. The only limitation on the total hours provided is that the hours remain within the overall cost effectiveness of each individual's support plan.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Personal Assistant Services include a range of assistance for any activities of daily living (ADL) or instrumental activity of daily living (IADL) to enable individuals to complete tasks they are not able to do for themselves due to their disability. This may take the form of hands on assistance (actually performing a task for the individual), cueing to the individual to perform a task, or performing the task for the individual if they are not able to do for themselves. Personal assistant services provide support and incidental teaching to assist the individual to participate fully in their home and community life. These supports can be provided in the participant's own home, family home, and in the community, and always provided in the presence of the individual.

While Personal Assistant service is ordinarily provided on a one-to-one basis, personal assistance may be delivered to groups of individuals when it is determined to meet the individuals' needs. With written approval from the Regional Office Director, personal assistant services may be delivered to groups of four (4) to six (6) persons when it is determined the needs of each individual in the group can be safely met.

Personal Assistant staff are required to be awake at all times. Personal Assistant Services may be provided on an episodic or continuing basis. Personal Assistant Services may be provided by an agency or as a self-directed option.

Relatives as Providers:

Relatives (parent, step-parent, foster parent, sibling, child (by blood, adoption, or marriage), spouse, grandparent, or grandchild) may be approved to provide personal assistant services through an agency or self-directed with exceptions listed below.

The following cannot be a provider of personal assistant services:

- Individual's spouse
- Parent, step-parent, or foster parent of a minor child (under age 18)
- The individual's guardian
- Self-directed supports designated representative or employer of record

When a relative provides personal assistance, the ISP must reflect:

- The individual is not opposed to the relative providing the services;
- The planning team determines the paid relative providing the service best meets the individual's needs;
- The services to be provided are solely for the individual and not the benefit of the household/family unit;
- A relative will only be paid for the hours authorized in the support plan and at no time can these exceed 40 hours per week. Any support provided above this amount would be considered a natural support or the unpaid care that a family member would typically provide.

Difference between State Plan Personal Care and DD Waiver Personal Assistant Services:

Personal Assistant Service under the waiver differs in scope, nature, supervision arrangements, limitation of amount, and/or provider type from personal care services in the State Plan.

Personal Assistant Services (PA) differ from State Plan in the following ways:

- PA may be provided in the community.
- PA must always be provided in the presence of the individual receiving the service.
- PA can provide support with medication administration and management. (Personal Assistant, Medical, unless self-directed)
- PA can provide specialized healthcare and medical tasks or tasks requiring nursing delegation (Personal Assistant, Medical, unless self-directed)
- PA may be self-directed through the use of a designated representative

When an individual's need for personal assistant service can be met through the MO HealthNet state plan personal care program administered by the Division of Senior and Disability Services (DSDS) with the Missouri Department of Health and Senior Services (DHSS), he or she will not be eligible for Personal Assistant Services under the waiver, in accordance with the requirement that state plan services must be exhausted before waiver services can be provided.

After State Plan Personal Care services have been exhausted, DD Waiver Personal Assistant may be authorized when:

- State plan limits on number of units for personal care are reached and more assistance with ADLs and/or IADLs is needed;
- The individual has medical needs and they require a more highly trained personal assistant than is available under state plan;

- When the personal assistant worker is related to the individual; or
 - When the individual or family is directing the service through the Vendor Fiscal Employer Agent (VF/EA) Financial Management Services (FMS) contractor.
- When waiver personal assistant is authorized to adults also eligible for state plan personal care, the Support coordinator must consult and coordinate the waiver support plan with the DSDS service authorization system.

Personal care services are provided to children with disabilities according to the federal mandates of the Early Periodic Screening, Diagnosis and Treatment (EPSDT) program. Personal Assistant needs for the eligible individual through EPSDT, as applicable, shall be accessed and utilized, in accordance with the requirement that state plan services must be exhausted before waiver services can be provided. Personal Assistant services authorized through the waiver shall not duplicate state plan personal care services. State plan personal care services for children are coordinated through the Bureau of Special Health Care Needs (BSHCN) through DHSS.

When waiver personal assistant is authorized for children also eligible for state plan personal care, the Support Coordinator must consult and coordinate with the BSHCN service authorization system.

Personal Assistant, Self-Directed option

Self-Directed Supports is an option of service delivery for individuals who wish to exercise more choice, control and authority over their supports.

Team Collaboration, Self-directed option

Team collaboration is available under Self-Directed Services only. Team collaboration allows the individual's employees to participate in the Individual Support Plan and to meet as a team to ensure consistency in its implementation. A team meeting also can be convened by the individual or their designated representative for the purposes of discussing specific needs of the individual, the individualized progress towards outcomes, and other related concerns. Team collaboration can be included in the individual budget limited to 120 hours per plan year. Team collaboration is included in the rate for agency-based personal assistant services.

Personal Assistant, Medical option (Agency or Self-directed)

To assist in meeting the specialized medical needs for the individual as identified by the team and documented in the ISP, the following must have been met:

- The interdisciplinary team has identified and outlined the need to pursue more intensive support for medically related issues;
- The need must be documented by a physician or advanced practice nurse and maintained on file;
- Prior to approval of funding for medical personal assistance the ISP has gone through the local UR review process to determine the above have been completed.
- Depending upon the scope of services, a registered professional nurse may be required to provide oversight in accordance with the Missouri Nurse Practice Act.

For individuals hospitalized, personal assistant services may be provided to assist with supports, supervision, communication, and any other supports that the hospital is unable to provide. The service will: be identified in an individual's person-centered service plan; provided to meet needs of the individual that are not met through the provision of hospital services; not substitute for services that the hospital is obligated to provide through its conditions of participation or under Federal or State law, or under another applicable requirement; and be designed to ensure smooth transitions between acute care settings and home and community-based settings, and to preserve the individual's functional abilities.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Individuals who receive Group Home, Individualized Supported Living, or Shared Living may not receive this service.

When this service is provided to minor children living with their parents or guardians, it shall not supplant the cost and provision of support ordinarily provided by parents to children without disabilities, educationally related services and support that is the responsibility of local education authorities, nor shall it supplant personal care through EPSDT.

Personal Services through EPSDT for eligible persons under age 21 shall be provided and utilized first before the waiver Personal Assistant Service is provided. Children have access to EPSDT services.

Children have access to any medically necessary preventive, diagnostic, and treatment services under Medicaid's Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services to help meet children's health and developmental needs. This includes age appropriate medical, dental, vision, and hearing screening services and diagnostic and treatment services to correct or ameliorate identified conditions. Supports provided by this waiver service is to improve and maintain the ability of the child to remain in and engage in community activities.

The services are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

Service Type: Statutory Service

Service Name: Personal Assistant Services

Provider Category:

Individual

Provider Type:

Self-Directed Supports

Provider Qualifications

License (specify):

Certificate (specify):

Other Standard (specify):

Age 18; has completed Abuse and Neglect training/reporting events and training on the ISP; meets minimum training requirements; agreement with individual/designated representative;

Shall not be the individual's spouse; a parent, step-parent or foster parent of an individual (under age 18); a legal guardian; nor the employer of record/or a designated representative for the individual.

The individual shall not be opposed to the family member providing care.

The planning team agrees the family member providing the personal assistant service will best meet the individual's needs.

Family members employed by the individual or designated representative are supervised by the individual or a designated representative in providing service in the home or community consistent with the service plan.

The planning team led by the individual/designated representative will specify the qualifications and training the personal assistant will need in order to carry out the support plan;

Supervision is provided by the individual or a designated representative in providing service in the home or community consistent with the support plan.

Personal Assistant Qualifications and Training

Training will cover, at a minimum:

- a. Training, procedures and expectations related to the personal assistant in regards to following and implementing the individual's Support Plan.
- b. The rights and responsibilities of the employee and the individual, procedures for billing and payment, reporting and documentation requirements, procedures for arranging backup when needed, and who to contact within the Regional Office or TCM entity.
- c. Information about the specific condition and needs of the person to be served, including his or her physical, psychological or behavioral challenges, his or her capabilities, and his or her support needs and preferences related to that support.
- d. Training in abuse/neglect, event reporting, and confidentiality.
- e. Duties of the Personal Assistant will not require skills to be attained from the training requirement;
- f. CPR and first aid;
- g. Additionally staff administering medication and/or supervising self-administration of meds must have successfully met the requirements of 9 CSR 45-3.070;
- h. Crisis intervention training as needed, due to challenging behavior by the Individual, the assistant will also be trained in crisis intervention techniques such as NCI (Nonviolent Crisis Intervention), MANDT, or others approved by the Division of DD;
- i. training in communications skills; in understanding and respecting Individual choice and direction; cultural and ethnic diversity, personal property and familial and social relationships; in handling conflict and complaints;
- j. Training in assisting with ADLs and IADLs, as needed by the individual to be served and identified by the team.

For Self Directed Supports the planning team led by the individual/designated representative will specify the qualifications and training the personal assistant will need in order to carry out the support plan. The individual or designated representative will select the personal assistant and carry out training and supervision.

Individual/guardian or designated representative may exempt the following trainings when the Personal Assistant will not require skills to be attained from the trainings;

- CPR and first aid;
- Medication Administration;
- Crisis intervention training as needed, due to challenging behavior by the Individual, the assistant will also be trained in crisis intervention techniques such as NCI (Nonviolent Crisis Intervention), MANDT, or others approved by the Division of DD.

Verification of Provider Qualifications

Entity Responsible for Verification:

Individual; Designated Representative; VF/EA FMS; Regional office has oversight

Frequency of Verification:

VF/EA FMS verifies on behalf of individual/designated representative prior to hire.
Prior to signed agreement with regional office and individual/designated representative; service review as needed based on service monitoring concerns; as individual needs change.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Supports for Participant Direction

The waiver provides for participant direction of services as specified in Appendix E. Indicate whether the waiver includes the following supports or other supports for participant direction.

Support for Participant Direction:

Information and Assistance in Support of Participant Direction

Alternate Service Title (if any):

Support Broker

HCBS Taxonomy:

Category 1:

12 Services Supporting Self-Direction

Sub-Category 1:

12020 information and assistance in support of self-direction

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Category 4:

Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

A Support Broker provides information and assistance to the individual or designated representative for the purpose of directing and managing supports. This includes practical skills training and providing information on recruiting and hiring personal assistant workers, managing workers and providing information on effective communication and problem-solving. The extent of the assistance furnished to the individual or designated representative is specified in the support plan.

A Support Broker provides the individual or their designated representative with information & assistance (I&A) to secure the supports and services identified in the Support Plan.

A Support Broker provides the individual or designated representative with information and assistance to:

- establish work schedules for the individual's employees based upon their Support Plan
- help manage the individual's budget when requested or needed
- seek other supports or resources outlined by the Support Plan
- define goals, needs and preferences, identifying and accessing services, supports and resources as part of the person centered planning process which is then gathered by the support coordinator for the Support Plan
- assist in Individual Directed Goods and Services
- implement practical skills training (recruiting, hiring, managing, terminating workers, managing and approving timesheets, problem solving, conflict resolution)
- develop an emergency back-up plan
- implement employee training
- promote independent advocacy, to assist in filing grievances and complaints when necessary
- include other areas related to providing information and assistance to individuals/designated representative to managing services and supports

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Support Broker services do not duplicate Support Coordination. Support Brokerage is a direct service.

A Support Broker may not be a parent, guardian or other family member. A support broker cannot serve as a self-directed personal assistant for that individual. This service can be authorized for up to 32 units per day (8 hours).

Service Delivery Method (*check each that applies*):

- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

ABA services are designed to help individuals demonstrating significant deficits (challenges) in the areas of behavior, social, and communication skills acquire functional skills in their homes and communities and/or to prevent hospitalizations or out-of-home placements. ABA may be provided to assist a person(s) to learn new behavior directly related to existing challenging behaviors or functionally equivalent replacement behaviors for identified challenging behaviors. ABA may also be provided to increase existing behavior, to reduce existing behavior, and to emit behavior under precise environmental conditions. ABA includes the design, implementation and evaluation of systematic environmental modifications for the purposes of producing socially significant improvements in and understanding of human behavior based on the principles of behavior identified through the experimental analysis of behavior. The Behavior Support Plan (BSP) should describe strategies and procedures to generalize and maintain the effects of the BSP and to collect data to assess the effectiveness of the plan and fidelity of implementation of the plan. The specific skills and behaviors targeted for each individual should be clearly defined in observable terms and measured carefully by direct observation each session. The BSP shall include collection of data by the staff, family and or caregivers that are the primary implementers of the plan and the service shall include monitoring of data from continuous assessment of the individual's skills in learning, communication, social competence, and self-care guide to the scope of the individual support plan, which must include separate, measurable goals and objectives with clear definitions of what constitutes mastery. Reports regarding the service must include data displayed in graphic format with relevant environmental variables that might affect the target behaviors indicated on the graph. The graph should provide indication of analysis via inclusion of environmental variables including medications and changes in medications, baseline or pre-intervention levels of behavior, and strategy changes. Performance-based training for parents, caregivers and significant others in the person's life is also part of the behavior analysis services if these people are integral to the implementation or monitoring of the plan. ABA consists of the following components: Assessment: ABA services are based on an assessment which identifies functional relationships between behavior and the environment, including contextual factors, establishing operations, antecedent stimuli, contributing and controlling consequences, and possible physiological or medical variables related to challenging behaviors or situations. The assessment is further composed of the following elements: Behavior identification assessment, by the physician or other QHCP, face-to-face with patient and caregiver(s), includes administration of standardized and non-standardized tests, detailed behavioral history, patient observation and caregiver interview, interpretation of test results, discussion of findings and recommendations with the primary guardian(s)/caregiver(s), and preparation of report. Behavior Identification Supporting Assessment-Observational: May be required to enable the QHCP to finalize or fine-tune the baseline results and plan of care that were initiated in the identification assessment. This is performed by a technician under the direction of a QHCP or licensed assistant behavior analyst (LaBA). The QHCP or LaBA may or may not be on-site during the face-to-face assessment process. This is provided to individuals who present with specific destructive behavior(s) (e.g. self-injurious behavior, aggression, property destruction) or behaviors or deficits in communication or social relatedness. This includes the use of structured observation and/or standardized and non-standardized tests to determine levels of adaptive behavior. Areas assessed may include cooperation, motivation, visual understanding, receptive and expressive language, imitation, requests, labeling, play and leisure and social interactions. Specific destructive behavior(s) assessments include structured observational testing to examine events, cues, responses, and consequences associated with the behavior(s). Behavior Identification Supporting Assessment-Exposure: is administered by the QHCP with the assistance of one or more technicians. This assessment includes the QHCP's interpretation of results, discussion of findings and recommendations with primary caregiver(s), and preparation of report. Typical individuals for these services include those with more specific severe destructive behavior(s) (eg, self-injurious behavior, aggression, property destruction). Specific severe destructive behavior(s) are assessed using structured testing to examine events, cues, responses, and consequences associated with the behavior. This includes exposing the individual to a series of social and environmental conditions associated with the destructive behavior(s). Assessment methods include using testing methods designed to examine triggers, events, cues, responses, and consequences associated with the before mentioned maladaptive behavior(s). This is completed in a structured, safe environment. Treatment: Adaptive Behavior Treatment: Addresses the individual's specific target problems and treatment goals as defined in previous assessments. This is based on principles including analysis and alteration of contextual events and motivating factors, stimulus-consequence strategies and replacement behavior and monitoring of outcomes. Goals of treatment may include reduction of repetitive and aberrant behavior, and improved communication and social functioning. Adaptive behavior skill tasks are often broken down into small, measurable units, and each skill is practiced repeatedly until the individual masters it. Adaptive behavior treatment may occur in multiple sites and social settings (e.g., controlled treatment programs with individual alone or in a groups setting, home, or other natural environment). All ABA services are considered short term services whose objectives are to provide changes in patterns of interactions, daily activities and lifestyle including provider family/staff/caregivers skills to teach the individuals supported adaptive skills and skills to more appropriately address problem behaviors. The development of skills in the individual and in the family/staff/caregivers is a key

component to these services. In addition it is the essential that the strategies developed are adapted to more typical types of support strategies so that the treatment plan called the BSP is replaced with these more typical strategies as the service is successful. This treatment is further composed of the following elements: Adaptive Behavior Treatment by Protocol by Technician: is administered by a single technician or LaBA under the direction (on-site or off-site) of the QHCP by adhering to the protocols that have been designed by the QHCP. This service is delivered to the individual alone or while attending a group session. This includes skill training delivered to an individual who, for example, has poor emotional responses (e.g., rage with foul language and screaming) to deviation in rigid routines. The technician introduces small, incremental changes to the individual's expected routine along one or more stimulus dimension(s), and a reinforce is delivered each time the individual appropriately tolerates a given stimulus change until the individual tolerates typical variations in daily activities without poor emotional response. The QHCP directs the treatment by designing the overall sequence of stimulus and response fading procedures, analyzing the technician-recorded progress data to assist the technician in adhering to the protocol, and judging whether the use of the protocol is producing adequate progress. Adaptive Behavior Treatment with Protocol Modification: Unlike the Adaptive Behavior Treatment by Protocol by Technician, Adaptive Behavior Treatment with Protocol Modification is administered by a QHCP or LaBA who is face-to-face with a single individual. The service may include demonstration of the new or modified protocol to a technician, guardian(s), and/or caregiver. For example, Adaptive Behavior Treatment with Protocol Modification will include treatment services provided to a teenager who is recently placed with a foster family for the first time and is experiencing a regression of the behavioral targets which were successfully met the group-home setting related to the individual's atypical sleeping patterns. The clinical social worker modifies the past protocol targeted for desired results to incorporate changes in the context and environment. A modified treatment protocol is administered by the QHCP to demonstrate to the new caregiver how to apply the protocol(s) to facilitate the desired sleeping patterns to prevent sleep deprivation. Exposure Adaptive Behavior Treatment with Protocol Modification describes services provided to individuals with one or more specific severe destructive behaviors (e.g., self-injurious behavior, aggression, property destruction), with direct supervision by a QHCP which requires two or more technicians face-to-face with the individual for safe treatment. Technicians elicit behavioral effects of exposing the individual to specific environmental conditions and treatments. Technicians record all occurrences of targeted behaviors. The QHCP reviews and analyzes data and refines the therapy using single-case designs; ineffective components are modified or replaced until discharge goals are achieved (e.g., reducing destructive behaviors by at least 90%, generalizing the treatment effects across caregivers and settings, or maintaining the treatment effects over time). The treatment is conducted in a structured, safe environment. Precautions may include environmental modifications and/or protective equipment for the safety of the individual or the technicians. Often these services are provided in intensive out-patient, day treatment, or inpatient facilities, depending on the dangerousness of the behavior. Family Adaptive Behavior Treatment Guidance: Family/guardian/caregiver adaptive behavior treatment guidance is administered by a QHCP or LaBA face-to-face with family/guardian(s)/caregiver(s) and involves teaching family/guardian(s)/caregiver(s) to utilize treatment protocols designed to reduce maladaptive behaviors and/or skill deficits. Adaptive Behavior Treatment Social Skills Group: administered by a QHCP or LaBA face-to-face with multiple individuals, focusing on social skills training and identifying and targeting individual patient social deficits and problem behaviors. The QHCP or LaBA monitors the needs of individuals and adjusts the therapeutic techniques during the group, as needed. Services to increase target social skills may include modeling, rehearsing, corrective feedback, and homework assignments. In contrast to adaptive behavior treatment by protocol techniques, adjustments are made in real time rather than for a subsequent services. For individuals hospitalized, ABA may be provided to assist with supports, supervision, communication, and any other supports that the hospital is unable to provide. The services will: be identified in an individual's person-centered service plan; provided to meet needs of the individual that are not met through the provision of hospital services; not substitute for services that the hospital is obligated to provide through its conditions of participation or under Federal or State law, or under another applicable requirement; and be designed to ensure smooth transitions between acute care settings and home and community-based settings, and to preserve the individual's functional abilities.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Behavior Identification Assessment: A unit is 15 minutes. Limited to 32 units per year.

Behavior Identification Supporting Assessment-Exposure: A unit is 15 minutes. Limited to 32 units per day, 100 units per year.

Behavior Identification Supporting Assessment-Exposure can be done by the Registered Behavior Technician (RBT) under the direction of the QHCP that is a Licensed Behavior Analyst (LBA), or under the direction of a LaBA; the service can also be done by the QHCP or LaBA.

Behavior Identification Supporting Assessment - Observational: A unit is 15 minutes. Limited to 16 units per day, 50 units per week, and 100 units per year.

All Behavior Identification Supporting Assessment - Observational must be Administered by the RBT under the direction of the QHCP that is a LBA, or under the direction of a LaBA; the service can also be done by the QHCP or LaBA.

Adaptive Behavior Treatment by Protocol by Technician: A unit is 15 minutes. Limited to 32 units per day, 160 units per week, and 600 units per month.

All Adaptive Behavior by Protocol by Technician must be performed by a RBT or LaBA under the direction of a QHCP that is a LBA, the service can also be done by the QHCP. This service must be provided concurrent with Adaptive Behavior Treatment with Protocol Modification by a LBA for at least the equivalent of 5% of the total units provided by the RBT.

Adaptive Behavior Treatment with Protocol Modification: A unit is 15 minutes. Limited to 32 units per day, 120 units per week, and 270 units per month.

Adaptive Behavior Treatment with Protocol Modification, extensions may be approved by the DMH, Division of DDs' Chief Behavior Analyst, or designee. 10% of units authorized in a plan year for this service would be appropriately utilized for protocol modification and data analysis and that this would require documentation as with all other units in addition to the written modified protocol and graphic display with current data and progress report describing the analysis and effects on intervention strategies related to the analysis.

Exposure Adaptive Behavior Treatment with Protocol Modification: A unit is 15 minutes. Limited to 34 units per day, 130 units per week, and 320 units per month.

Exposure Adaptive Behavior Treatment with Protocol Modification must receive prior approval by the DMH, Division of DD Chief Behavior Analyst.

Family Adaptive Behavior Treatment Guidance, 15 minute unit: 40 units per month. In addition, no more than 8 family members/guardians/caregivers can be present for a unit to be billed. This service can be concurrent to any of the other treatment services.

Adaptive Behavior Treatment Social Skills Group, 15 minute unit: limited to 6 units per day, 30 units per week and 60 units per month. In addition, no more than 8 individuals can be present for a unit to be billed. This service can be concurrent to any of the other treatment services.

The services under the MOCDD Waiver are limited to additional services not otherwise covered under the state plan, including EPSDT but consistent with waiver objectives of avoiding institutionalization. Children have access to any medically necessary preventive, diagnostic, and treatment services under Medicaid's Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services to help meet children's health and developmental needs. This includes age appropriate medical, dental, vision, and hearing screening services and diagnostic and treatment services to correct or ameliorate identified conditions. Supports provided by this waiver service is to improve and maintain the ability of the child to remain in and engage in community activities.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:**HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Category 4:****Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

“Assistive technology” means a device, product system, or engineered solution whether acquired commercially, modified, or customized that addresses an individual’s needs and outcomes identified in his or her individual service plan. The service is for the direct benefit of the individual in maintaining or improving independence, functional capabilities, vocational skills, or community involvement.

The individual’s person-centered planning team will ensure that the individual understands the use of technology, the individual/family has information needed in order to make an informed choice/consent and that he/she understands privacy protections as documented in the approved ISP. The Support Coordinator and providers will share responsibility for monitoring privacy concerns. The ISP documents all back-up support plans based on the individual’s needs. The ISP will document who is responsible for the monitoring activity and if they are on-site or off-site.

Assistive technology must include at least one of the following components:

- (a) “Assistive technology consultation” means an evaluation of the assistive technology needs of an individual, including a functional evaluation of technologies available to address the individual's assessed needs and support the individual to achieve outcomes identified in his or her individual service plan.
- (b) “Assistive technology equipment” means the cost of leasing, purchasing, warranty at purchase or otherwise providing for the acquisition of equipment and may include engineering, designing, fitting, customizing, or otherwise adapting the equipment to meet an individual's specific needs. Assistive technology equipment may include Personal Emergency Response Systems (PERS), Mobile Emergency Response Systems (MERS), Medication Reminder Systems (MRS) and equipment such as motion sensing system, live video feed, or live audio feed. Assistive technology cannot be accessed to purchase video monitors or cameras to be placed in bedrooms and bathrooms.
- (c) “Assistive technology service delivery” means monthly implementation of service and monitoring of the technology equipment and individual as necessary.
- (d) “Assistive technology support” is intended for education and training beyond that included in initial installation/training and routine service delivery questions and implementation that aids an individual in the use of assistive technology equipment as well as training for the individual's family members, guardians, staff, or other persons who provide natural supports or paid services, employ the individual, or who are otherwise substantially involved in activities being supported by the assistive technology equipment. Assistive technology support may include, when necessary, coordination with complementary therapies or interventions and adjustments to existing assistive technology to ensure its ongoing effectiveness.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Assistive technology equipment does not include items otherwise available as environmental accessibility adaptations or specialized medical equipment and supplies.

Assistive technology consultation is limited to one per year. An exception may be extended if the participant is pursuing a new or additional type of technology in the same year.

Assistive technology support is limited to 40 hours per year.

The costs of all components of Assistive Technology equipment shall not exceed \$9,000 per year, per annual support plan, per individual.

An individual cannot receive the Mobile Emergency Response Systems (MERS) and the Personal Emergency Response Systems (PERS) service at the same time.

The services under the MOCDD Waiver are limited to additional services not otherwise covered under the state plan, including EPSDT.

Children have access to any medically necessary preventive, diagnostic, and treatment services under Medicaid's Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services to help meet children's health and developmental needs. This includes age appropriate medical, dental, vision, and hearing screening services and diagnostic and treatment services to correct or ameliorate identified conditions. Supports provided by this waiver service is to improve and maintain the ability of the child to remain in and engage in community activities.

When this service is provided to minor children living with their parents or guardians, it shall not supplant the cost and provision of support ordinarily provided by parents to children without disabilities, educationally related services and support that is the responsibility of local education authorities, nor shall it supplant services through EPSDT.

If a person's need can't be met within a limit, attempts will be made to locate another funding source or an exception may be approved by the director or designee to exceed the limit if exceeding the limit will result in decreased need (units) of one or more other waiver services. The service plan must document exceeding the limit for the service that will result in a decreased need of one or more other waiver services. If it is determined the needs of a significant number of individuals cannot be met within the limitation, an amendment will be requested to increase the amount of the limitation.

The consultation component may be provided by a person with a Missouri license in occupational therapy or physical therapy or speech-language pathology or an Assistive technology professional certification issued by the "Rehabilitation Engineering and Assistive Technology Society of North America" or a Bachelors degree and a certificate from a nationally recognized assistive technology assessment curriculum or a Bachelors degree considered a specific technology expert as employed by the technology specific provider for at least one year.

The monitoring agency must be capable of simultaneously responding to multiple signals for help from the individual's PERS or MERS equipment. The monitoring agency's equipment must include a primary receiver, a stand-by information retrieval system and a separate telephone service, a stand-by receiver, a stand-by back up power supply, and a telephone line monitor. The primary receiver and back-up receiver must be independent and interchangeable. The clock printer must print out the time and date of the emergency signal, the individual's PERS or MERS PIC and the emergency code that indicates whether the signal is active, passive, or a responder test. The telephone line monitor must give visual and audible signals when an incoming telephone line is disconnected for more than 10 seconds. The monitoring agency must maintain detailed technical and operations manuals that describe PERS or MERS elements including PERS or MERS equipment installation, functioning and testing; emergency response protocols; and record keeping and reporting procedures.

Service Definition (Scope):

Community Networking, formerly known as Community Integration coordinates and provides support for valued and active participation in integrated activities that build on the person's interests, preferences, gifts, and strengths while reflecting the person's goals with regard to community involvement and membership.

Community Networking services are designed to increase an individual's connection to and engagement in formal and informal community supports. Services are designed to develop flexible, sustainable, and supportive community resources and relationships. Individuals are introduced to community resources and supports that are available in their area and supported to develop skills that will facilitate integration into their community. Outcomes for this service include positive relationships, valued community roles, and involvement in preferred community activities/organizations/groups/projects/other resources. Community Networking outcomes are developed through a person centered planning process and provided in accordance with the individual support plan.

Expectations are for paid supports to be decreased and transitioned to natural supports over time when possible.

Community Networking is not intended or designed to be used in employment settings.

Personal Assistant services may be a component of Community Networking as necessary for the individual to participate in the service but may not comprise the entirety of the service.

Transportation costs related to the provision of this service in the community are included in the service rate.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This service is limited to 432 units (108 hours) per month.

Individuals who receive Group Home, Individualized Supported Living, or Shared Living may not receive this service.

Group Community Networking may not exceed 4 individuals per staff person.

 ☐

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

A community specialist is used when specialized supports are needed to assist the individual in achieving outcomes in the service plan.

Community specialist services includes professional observation and assessment, individualized program design and implementation and consultation with caregivers. This service may also, at the choice of the individual designated representative, include advocating for the individual, and assisting the individual in locating and accessing services and supports within their field of expertise. CS is a direct service which may require higher level of skillset and training that assist the individual in achieving their outcomes. The CS performs the implementation strategies of the outcome through direct instruction. CS staff may be part of the Person-Centered Planning process that identifies the individual's needs and desires; however, does not authorize the service nor monitors the progress of the CS service.

The services of the community specialist assist the individual and the individual's caregivers to design and implement specialized programs to enhance self-direction, independent living skills, community integration, social, leisure and recreational skills.

This service shall not duplicate other waiver services including but not limited to: ABA or Personal Assistant services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Community specialist, a direct waiver service, differs in service definition and in limitations of amount and scope from State plan TCM for person with DD. In the latter, there are waiver administrative functions performed by a support coordinator through state plan TCM that fall outside the scope of community specialist, such as LOC determination, free choice of waiver and provider, due process and right to appeal. Additionally, MO Division of DD support coordinators facilitate services and supports, authorized in the service plan, through the regional office UR and authorization process.

A Community Specialist shall not be a parent, step-parent, foster parent, guardian or other family member.

Children have access to any medically necessary preventive, diagnostic, and treatment services under Medicaid's Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services to help meet children's health and developmental needs. This includes age appropriate medical, dental, vision, and hearing screening services and diagnostic and treatment services to correct or ameliorate identified conditions. Supports provided by this waiver service is to improve and maintain the ability of the child to remain in and engage in community activities.

The services under the Missouri Children with Developmental Disabilities (MOCDDS) Waiver are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

10 Other Mental Health and Behavioral Services

10030 crisis intervention

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Category 4:

Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Crisis Intervention provides immediate therapeutic intervention to address personal, social, and/or behavioral problems which otherwise are likely to threaten the health and safety of the individual or of others and/or to result in the individual's removal from his current living arrangement. This service must be available to the individual at any time of day during the approved dates of service.

Crisis intervention may be provided at home, in conjunction with Group Home, Individual Supported Living (ISL) or Shared Living services elsewhere in the community.

Specific crisis intervention service components include the following:

- Analyzing the psychological, social and ecological components of extreme dysfunctional behavior or other factors contributing to the crisis;
- Assessing which components are the most effective targets of intervention for the short term amelioration of the crisis;
- Developing and writing a formal intervention plan;
- Consulting and, in some cases, negotiating with those connected to the crisis in order to implement planned interventions;
- Monitoring of progress and fidelity to ensure positive outcomes from interventions or to make adjustments to interventions;
- Providing intensive direct supervision when an individual is physically aggressive or when there is concern that the individual may take actions that threaten the health and safety of self or others;
- Assisting the individual with self-care when the primary caregiver is unable to do so because of the nature of the individual's crisis situation;
- Directly counseling or developing alternative positive experiences for individuals who experience severe anxiety and grief when changes occur with job, living arrangement, primary care giver, death of loved one, etc.;
- As needed, temporary (up to 2,920 units per participant per annual support plan year) services similar to that of a Day Habilitation (DH) service as in a crisis drop-in center.
- As needed, temporary (up to 2,920 units per participant per annual support plan year) 24 hour care in a crisis bed of a residence.

Crisis intervention services under the waiver differ in nature, scope, supervision arrangements, or provider type (including provider training and qualifications) from clinic services in the state plan. The scope of the waiver crisis intervention service is significantly above and beyond the scope of the state plan service and is meant to be provided by a team, not a single individual. The service is to be provided by a team consisting of Crisis Technician(s) and Crisis Professional(s). Crisis teams may be agency based (certified or accredited ISL lead agencies, Day Habilitation providers, and group homes), or they may be contracted to provide only this service.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Crisis Intervention is intended to be time-limited. Services should be authorized through person centered planning based upon individualized assessed need not to exceed 2,920 units per individual per annual support plan year. Exceptions for services past this time limit require an amended or new Individual Support Plan and approval by the relevant Regional Director.

Crisis intervention needs for the eligible person that can be met through state plan, including EPSDT crisis services “for eligible persons under age 21”, as applicable, shall first be accessed and utilized, in accordance with the requirement that state plan services must be utilized before waiver services can be provided.

The services under the MOCDD Waiver are limited to additional services not otherwise covered under the state plan, including EPSDT but consistent with waiver objectives of avoiding institutionalization. Children have access to any medically necessary preventive, diagnostic, and treatment services under Medicaid’s Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services to help meet children’s health and developmental needs. This includes age appropriate medical, dental, vision, and hearing screening services and diagnostic and treatment services to correct or ameliorate identified conditions. Supports provided by this waiver service is to improve and maintain the ability of the child to remain in and engage in community activities.

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:**HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Category 4:****Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Those physical adaptations, required by the individual's support plan, which are necessary to ensure the health, welfare and safety of the individual, or which enable the individual to function with greater independence in the community and without which, the recipient would require institutionalization. Such adaptations may include the installation of ramps and grab-bars, widening of doorways, modification of bathroom facilities, or installation of specialized electric and plumbing systems which are necessary to accommodate the medical equipment and supplies which are necessary for the welfare of the individual, but shall exclude adaptations or improvements to the home which are not of direct medical or remedial benefit to the waiver individual, such as carpeting, roof repair, central air conditioning, etc. Adaptations that add to the total square footage of the home are excluded from this benefit except when necessary to complete an adaptation. Adaptations may be approved for living arrangements (houses, apartments, etc.) where the individual lives, owned or leased by the individual, their family or legal guardian. These modifications can be to the individual's home or vehicle.

The following vehicle adaptations are specifically excluded in the waiver: adaptations or improvements to the vehicle that are of a general utility, and are not of direct medical or remedial benefit to the individual; purchase or lease of a vehicle; and regularly scheduled upkeep and maintenance of a vehicle except upkeep and maintenance of a modification funded by this waiver service. However, the service can be used toward the purchase of the existing adaptations in a vehicle. In these instances, the contracted dealership/vendor must be paid directly by the state. The individual will not receive any Medicaid funding to make the purchase. The dealership/vendor must provide an invoice/purchase order that only includes the vehicle adaptations and not the vehicle. The price of the adaptation is comparable to market value and not include any labor cost.

All adaptations must be recommended by an Occupational or Physical Therapist. Plans for installations should be coordinated with the therapist to ensure adaptations will meet the needs of the individual as per the recommendation. All services shall be provided in accordance with applicable State or local building codes.

Home accessibility adaptations may not be furnished to adapt living arrangements that are owned or leased by providers of waiver services. Vehicle accessibility adaptations may not be furnished to adapt vehicles that are owned or leased by providers of waiver services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Costs are limited to \$20,000 biennially, per individual. The biennial limit corresponds with the individuals' annual support plan year and is renewable every two years.

An exception may be approved by the Regional Director and DD Deputy Assistant Director with a maximum limit of \$10,000 per annual support plan year, per individual. Effective 1/1/23, the exception process is removed to decrease delays in approving the service. Single jobs over \$10,000 will continue to be reviewed by the state or TCM entity utilization using the review process and final approval procedure conducted by Division regional offices.

The services under the MOCDD Waiver are limited to additional services not otherwise covered under the state plan, including EPSDT.

Children have access to any medically necessary preventive, diagnostic, and treatment services under Medicaid's Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services to help meet children's health and developmental needs. This includes age appropriate medical, dental, vision, and hearing screening services and diagnostic and treatment services to correct or ameliorate identified conditions. Supports provided by this waiver service is to improve and maintain the ability of the child to remain in and engage in community activities.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.
- ☒ Service is not included in the approved waiver.

Service Definition (*Scope*):

These telemedicine Services are designed for individuals with I/DD receiving Home and Community Based (HCBS) Waiver services to coordinate care with local emergency departments, urgent cares, and primary care physicians to enable real time support, consultation and coordination on health issues and to assist individuals, families and support providers to understand presenting health symptoms and to identify the most appropriate next steps. The service is consultative in nature related specifically to the presence of an intellectual disability, and seeks to provide disability-specific advice on when best to seek additional or in-person medical treatment. This service is a supportive service that can occur while the person is in their home to help assess the need for medical attention; this unique service is otherwise unavailable through any other service. The service serves as an I/DD conduit to, rather than a duplication of, medical services covered under the state plan. Furthermore, in addition to assisting to help assess the need for medical attention specific to individuals with developmental and intellectual disabilities, the service includes support and consultation to families and direct support professionals (DSPs) otherwise unavailable in any other service. This component of the service seeks to build the capacity of families and DSPs (who do not possess medical credentials) to better understand the best approaches for supporting the individual depending on their symptom presentation. This support to caregivers, informed with a strong expertise in I/DD, is an absolutely essential component that is not available elsewhere within Medicaid state plan or other waiver services. This service is available 24 hours a day, 7 days a week and includes immediate evaluations, video-assisted examinations, treatment plans and discussion and coordination with individuals and/or caregivers by professionals with extensive specialized expertise supporting individuals with I/DD. The goal of this service is to provide a right-on-time health assessment to determine the best clinical course of action, often avoiding unnecessary emergency room visits. If a hospital visit is clinically necessary, this service allows the HAC provider to communicate with the emergency department directly, ensuring advance preparation for the ED and decreasing the chances of admission.

The service includes follow-up consultations with the individual or family and/or caregiver of the individual within 18 hours of the initial call. Health Assessment and Coordination Services is unique in both provider qualifications and coverage within Medicaid and does not duplicate (but complements and links to) those services available in the state plan. The combination of required medical experience AND extensive expertise with intellectual and developmental disabilities is not included in state plan services and the consultative nature of the service distinguishes this service from other state plan benefits. While the provider qualifications included do require medical acumen, they are not limited to medical credentials, nor does the service duplicate physician services or other services covered under the state plan. This service works in close contact with but does not duplicate any of the functions of case management. The care coordination facilitated by this service becomes a part of rather than duplicating the person-centered plan. Furthermore, this service provides clinically informed, disability specific advice and counseling to caregivers that is entirely distinct from any information provided by or available to the case managers.

The services are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization. Telehealth Platform Requirements, inclusive of the specifics of state file acceptance, HIPAA compliance, access timeliness and secure communication to individuals, families/caregivers and providers will be outlined and binding in provider contracts and manuals.

Telehealth Platform Training Requirements composed of timely, accessible initial and ongoing training for individuals, family/caregivers and providers, help line capacity and ongoing health education modules, with for those working with individuals enrolled with the provider to increase health care knowledge will be specific and binding in provider manuals and contracts.

Reporting and Recordkeeping Requirements outlining timelines and contacts of reporting to the state, reports to be sent to individuals, families/caregivers and providers, HIPAA compliance, elements to be included in the reports and records retention will be specified in provider manuals and contracts. Missouri reimburses using a monthly unit of service derived from a market-based rate.

The state's four waivers do not provide a 24/7 physician driven right on time assessment service for waiver participants. The Health Assessment & Coordination service is not a nursing service. This service works in close contact with but does not duplicate any of the functions of case management. The care coordination facilitated by this service becomes a part of rather than duplicating the person-centered plan. Furthermore, this service provides clinically informed, disability specific advice and counseling to caregivers that is entirely distinct from any information provided by or available to the case managers.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This service will not duplicate any service available to the individual through the state plan.
This service will not supplant in-Person exams as needed

Provider Qualifications

License (*specify*):

a. Be licensed in the State of Missouri, or have appropriate reciprocity; b. Be licensed by the American Board of Medical Specialties (ABMS); c. Board certified or board eligible (MD/DO); and d. Have completed specialized training/curriculum to care for individuals with developmental disabilities.

Certificate (*specify*):

Other Standard (*specify*):

The provider must have a minimum of four years' experience in serving individuals with developmental disabilities in their own homes, family homes, individual residential alternatives (IRAs), Intermediate Care Facilities (ICFs), as well as other types of long-term supports and services. The provider must have demonstrated evidence of positive outcomes for individuals served. The provider must provide continuing education in the area of intellectual and developmental disabilities to the provider's physician network.

The provider must meet technological and privacy requirements as set forth by the state.

Prior to contract and at each contract renewal, the provider must submit to the Division successful results from a self-assessment validating staff qualifications, required documentation, policies and procedures.

The provider must have a participant support call center that is staffed 24 hours a day, 7 days a week.

Provider has references related to the provider's business history and practices. The service provider must have a comprehensive quality review program and provide a report via secure e-mail of their aggregated findings at the end of each month, as well as one time annually, to the state agency, which must include, at a minimum, the following:

- a. Data analysis;
- b. Service outcomes;
- c. Individual, family and/or caregivers of individuals, and provider satisfaction; and d. Complaints and resolution.

Verification of Provider Qualifications

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.
- ☒ Service is not included in the approved waiver.

Service Definition (Scope):

Individual Directed Goods and Services (IDS) refers to a service, support, or good that enhances the individuals' opportunities to achieve outcomes related to full membership in the community.

Each service, support or good selected must meet each of the following eight criteria:

1. The service, support or good is designed to meet the individual's safety needs, community membership and also advances the desired outcomes in his/her Individual Support Plan (ISP);
2. The service, support or good must increase independence or substitute for human assistance;
3. The service, support or good must reduce the need for another Medicaid waiver service;
4. The service, support or good must have documented outcomes in the ISP;
5. The service, support or good is not prohibited by Federal and State statutes and regulations;
6. The service, support or good is not available through another source and the person does not have the funds to purchase it;
7. The service, support or good will be acquired based upon anticipated use and most cost-effective method (rental, lease, and/or purchase); and
8. The service, support or good must not be experimental or prohibited.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Costs are limited to \$3,000 per annual support plan year, per individual. The annual limit corresponds to annual support plan year.

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Individualized Skill Development (ISD) are individualized supports, delivered in a personalized manner, to support individuals who live in their own or family homes with acquiring, building, or maintaining complex skills necessary to maximize their personal independence. Teaching methods are individualized to what the participant wants to accomplish, learn and/or change based on the identified skill as developed in the person-centered planning process and provided in accordance with the individual support plan to achieve identified outcomes.

Complex skills development include but is not limited to domestic and home maintenance, budgeting and money management, and using public transportation. Transportation costs related to the provision of this service in the community are included in the service rate.

This is an episodic support of a clearly identified skill as developed through a person centered planning process and provided in accordance with the individual support plan the provider must document monthly progress toward achieving each skill identified in the individual support plan which shall include an annual review of progress towards the individual's independent living goals.

Personal Assistant services may be a component of Individualized Skill Development as necessary for the individual to participate in the service but may not comprise the entirety of the service.

The UR process, authorized under 9 CSR 45-2.017 ensures all services authorized are necessary based on the needs of the individual.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Individuals who receive Group Home, Individualized Supported Living, or Shared Living may not receive this service

This service is limited to 348 units (87 hours) a month.

When this service is provided to minor children living with their parents or guardians, it shall not supplant the cost and provision of support ordinarily provided by parents to children without disabilities, educationally related services and support that is the responsibility of local education authorities, nor shall it supplant services through EPSDT

This service may not be provided by a family member or guardian.

Group Individualized Skill Development may not have more than 4 individuals in a group.

This service is limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Out of Home Respite

HCBS Taxonomy:

Category 1:

09 Caregiver Support

Sub-Category 1:

09011 respite, out-of-home

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Category 4:

Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Out of home respite is care provided outside the home in a licensed, accredited or certified waiver residential facility, ICF/ID or State Habilitation Center, stand-alone facility or Shared Living Host Home Relief/Relief Home by trained and qualified personnel. The need for this service has to be an identified need through the planning process which would include the individual, guardian if applicable, the primary caregiver, other family members, support coordinator, and any other parties the individual requests. The purpose of respite care is to provide planned relief to the customary caregiver and is not intended to be permanent placement. Federal Financial Participation (FFP) is not claimed for the cost of room and board except when provided as part of respite care furnished in a facility approved by the State that is not a private residence.

Shared Living Host Home/Relief Home is a component of the Shared Living service. Shared Living can be provided in the home of the care giver (Host Home Services) or in the individual's home (Companion Services). Shared Living settings are contained in the STP, and any Host Home/Relief Home setting crosswalks to the Shared Living setting.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Out of Home Respite is a service used on a short-term basis because of the absence or need for relief of those persons who normally provide care for the individual. Out of home respite is limited to no more than 60 days annually, unless a written exception is granted from the Regional Office Director or designee. The 60 days may be consecutive, unless the service is provided in an ICF/ID or State Habilitation Center. Out of home respite provided in an ICF/ID or State Habilitation Center cannot exceed 30 days. The total limit of out of home respite is 6 months. Any settings where individuals will be served for over 60 days must comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5). Out of Home Respite services are temporary and require a hard limit to the exception amount. This will not affect section 9817 of ARP.

A host home provider shall not provide out-of-home respite if there is an individual currently residing in the home and receiving host home services. A host home provider may provide out of home respite services if there is not currently an individual residing in the home and receiving host home services.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.
- ☒ Service is not included in the approved waiver.

Service Definition (Scope):

Remote supports (RS) are the use of technology to provide supports from another location in place of physical staff presence. Technology allows a remotely located person to monitor the health and safety of the individual without being physically present at the same location through a variety of equipment that provides in time data such as sensors and alerts that generate data. Communication with the remote supports staff is through phone calls or video chat. Emergency response staff is sent to the home or worksite when needed for in-person assistance.

Remote supports are used to promote the individual's independence, increase self-determination, build self-reliance, and confidence which decreases reliance on paid staff for activities in the home and community. Services are provided in community-based settings in a manner contributing to the service recipient's independence, self-sufficiency, community inclusion and well-being.

Remote Supports are not surveillance of an individual. Electronic support systems using on demand video and/or web-cameras, or other technology is only available on an individual, case-by-case basis when an individual requests the service and the planning team agrees it is appropriate and meets the health and safety needs of the individual. Video and/or web-cameras shall not record audio or video feed of an individual. When video equipment is utilized, the data system shall track all utilization of the equipment including who activated it, when it was activated, how long it was active, and why it was activated. When cameras are utilized, they may not be placed in or provide view of private spaces such as bedrooms and bathrooms.

The individual's person-centered planning team will ensure that the individual understands the use of technology, the individual/family has information needed in order to make an informed choice/consent about remote monitoring versus an in-person support staff service, and that he/she understands privacy protections as documented in the approved ISP. The Support Coordinator and providers will share responsibility for monitoring privacy concerns. The ISP documents all back-up support plans based on the individual's needs. The ISP will document who is responsible for the monitoring activity and if they are on-site or off-site.

Remote support technology may only be used with full consent of the individual and his/her guardian and with a completed review by a DMH approved due process committee to ensure the individual's rights are being protected.

Remote Support Service will include the following components:

Consultation: An evaluation of the assistive technology needs of an individual, including a functional evaluation of technologies available to address the individual's assessed needs and support the individual to achieve outcomes identified in his or her individual service plan. Waiver participants interested in Remote Supports must be assessed for risk following the division's risk assessment guidelines posted at <https://dmh.mo.gov/media/58501/download> and must be provided information to ensure an informed choice about the use of equipment versus in-home support staff.

Equipment: The type of equipment and where placed will depend upon the needs and wishes of the individual and their guardian (if applicable), and will also depend upon the particular company selected by the individual or guardian to provide the equipment. The installation of video equipment in the home will be done at the direction of the individual. If the home is shared with others the equipment will be installed in such a manner that it does not invade others' privacy. The remote device is controlled by the waiver participant and can be turned on or off as needed. Remote Support cannot be accessed to purchase video monitors or cameras to be placed in bedrooms and bathrooms. Remote monitoring and placement of cameras in bedrooms and bathrooms is not allowed. Video monitors or cameras may not record video or audio feed.

Service Delivery: The monthly implementation of service and monitoring of the technology equipment and individual as necessary. Monitoring may include the response center for remote supports.

The remote support provider will provide education and training that aids an individual in the use of technology equipment as well as training for the individual's family members, guardians, staff, or other persons who provide natural supports or paid services, employ the individual, or who are otherwise substantially involved in activities being supported by the remote support technology equipment or service delivery. Technology support may include, when necessary, coordination with complementary therapies or interventions and adjustments to existing assistive technology to ensure its ongoing effectiveness.

The provider must have safeguards and backup systems such as batteries and generator for the electronic devices in

place at the base and the participant's residential living site(s) in the event of electrical outages. The provider must have backup procedures for system failure (e.g., prolonged power outage), fire or weather emergency, participant medical issue or personal emergency in place and detailed in writing for each site utilizing the system as well as in each participant's ISP. The ISP must specify the person to be contacted and at least two back up persons who will be responsible for responding to these situations and when in person supports are needed by traveling to the participant's living site(s). In situations requiring a person to respond to the participant's residence, the response time shall not exceed 20 minutes. In emergency situations, staff should call 911.

All electronic device vendors must provide equipment approved by the Federal Communications Commission and the equipment must meet the Underwriters Laboratories, Inc., (UL) standard for home health care signaling equipment. The UL listing mark on the equipment will be accepted as evidence of the equipment's compliance with such standard.

The emergency response activator must be able to be activated in such a way that the individual can independently activate the system regardless of the persons visually, hearing, or physical support need.

Any assistive technology device must not interfere with typical cellular or landline telephonic utilization.

An initial installation fee is covered as well as ongoing monthly rental charges and upkeep and maintenance of the devices.

Remote monitoring will meet HIPAA requirements and the methodology will be accepted by the state's HIPAA compliance officer.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Costs are limited to \$30,000 per year, per individual. The annual limit corresponds to the Individual's Support Plan year.

The services under the Partnership for Hope Waiver are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

Children have access to any medically necessary preventive, diagnostic, and treatment services under Medicaid's Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services to help meet children's health and developmental needs. This includes age appropriate medical, dental, vision, and hearing screening services and diagnostic and treatment services to correct or ameliorate identified conditions. Supports provided by this waiver service is to improve and maintain the ability of the child to remain in and engage in community activities.

When this service is provided to minor children living with their parents or guardians, it shall not supplant the cost and provision of support ordinarily provided by parents to children without disabilities, educationally related services and support that is the responsibility of local education authorities, nor shall it supplant services through EPSDT.

If a person's need can't be met within a limit, attempts will be made to locate another funding source or an exception may be approved by the director or designee to exceed the limit if exceeding the limit will result in decreased need (units) of one or more other waiver services. The service plan must document exceeding the limit for the service that will result in a decreased need of one or more other waiver services. If it is determined the needs of a significant number of individuals cannot be met within the limitation, an amendment will be requested to increase the amount of the limitation.

Assistive technology equipment does not include items otherwise available as environmental accessibility adaptations or specialized medical equipment and supplies.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Specialized Medical Equipment and Supplies (Adaptive Equipment)

HCBS Taxonomy:**Category 1:**

14 Equipment, Technology, and Modifications

Sub-Category 1:

14031 equipment and technology

Category 2:**Sub-Category 2:****Category 3:****Sub-Category 3:****Category 4:****Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Specialized medical equipment and supplies includes devices, controls, or appliances, specified in the support plan, which enable individuals to increase their abilities to perform activities of daily living, or to perceive, control, or communicate with the environment in which they live.

Includes items necessary for life support, ancillary supplies and equipment necessary to the proper functioning of such items, durable and non-durable medical equipment and supplies, and equipment repairs when the equipment, supplies and repairs are not covered under the Medicaid State Durable Medical Equipment (DME) plan. Includes incontinence supplies.

Items reimbursed with waiver funds, shall be in addition to any medical equipment and supplies furnished under the State plan and shall exclude those items which are not of direct medical or remedial benefit to the participant. All items shall meet applicable standards of manufacture, design and installation.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Costs are limited to \$7,500 per annual support plan year, per individual.

Other specialized equipment, supplies and equipment repair needs for the eligible person that can be met through state plan, including EPSDT, as applicable, shall first be accessed and utilized, in accordance with the requirement that state plan services must be exhausted before waiver services can be provided. Further, this waiver service may also be authorized for items/repairs not covered under state plan and falls within the waiver service definition described above.

Children have access to any medically necessary preventive, diagnostic, and treatment services under Medicaid's Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services to help meet children's health and developmental needs. This includes age appropriate medical, dental, vision, and hearing screening services and diagnostic and treatment services to correct or ameliorate identified conditions. Supports provided by this waiver service is to improve and maintain the ability of the child to remain in and engage in community activities.

The services under the Comprehensive Waiver are limited to additional services not otherwise covered under the state plan, including EPSDT but consistent with waiver objectives of avoiding institutionalization.

If a person's need can't be met within a limit, attempts will be made to locate another funding source or an exception may be approved by the by the director or designee to exceed the limit if exceeding the limit will result in decreased need (units) of one or more other waiver services. The service plan must document exceeding the limit for the service that will result in a decreased need of one or more other waiver services. If it is determined the needs of a significant number of individuals cannot be met within the limitation, an amendment will be requested to increase the amount of the limitation.

Service Definition (Scope):

Transportation is reimbursable when necessary for an individual to access waiver and other community services, activities and resources specified by the service plan.

Regional offices must provide the transportation provider with information about any special needs of participants authorized for transportation services. A variety of modes of transportation may be provided, depending on the needs of the individual and availability of services. Alternatives to formal paid support will always be used whenever possible. A unit is one trip or one month.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Transportation under the waiver shall not supplant transportation provided to providers of medical services under the state plan as required by 42 CFR 431.53, nor shall it replace emergency medical transportation as defined at 42 CFR 440.170(a) and provided under the state plan. State plan Non-Emergency Medical Transportation (NEMT) is limited to medical services covered in the state plan. State plan transportation does not cover transporting persons to waiver services.

Service Delivery Method (check each that applies):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed

Specify whether the service may be provided by (check each that applies):

- ☐ Legally Responsible Person
- ☐ Relative
- ☐ Legal Guardian

b. Provision of Case Management Services to Waiver Participants. Indicate how case management is furnished to waiver participants (*select one*):

☐ **Not applicable** - Case management is not furnished as a distinct activity to waiver participants.

☒ **Applicable** - Case management is furnished as a distinct activity to waiver participants.

Check each that applies:

☐ As a waiver service defined in Appendix C-3. Do not complete item C-1-c.

☐ As a Medicaid state plan service under §1915(i) of the Act (HCBS as a State Plan Option). Complete item C-1-c.

☒ As a Medicaid state plan service under §1915(g)(1) of the Act (Targeted Case Management). Complete item C-1-c.

☐ As an administrative activity. Complete item C-1-c.

☐ As a primary care case management system service under a concurrent managed care authority. Complete item C-1-c.

c. Delivery of Case Management Services. Specify the entity or entities that conduct case management functions on behalf of waiver participants:

Division of DD Regional Offices (State Employees) and approved TCM Entities Employees

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the state's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- ☐ **No. Criminal history and/or background investigations are not required.**
- ☒ **Yes. Criminal history and/or background investigations are required.**

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

- (a) Background screening is required for all provider staff and volunteers who have contact with consumers. Background screenings are required for volunteers who are recruited as part of an agency's formal volunteer program. It does not apply to natural supports who assist individuals as a friend would by providing assistance with shopping, transportation, recreation, etc. Background screenings are also required for members of the provider's household who have contact with residents or consumers, except for minor children. (RSMo 630.170), (Title 9 Code of State Regulations 10-5.190 and Department Operating Regulation 6.510).
- (b) An inquiry must be made for all new employees and volunteers with the Missouri DHSS to determine whether the new employee or volunteer is on DSS or the DHSS disqualification list. An inquiry is also made with the DMH to determine whether the individual is on the DMH disqualification registry. A criminal background check with the Missouri State Highway Patrol is required. The criminal background check and inquiries are initiated prior to the employee or volunteer having contact with residents, clients, or patients. All new applicants for employment or volunteer positions involving contact with residents or clients must: 1) sign a consent form authorizing a criminal record review with the Missouri State Highway Patrol either directly through the patrol or through a private investigatory agency; 2) disclose his/her criminal history including any conviction or a plea of guilty to a misdemeanor or felony charges and any suspended imposition of sentence, any suspended execution of sentence, or any period of probation or parole; and 3) disclose if he/she is listed on the employee disqualification list of the DSS, DHSS, or DMH.
- (c) Employers are responsible for requesting the background screenings. A single request is used and submitted to the state's Family Care Safety Registry (FCSR), operated by the DHSS. The FCSR has access to the criminal record system of the state Highway Patrol as well the abuse/neglect and employee disqualification lists/registries that are required. Employers responsible for requesting background screenings are any public or private residential facility, day program, or specialized service operated, licensed, certified, accredited, in possession of deemed status, or funded by the DMH or any mental health facility or mental health program in which people are admitted on a voluntary basis or are civilly detained. Pursuant to chapter 632 this background screen shall be done no later than two working days after hiring any person for a full-time, part-time, or temporary position that will have contact with clients, residents, or patients. The criminal history/background investigations are statewide.
- (d) Each agency must develop policies and procedures regarding the implementation of this rule and the disposition of information provided by the criminal record review. Review of provider policies and procedures are part of a provider certification site visit per 9 CSR 10-5.190.
- The DMH certification process and Division of DD Provider Relations review process all look for evidence that background investigations are completed as required. The DMH licensure/certification process occurs every 2 years and Division of DD Provider Relations review process occurs every 3 years and both look for evidence that background investigations are completed as required.

b. Abuse Registry Screening. Specify whether the state requires the screening of individuals who provide waiver services through a state-maintained abuse registry (select one):

- ☐ **No. The state does not conduct abuse registry screening.**
- ☒ **Yes. The state maintains an abuse registry and requires the screening of individuals through this registry.**

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

((a) The DMH maintains the Disqualification Registry which is a list of individuals disqualified from working with consumers receiving services from the department. Statutory authority is contained in RSMo 630.170. The DHSS also maintains an employee disqualification list.

(b) All new applicants for employment or volunteer positions involving contact with participants are checked against the DMH's Disqualification Register and the DHSS' Disqualification List.

(c) Surveys for certifying community residential facilities and day programs ensure these providers have records to support staff and volunteers have been properly screened. The DMH certification and Provider Relations review a sampling of employees during their review cycles which focus on new hires since the last review to ensure providers have a system to obtain screenings within the regulation parameters and are evaluating the results accurately. Local Regional Office QE staff or Department audit services staff review records while conducting other reviews or based on reports that screenings are not being completed.

(d) Employers are responsible for requesting the background screenings, including criminal background check and inquiries, no later than two working days after hiring. A single request is used and submitted to the state's FCSR, operated by the DHSS. The FCSR has access to the criminal record system of the state Highway Patrol as well the abuse/neglect and employee disqualification lists/registries that are required. Thereafter, the employer is responsible for ensuring that staff are free of disqualifying felonies or adverse actions by the Department of Health and Senior Services and DMH. Certification survey process reviews background screenings every 2 years as initiated by the provider which includes reviewing the employee's personnel record.

Note: Required information from this page (Appendix C-2-c) is contained in response to C-5.

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under state law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the state, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. *Select one:*

- ☒ **No. The state does not make payment to legally responsible individuals for furnishing personal care or similar services.**
- ☐ **Yes. The state makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.**

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) state policies that specify the circumstances when payment may be authorized for the provision of **extraordinary care** by a legally responsible individual and how the state ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the state policies specified here.*

- ☐ **Self-directed**
- ☐ **Agency-operated**

e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify state policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. *Select one:*

- ☐ The state does not make payment to relatives/legal guardians for furnishing waiver services.
- ☒ The state makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.*

Personal assistant services shall not be provided by:

- Individual's spouse,
- Parent, step-parent, or foster parent of a minor child if the individual is a minor (under age 18) by a parent, or
- Legal guardian.

Personal assistant services may otherwise be provided to a person by a member(s) of his or her family when the person is not opposed to the family member providing the service and the service to be provided does not primarily benefit the family unit, is not a household task family members expect to share or do for one another when they live in the same household, and otherwise is above and beyond typical activities family members provide for another adult family member without a disability.

In case of a paid family member the service plan must reflect:

- The individual is not opposed to the family member providing services;
- The services to be provided are solely for the individual and not task household tasks expected to be shared with people live in family unit;
- The planning team determines the paid family member providing the service best meet the individual's needs;
- A family member will only be paid for the hours authorized in the service plan and at no time can these exceed 40 hours per week. Any support provided above this amount would be considered a natural support or the unpaid care that a family member would typically provide;
- Family members can be hired for personal assistant only.

Family is defined as: A family member is defined as a parent, step parent; sibling; child by blood, adoption, or marriage; spouse; grandparent; or grandchild.

Family members approved to provide personal assistant services may be employed by an agency or employed by the individual/guardian or designated representative using an approved VF/EA FMS provider. If the person employs his/her own workers using an approved fiscal management service provider, the family member serving as a paid personal assistant shall not also be the designated representative/common law employer.

Payments are only made for services that have been prior authorized and identified in the individual's service plan. There are edits in the system that only allow for prior authorized services to be billed and paid. The planning team determines whether the paid family member providing the service best meets the individual's needs. This support is documented in the ISP and regular service monitoring ensures the process is occurring.

- ☐ Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.

- ☐ Other policy.

Specify:

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

Interested providers contact the Division's Enrollment Team. The Division's Enrollment Team determines if the provider meets provider qualifications by reviewing documentation that serves as proof of requirements such as licensing, certification, accreditation, training, appropriate staff, etc. If the provider is qualified, the Division initiates a DMH Waiver contract with the provider and assists the provider with enrolling as a DD Medicaid Waiver provider through the Medicaid agency. All qualified, willing providers are assisted in enrolling as a waiver provider as provided in 42 CFR 431.51. The average time to enroll as a waiver provider is estimated to be 90-days.

Access to information regarding requirements and procedures for providers is available on the Division of DD website under "Information for Service Providers" and also available through the local regional office provider relations staff.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. Sub-Assurance: *The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of providers surveyed by Licensure and Certification within established timelines. (Number of providers surveyed by Licensure and Certification within established timelines, within the time period identified divided by Number of providers due for Licensure and Certification survey within the identified time period.

c. Sub-Assurance: The State implements its policies and procedures for verifying that provider training is conducted in accordance with state requirements and the approved waiver.

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of personnel records reviewed by Provider Relations (PR) during the time period identified meeting training requirements according to the waiver service definition. - ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

New applicants not meeting initial provider enrollment qualifications aren't enrolled as providers. Upon successful completion of the provider enrollment process, Provider Relations (PR) staff notifies DMH Licensure and Certification (L&C) Unit the provider is ready to pursue certification or license, if applicable for the services provided. The L&C Unit conducts a survey determining if standards for services are met and produces a written report within 30 calendar days of the site survey. If standards are met, L&C issues a provisional license or certificate for a period not exceeding 1 year. If the license or certificate is denied, the application process is terminated.

Once a provider obtains a certificate and contract, L&C reviews services every 2 years. L&C conducts a survey determining standards are met and produces a written report within 30 calendar days of the site survey; if standards are met, L&C issues a license or a certificate. If not, they must complete a plan of correction (POC) within 30 calendar days of receipt of the report. The L&C Unit then has 10 working days to accept or reject the POC. Necessity for additional site visit(s) is determined by the type, scope and extent of the issues for improvement. L&C, as well as PR contact at the Regional Office (RO), follow through on the process. Final determination of conformance to standards results in issuance or denial of the license or certificate. Issues identified through the L&C process are documented in the Information Quality Management Functions Database (IQFMD). The RO corrects authorizations made in error and files adjustments for claims paid in error and reports the action to the RO PR for resolution in the IQFMD. The provider may be required to disclose to the Missouri Medicaid Audit and Compliance Unit (MMAC).

PR staff determine conformance with qualifications for contract purposes. PR conducts a review on 3 year basis to assure non-licensed/certified/accredited providers are in compliance with contract requirements.

In the event either an L&C or a PR Review finds unqualified staff, providers are required by contract to self-audit to the following provisions:

- a. If the Department audit or review identifies unqualified staff were utilized in service delivery, the provider will conduct an internal audit of personnel files validating required staff training is complete and documented. The internal audit sample size shall be 100% or two hundred (200), whichever is less.
- b. 1) If the internal audit report isn't submitted in the required 30 calendar days from the date of the identifying review/audit, the provider will implement an improvement plan.
2) If the provider's internal audit indicates they failed to maintain an 87% level of qualified staff, the provider implements an improvement plan.
- c. In the event the provider fails to complete required internal audit and/or fails to submit required internal audit report within ninety (90) calendar days of the identifying review/audit, provider is advised that the Department will:
 - 1) Place provider on the Critical Status/No Growth/No Referral list;
 - 2) Notify L&C and/or the provider's accrediting entity; and
 - 3) For informational purposes, notify MMAC.

Providers not maintaining qualifications are dis-enrolled as providers for waiver services. The RO corrects authorizations made in error and files adjustments for claims paid in error and notifies RO PR. The provider may be required to self-disclosure to Missouri Medicaid Integrity Unit. Individuals are offered other waiver provider options.

In addition to targeted training all self-directed employees must have background checks assured by the contractor and be registered with the FCSR before they can be paid for services. If it is found a worker didn't have a background check completed prior to beginning work, the VF/EA FMS contractor is notified within 10 days of discovery by the RO. The contractor must respond in writing within 30 days to the RO describing error correction. Case management staff assures the worker doesn't provide additional services until a check is completed satisfactorily. Administration staff will adjust authorizations and claims made or paid in error.

L&C conducts a survey determining standards are met and produces a written report within 30 calendar days of the site survey; if standards are met, L&C issues a provisional license or a certificate for a period not to exceed 1 year, if not, they must complete a POC within 30 calendar days of receipt of the written report. L&C then has 15 calendar days to accept or reject the POC. Necessity for additional site visit(s) is determined by the type, scope and extent of the issues for improvement. L&C, as well as the PR contact at the RO, follow through on the process. Final determination of conformance to standards results in issuance or denial of the license or certificate. If the license or certificate is denied, the contract is terminated. The RO corrects authorizations made in error and files adjustments for claims paid in error and reports the action to the RO provider relations staff in writing, describing how the error was corrected and any remedial training provided to staff.

Providers accredited by CARF International or Council for Quality and Leadership (CQL) are deemed certified, as outlined in Missouri Code of State Regulation. Accredited providers submit a copy of their most recent accreditation survey and statement of accreditation to the Division of DD, verifying accreditation status is current

and noting areas of improvement identified, as well as an improvement plan, if necessary. The Division Standards and Accreditation Coordinator tracks to assuring reports are submitted and reviewed; if current status isn't on file, the Coordinator contacts PR at the RO to assist in obtaining required documentation.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party(<i>check each that applies</i>):	Frequency of data aggregation and analysis (<i>check each that applies</i>):
<input type="checkbox"/> State Medicaid Agency	<input type="checkbox"/> Weekly
<input checked="" type="checkbox"/> Operating Agency	<input type="checkbox"/> Monthly
<input type="checkbox"/> Sub-State Entity	<input checked="" type="checkbox"/> Quarterly

	<input type="checkbox"/> Continuously and Ongoing
	<input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 30px; width: 100%; margin-top: 5px;"></div>

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Qualified Providers that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. Additional Limits on Amount of Waiver Services. Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (*select one*).

☒ **Not applicable-** The state does not impose a limit on the amount of waiver services except as provided in Appendix C-3.

☐ **Applicable** - The state imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. *(check each that applies)*

- ☐ **Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.
Furnish the information specified above.

- ☐ **Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.
Furnish the information specified above.

- ☐ **Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.
Furnish the information specified above.

- ☐ **Other Type of Limit.** The state employs another type of limit.
Describe the limit and furnish the information specified above.

Appendix C: Participant Services

C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.
2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

Note instructions at Module 1, Attachment #2, HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.

Please see Attachment #2 for the waiver specific transition plan.

Stand-alone Respite Facility is a new provider for Out of Home Respite and Temporary Residential services. Stand-alone Respite facility providers must obtain Certification or Accreditation prior to enrollment with Medicaid and obtaining a contract with DMH. Stand-alone Respite facilities are assessed by Licensure and Certification and Provider Relations initially and ongoing for compliance with federal HCB Settings requirements prior to approval for enrollment. Using the state's established processes for site specific assessments ensures that every setting is fully compliant with the settings regulation prior to any service delivery. The state Medicaid agency ascertains through DMH enrollment approval and ongoing review that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing per 13 CSR 70.3.290 Home and Community Based Services Waiver Setting Requirements.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:

Individual Support Plan

a. Responsibility for Service Plan Development. Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (*select each that applies*):

- ☐ **Registered nurse, licensed to practice in the state**
- ☐ **Licensed practical or vocational nurse, acting within the scope of practice under state law**
- ☐ **Licensed physician (M.D. or D.O)**
- ☐ **Case Manager** (qualifications specified in Appendix C-1/C-3)
- ☒ **Case Manager** (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:

Case Manager (Support Coordinator) qualifications are specified in the Medicaid state plan for Targeted Case Management for persons with DD approved by CMS effective July 1, 2018. This states that case managers employed by a qualified provider shall have one of the following qualifications: (1) A Registered Nurse; or (2) A Bachelor's degree from an accredited college or university. Case managers employed by a qualified provider on or before June 30, 2018 shall remain qualified.

- ☐ **Social Worker**

Specify qualifications:

- ☐ **Other**

Specify the individuals and their qualifications:

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. *Select one:*

- ☒ **Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.**

- **Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.**

The state has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. *Specify:*

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

- c. Supporting the Participant in Service Plan Development.** Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

The individual will lead the person centered planning process where possible and the individual directs the process to the maximum extent possible. The individual's representative, family or guardian, and any other individuals they choose should have a participatory role. When individuals are children under the age of 18 living with their family, the parent(s) choose who they want to attend as a member of the planning team, and the parent(s) must participate in the meeting.

All support coordinators must be trained on the Division of DD Person Centered Planning Guidelines prior to facilitating an individual support plan. The guidelines describe person-centered planning as a process that is directed by the individual (waiver participant), with assistance as needed from a representative (support coordinator) and reinforces the responsibility of the support coordinator to ensure that waiver participants are full partners in the planning process.

A component of support coordinator's initial training is on the support planning process. The Individual Support Plan Guide is a component of the training which emphasizes the support coordinator role to encourage the participant/ family or guardian to actively engage in and direct the service plan development through the person-centered planning process, which includes:

- Individuals choosing people to participate in the process.
- Providing necessary information and support to ensure that the individual directs the process to the maximum extent possible, and is enabled to make informed choices and decisions.
- Is timely and occurs at times and locations of convenience to the individual.
- Reflecting cultural considerations of the individual and is conducted by providing information in plain language and in a manner that is accessible to individuals with disabilities and persons who are limited English proficient.
- Strategies for solving conflict or disagreement within the process, including clear conflict of interest guidelines for all planning participants.
- Offering informed choices to the individual regarding the services and supports they receive and from whom.
- Including a method for the individual to request updates to the plan as needed.

The guidelines are available to individuals and their families on the Division of DD's web page. The support plan must be finalized and agreed to, with the informed consent of the individual in writing, and signed by all individuals and providers responsible for its implementation.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

- d. Service Plan Development Process.** In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses

participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

(a) The individual support plan is developed through a person-centered planning process. The person will lead the planning process where possible. The planning team includes the individual and his or her representatives, family or guardian, and other people chosen by the individual. If the individual is a minor or has been judged incompetent, the family or guardian must participate in the planning process and approve the plan. The team also includes providers selected by the individual. Other professionals involved with the individual may be included as applicable and at the individual's invitation. The individual leads the process and meetings are timely and occur at a time and location of convenience for the individual. The SC documents that the individual was present at the meeting and how the individual contributed. The plan is usually facilitated by a support coordinator employed by a Division of DD Regional Office or an approved TCM Entity. If the person so chooses, another facilitator may be used, but the support coordinator will participate in the planning.

No later than 30 days from the date of acceptance into the waiver program the interdisciplinary planning team develops a support plan with the individual. Initial plans must contain at least an accurate beginning profile of the person. The profile needs to reflect what the person sees as important in relationships, things to do, places to be, rituals and routines, a description of immediate needs, especially those that are important to the person's quality of life including health and safety and information about what supports and/or services are required to meet the person's needs. The plan facilitator must make sure that each item in the action plan has enough detail and/or examples so that someone new in the person's life understands what is meant and how to support the person. If the initial plan is not comprehensive, it can cover no more than 60 days, during which time a more comprehensive plan must be finalized.

The support plan must be finalized and agreed to, with the informed consent of the individual in writing, and signed by all individuals and providers responsible for its implementation. The plan must be distributed to the individual and other people involved in the plan.

(b) The plan is based on the support coordinator's functional assessment of the individual and all other assessments that are pertinent. The Division uses a standard tool, the MAAS, to determine level of functioning. Historical assessments such as the MOCABI and Vineland may be used as an alternative tool for determining functional limitations until such time as the MAAS is administered for a waiver participant. In addition, educational, psychological and medical records, etc. may be used to assist in documenting the individual's diagnosis and level of functioning. Assessments include observations and information gathered from the members of the team.

The functional assessment determines how the individual wants to live, the individual's routines, what works for the individual and what does not. It also assesses what the individual wants to learn and how the individual learns best. It measures how independently the individual functions and what interferes with what the individual wants, and it suggests ways the individual's needs and wants can be met.

c) Upon being determined eligible for Division of DD services, each individual and/or legal representative, or guardian receives information regarding available services and programs, including information about the waiver. After needs are identified through the planning process, the support coordinator reviews this information once more and together with the individual and the interdisciplinary team specific services and supports are identified to meet the participant's needs.

d) ISPs must be written in accordance with Division of DD's ISP Guide and Missouri Quality Outcomes. The ISP Guide includes a description of mandatory plan components such as demographics; health and safety, who and what are important to the person; individual's strengths and preferences; what staff need to know and do to provide support; requirements of the family of a minor child or guardian, how the person communicates and issues to be resolved. Setting options are identified and documented in the plan, based on the individual's needs, preferences, and, for residential settings, resources available for room and board. The plan reflects the setting in which the individual resides was chosen by the individual.

The plan specifies all the services and supports that are needed and who is to provide them, to enable the individual to live the way the individual wants to live and learn what the individual wants to learn. Providing supports or making adaptations to the environment may be part of the plan. The plan specifies any limitations the planning team foresees in being able to support the individual in achieving these desires. Such limitations can be financial, temporal and/or can relate to health and safety.

(e) ISPs address all supports and services an individual is to receive. This includes services provided through the waiver, other state plan services and natural supports. For each need that is expressed, the plan must describe what support or service is being provided to meet that need. Providers selected by the individual are responsible for providing services in

accordance with the plan. The support coordinator is responsible for coordinating services provided by other agencies or individuals and monitoring the provision of services during routine monitoring visits.

(f) Each outcome on the plan must be accompanied by information regarding the person(s) responsible for assuring progress. Timelines for completion of each outcome is specified. Support Coordinators monitor this progress during plan review visits.

(g) ISPs are subject to continuous revision. At a minimum, the entire team performs a formal review at least annually. The support coordinator maintains at least quarterly contact with each individual, their family or guardian, with at least an annual face to face contact for the individual who resides in their natural home setting. Monthly face to face contact is required for individuals in residential placement. During quarterly contact, the support coordinator monitors the individual's health and welfare. Progress notes document the contact and whether the outcomes stated in the plan are occurring.

Support coordinators are responsible for reviewing the provider's notes at least quarterly, and for observing and documenting any problems, discrepancies, dramatic changes or other occurrences which indicate a need for renewed assessment. The support coordinator's review of the provider notes includes making further inquiries and taking appropriate action if there is reason to believe the person's health or welfare is potentially at risk. During this monitoring the support coordinator determines if the support plan continues to meet the needs of the individual and with the approval of and input from the individual, their family or guardian, and makes any necessary revisions.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

- e. Risk Assessment and Mitigation.** Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

The ISP Guide requires that support plans identify risk to individuals to assure their health and welfare. When the individual will be learning or doing something that involves increased risk, the plan or action plan will describe: 1) Action taken to assure the individual is making an informed choice, including a description of what has been done to assure that the person clearly understands what risks are involved and possible consequences; 2) What the individual needs to know and the skills and supports that are necessary for the individual to achieve his/her goal; 3) How supports will be provided, skills that will be taught and by whom; 4) What others in the community need to know and do to provide support to the individual; and 5) What follow-up and monitoring will occur.

The Division is enhancing the process for health risk identification and planning for waiver participants.

This enhancement is the implementation and utilization of the Health Risk Screening Tool (HRST).

(HRST) is a tool used to provide early detection of health risks and destabilization. The MO HRST project has also designed standardized electronic Health Risk Support Plan (HRSP) templates in the HRS system which will support the team with identification of implementation strategies to mitigate risk and improve health outcomes. The completion of the HRST and any applicable HRSPs will align with the individual's annual Individualized Support Plan (ISP) meeting.

Information entered into the MO HRS system will be accessible electronically to all identified team members providing a more efficient and effective system for interdisciplinary team member communication and direct accessibility to identified health risk, planning and service information. This access will also provide a more efficient and effective process for ongoing monitoring to support ensuring individual waiver participant health and welfare.

The utilization of this process will be initiated in July of 2021 with full implementation of all waiver participants by May of 2024.

Individualized back-up plans are based on the individuals assessed needs, and are documented in the ISP when needed. Providers and lead agencies are responsible for back-up plans and this is part of the service that they provide. There are back-up plans for everyone and the agency should inform individuals about what the back-up plan is and what is contained in the back-up plan. The support coordinator is responsible for ensuring that all back-up plans associated with the individual are incorporated into the individual's service plan.

Back up plans include a description of the risks faced when emergencies, such as lack of staff arises. The back-up plan also identifies what must be done to prevent risks to health and safety; how people should respond when an emergency occurs; and who should be contacted and when.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

When more than one provider of service is enrolled as a waiver provider, the individual or legal guardian is given a choice among eligible providers. The support coordinator educates and informs individuals regarding eligible providers of services to the individual or guardian during the annual planning process and at any time as needed. Documentation of educating and informing individuals of eligible providers for provider choice must be included in the Individual Support Plan.

Support Coordinators provide the individual or legal guardian with options of eligible providers for the given service. The Regional Office or TCM Entity that is providing support coordination is responsible for ensuring individual choice of provider selection is obtained and maintained in the individual's case record.

The Division of DD makes every effort to build provider capacity in rural areas. Each regional office has Provider Relations staff designated to work with provider development. If there are limited providers available for a chosen service the Division will work closely with the individual to identify other providers that would be willing to provide the needed service in the area of the state where the individual resides.

Accessible information on choice of qualified providers is provided by the support coordinator during the planning team meetings. The planning team utilizes the ISP guide which emphasizes the support coordinator role to provide accessible information on the choice of qualified providers, which includes:

- Providing necessary information and support to ensure that the individual directs the process to the maximum extent possible, and is enabled to make informed choices and decisions.
- Reflecting cultural considerations of the individual and is conducted by providing information in plain language and in a manner that is accessible to individuals with disabilities and persons who are limited English proficient.
- Offering informed choices to the individual regarding the services and supports they receive and from whom.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency. Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

DMH staff will complete a statistically valid number of record reviews on a quarterly basis to assure support plans are completed in accordance with waiver policies and procedures. Reports are produced quarterly and sent to MHD, which document the outcome of the reviews. MHD reviews the results of the DMH's review, including corrective actions, and determines if any additional action is needed. Supporting documentation will be available to MHD upon request.

In addition to the quarterly statistically valid sampling review performed by DMH, MHD also conducts their own review annually based upon a statistically valid number of participants. The review by staff from MHD ensures individuals receiving waiver services had a service plan in effect for the period of time services were provided. The review process also ensures that the need for services that were provided was documented in the support plan, and that all service needs in the support plan were properly authorized prior to service delivery.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h. Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- ☐ Every three months or more frequently when necessary
- ☐ Every six months or more frequently when necessary
- ☒ Every twelve months or more frequently when necessary
- ☐ Other schedule

Specify the other schedule:

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (*check each that applies*):

- ☐ Medicaid agency
- ☒ Operating agency
- ☐ Case manager
- ☒ Other

Specify:

Approved Targeted Case Management Entities that provide support coordination, including support plan development, maintain the support plans of participants for whom they coordinate services.

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

a.) Monitoring the implementation of the support plan and the participant health and welfare is the responsibility of the planning team (Code of State Regulation 9 CSR 45-3.010). This process is facilitated by the support coordinator employed by a Division of DD Regional Office or an approved TCM Entity, and designated management staff from the community provider.

b.) & c.) Support plans and participant health and welfare are monitored and follow-up action is taken through the following processes and frequencies:

1) Support coordinators monitor health, fiscal issues, services and staff, environment and safety, and consumer rights during monitoring visits with the participant, per the Individual Support Plan Monitoring and Review Directive. Support Coordinators monitor all services and supports for the individual, which are developed through the person centered planning process and documented in the ISP. The Individual Support Plan Monitoring and Review process is driven by the supports and services which are identified in the ISP. This review is completed monthly for the services that require monthly monitoring and quarterly for those services that require quarterly monitoring. At a minimum of quarterly, the support coordinator monitors the health and welfare of the participant. This includes a review of the support plan to ensure service needs identified in the plan are being met. The review is accomplished by contact with the individual and/or responsible party, through observation, and review of documentation. If non-waiver service needs are identified in the support plan, the support coordinator determines the person or entity identified in the support plan as responsible for helping the individual access the service(s) and determines if services are being received as planned. Non-waiver services may include health services the individual accesses through State plan Medicaid services. Review of the support plan and the person's health and safety includes a review of the backup plan for participants.. Monitoring considers whether the backup plan has been implemented, and if so, whether the plan sufficiently met the individual's needs and whether all persons and entities named as part of the backup plan are still available to assist. If changes are needed to the backup plan, the service plan will be updated accordingly. Results are documented in a Monthly/Quarterly Summary. Back-up plans for participants served by agencies are required dependent upon an individual's assessed needs.

When an issue or concern is discovered around an individual's health, safety/environment, rights, money, services, or back-up plan, the Support Coordinator supervisor, individual's guardian and/or the provider's designated management staff are notified. If a concern is not an immediate risk to the person's health or welfare and cannot be quickly resolved then the support coordinator indicates the type of action plan that will be taken to address the issue. Concerns around the sufficiency of the backup plan shall be immediately resolved which will include a revised support plan. All issues/concerns identified from support monitoring and ISP Review processes and action taken and remediation are entered in the Division of DD Information System for trending and tracking purposes. Support coordinators are employed by the state or by TCM entities. Both are responsible for reporting information into the Division of DD Information System and for maintaining case notes.

If monitoring discovers there is a lack of progress on achieving the outcomes identified in the support plan, the Support Coordinator documents this and works with the individual and the interdisciplinary team to revise and amend the plan as needed. Support plan revisions can only be implemented with the approval of the individual or their guardian.

2) The Support Plan Review process ensures the individual planning process is person-centered and leads to quality outcomes for individuals. The process also evaluates the effectiveness of support services in meeting individual needs, identifies support service strengths, and areas needing improvement. Each person supported by the Division must have a support plan that meets the minimum criteria described in the Division of DD ISP Guide.

Support plans must be reviewed and updated if necessary on at least a quarterly basis. The review and update must also occur when:

- a) the person or the person's guardian requests that information be changed or added;
- b) others invited by the person to participate in his/her support plan provide additional information;
- c) needs for supports and services are not being adequately addressed;
- d) a back-up plan failed or needs to be revised due to a change in the availability of persons named or entities named; or
- e) the need for support and service changes.

3) The MHD reviews a randomly selected sample of waiver participant records annually. The compliance review includes looking at ISPs. Information reviewed may include the support plan, LOC evaluation, annual re-determination of the LOC, assessments used to determine the LOC, service reviews completed by support coordinators, provider monthly reviews of the support plan, provider choice statements completed by the individual, and waiver choice statements completed by the individual. The review by the MHD ensures all service needs identified in the support plan

are being met regardless of the funding source for support. If there is not evidence that a need in a person's support plan is being met, this is a review finding which will be referred back to the regional office or county entity. Depending on the urgency of ensuring the need is met, a phone call may be placed or the request for corrective action will be provided in writing. Division of DD staff is responsible for ensuring that corrective action is taken and for reporting the action to MHD.

4) A random review (statistically valid sample of 95% confidence level and a plus or minus 5% margin of error rate) of ISPs is completed on a quarterly basis. This includes both regional office as well as contracted TCM agencies which provide case management. The review is conducted by Division of DD staff on a statistically valid sample of waiver participants to ensure adherence to CMS waiver and Division of DD requirements.

(d) TCM TAC ISP Review monitoring includes ensuring the individual has free choice of provider for all waiver services. Choice of provider is documented in the Individual Support Plan. If a new service is initiated, or a new provider is identified, the support coordinator would document this in the updated Individual Support Plan to verify provider choice. Quarterly a random sample of ISPs and associated documentation are reviewed through the ISP review process.

b. Monitoring Safeguards. *Select one:*

- ☒ **Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.**
- ☐ **Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.**

The state has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. *Specify:*

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

- a. Sub-assurance: Service plans address all participants assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.**

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of Support Plans addressing participants' desired outcomes.
 (Number of Support Plans addressing participants' desired outcomes divided by the total number of Support Plans reviewed in the identified quarter)

Data Source (Select one):

Record reviews, off-site

b. Sub-assurance: *The State monitors service plan development in accordance with its policies and procedures.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of plans that describe what people need to know or do in order to support the person (Number of plans within the sample describing what people need to know or do in order to support the person divided by the number of plans reviewed within the identified quarter.)

Data Source (Select one):

Record reviews, off-site

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

--

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

Designated Regional Office staff review a sampling of ISP support plans every quarter and communicate to support coordinators regarding any findings requiring remediation and track to ensure remediation occurs.

(a) If a plan does not meet criteria set forth in the ISP Guide, remediation may include training as needed. The director of a TCM entity is responsible for determining systems enhancements. If personnel actions are needed for individual support coordinators, including, but not limited to, training or re-training, verbal or written warnings, suspension or termination.

Assigned Support Coordinators as a component of their ongoing service monitoring enter findings requiring remediation into the Division of DD Information System which is monitored by local QE to ensure remediation timelines are met.

TCM Agencies regarding any findings requiring remediation and track to ensure remediation occurs.

Designated Regional Office staff review a sampling of Individual Support Plans every quarter for documentation of educating and informing the individual of eligible providers and the individual was given free choice of provider for all waiver services. The Designated Regional Office staff will communicate to support coordinators regarding any findings requiring remediation and track to ensure remediation occurs.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

<input type="checkbox"/> State Medicaid Agency	<input type="checkbox"/> Weekly
<input checked="" type="checkbox"/> Operating Agency	<input type="checkbox"/> Monthly
<input type="checkbox"/> Sub-State Entity	<input checked="" type="checkbox"/> Quarterly
<input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%; margin-top: 5px;"></div>	<input type="checkbox"/> Annually
	<input type="checkbox"/> Continuously and Ongoing
	<input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%; margin-top: 5px;"></div>

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability (from Application Section 3, Components of the Waiver Request):

☒ Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.

01/18/2023

- ☐ **No. This waiver does not provide participant direction opportunities.** Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

- ☐ **Yes. The state requests that this waiver be considered for Independence Plus designation.**
- ☒ **No. Independence Plus designation is not requested.**

Appendix E: Participant Direction of Services

E-1: Overview (1 of 13)

- a. Description of Participant Direction.** In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.

a) Expectations for Person Centered Planning, reflect the values outlined in the Missouri Quality Outcomes.

The outcomes acknowledge principles that people have control of their daily lives, and that plans should reflect how they want to live their life. Person-centered planning is the foundation in which people can determine the direction of their lives, identify the supports they will need, and how those supports should be delivered to assist them to move in their personally identified direction. The planning process is under the direction of the individual or a representative of their choice. The process identifies needs and how those will be met by both paid and unpaid supports, who will provide the supports, and how supports will be provided within agreed upon parameters.

b) Individuals/guardians or designated representatives may choose to self-direct personal assistant services, Individual Directed Goods and Services and community specialist services and be the employer though a Vendor Fiscal Employer Agent (VF/EA) Financial Management Services (FMS). All Individuals have a support coordinator trained to facilitate the person centered planning process. Individual/guardians or designated representatives direct how their individualized budget is to be expended to exercise control of their allocated resources. They have the option to have a support broker to provide information and assistance in order to help in recruiting, hiring, and supervising staff. The individual/guardian or designated representative is the common law employer with the assistance of a VF/EA FMS who will perform payroll, taxes, broker workers compensation, etc.

c) Resources available to support individuals who direct their services include the ability of the individual/guardian or designated representative to facilitate the support plan with the assistance of the support coordinator. The individual/guardian or designated representative recruits, hires and self-directs employees and performs other employer supervisory duties. Individuals/guardians or designated representatives may be authorized for a support broker to provide the assistance. VF/EA FMS' are required for individuals who self-direct. The financial management contractor provides the individual or representative with technical assistance in getting employees set-up for payroll services and in tracking expenditures. Support coordinators are responsible for monitoring: health and safety, ensuring individuals stay within budgeted allocations, and required documentation is created and maintained. Additionally the support coordinator is responsible in informing individuals of the option to self-direct. A support broker is an option for individuals who need additional information and assistance in managing and directing their employees. The self-directed supports coordinator is a state employee who is available to provide technical assistance, create system enhancements, track and trend issues, and provide oversight of the option to self-direct.

Appendix E: Participant Direction of Services

E-1: Overview (2 of 13)

- b. Participant Direction Opportunities.** Specify the participant direction opportunities that are available in the waiver.

Select one:

- ☐ **Participant: Employer Authority.** As specified in *Appendix E-2, Item a*, the participant (or the participant's representative) has decision-making authority over workers who provide waiver services. The participant may function as the common law employer or the co-employer of workers. Supports and protections are available for participants who exercise this authority.
- ☐ **Participant: Budget Authority.** As specified in *Appendix E-2, Item b*, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.
- ☒ **Both Authorities.** The waiver provides for both participant direction opportunities as specified in *Appendix E-2*. Supports and protections are available for participants who exercise these authorities.

c. **Availability of Participant Direction by Type of Living Arrangement.** Check each that applies:

- ☒ Participant direction opportunities are available to participants who live in their own private residence or the home of a family member.
- ☐ Participant direction opportunities are available to individuals who reside in other living arrangements where services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor.
- ☐ The participant direction opportunities are available to persons in the following other living arrangements

Specify these living arrangements:

Appendix E: Participant Direction of Services

E-1: Overview (3 of 13)

d. **Election of Participant Direction.** Election of participant direction is subject to the following policy (*select one*):

- ☐ Waiver is designed to support only individuals who want to direct their services.
- ☐ The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.
- ☒ The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the state. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.

Specify the criteria

Only Personal Assistant, Community Specialist and Individual Directed Goods and Services may be self-directed. For individuals who do not choose to self-direct, waiver services are available through MO HealthNet enrolled waiver provider agencies. Only individuals who live in their own private residence or the home of a family member may self-direct.

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

e. **Information Furnished to Participant.** Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or

entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

- a) Individual/guardians or designated representatives learn about self-directed support options from the support coordinator during the person centered planning process when needs are identified and ways of supporting the needs are discussed. During the person centered planning process, individuals have the opportunity to weigh the pros and cons of participant direction. Self-directed supports is listed on the Medicaid Waiver, Provider, and Services Choice Statement. Individual/guardians or designated representatives also often learn about self-directed services from other individuals or families who are directing their own services. Information on self-directed support is included in the waiver manual which is available to the public. The waiver manual and the Individual handbook on self-directed support is also available on the DMH/Division of DD web-site. The information assists support coordinators in describing the benefits and processes for self-direction and provides written material for individuals and/or legal representatives on the specifics. Regional offices have a Self-Directed Coordinator that is available to provide technical assistance and guidance to support coordinator and other stakeholders. As part of the person centered planning process, the specialized needs of the individual are discussed with the planning team to identify any potential liabilities or risks the individual may face, and to determine a plan for how each potential liability and risk will be addressed.
- b) DD TCM Entities providing support coordination are responsible for furnishing information on self-direct supports options.
- c) DD TCM Entity support coordinators are trained on self-directed supports options. If the support coordinator hasn't been through the training, regional office self-directed coordinators may be asked to assist in providing information to the individual with the support coordinator. This information is presented during the person centered planning process when individual needs are identified and ways of supporting the needs are discussed, anytime the individual is dissatisfied with provider based services, or upon inquiry by the participant/guardian or designated representative.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

f. Participant Direction by a Representative. Specify the state's policy concerning the direction of waiver services by a representative (*select one*):

- ☐ The state does not provide for the direction of waiver services by a representative.
- ☒ The state provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (*check each that applies*):

- ☒ Waiver services may be directed by a legal representative of the participant.
- ☒ Waiver services may be directed by a non-legal representative freely chosen by an adult participant.
- Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

An Individual's Right to Have a Designated Representative

An individual who is eighteen (18) years or older, a guardian, or a parent (if the individual is a minor), may identify a designated representative for purposes of utilizing SDS. The designated representative is responsible for managing employee(s), acting in the best interest of the individual, in accordance with the guiding principles of self-determination. If a representative has been designated by a court, the legal guardian will identify themselves or another person as the representative.

A designated representative must:

1. Direct and control the employees' day to day activities and outcomes.
2. Ensure, as much as possible, that decisions made would be those of the individual in the absence of their disability;
3. Accommodate the individual, to the extent necessary, so that they can participate as fully as possible in all decisions that affect them; accommodations must include, but not be limited to, communication devices, interpreters, and physical assistance;
4. Give due consideration to all information including the recommendations of other interested and involved parties; and
5. Embody the guiding principles of Self-Determination
6. Not be paid to provide any supports to the individual.

The following people can be designated as a representative, as available and willing:

- A spouse (unless a formal legal action for divorce is pending)
- An adult child of the individual
- A parent
- An adult brother or sister
- Another adult relative of the individual
- Other representative if the individual wants a representative but is unable to identify one of the above, the individual along with their support coordinator, and planning team, may identify an appropriate representative. The other representative must be an adult who can demonstrate a history of knowledge of the individual's preferences, values, needs, etc. The individual and his or her planning team is responsible to ensure that the selected representative is able to perform all the employer-related responsibilities and complies with requirements associated with representing one individual in directing services and supports.

The planning team and VF/EA FMS must recognize the participant's representative as a decision-maker and provide the representative with all of the information, training, and support that would typically be provided to a participant who is self-directing. The representative must be informed of the rights and responsibilities of being a representative. Once fully informed the representative must sign an agreement which must be given to the representative and maintained in the participant's record. The agreement must list the roles and responsibilities of the representative, the roles and responsibilities of the VF/EA FMS, must include that the representative accepts the roles and responsibilities of this function; and state that the representative will abide by the VF/EA FMS policies and procedures. The designated representative must function in the best interest of the participant and may not also be paid to provide services to the participant. The individual can at any time revoke the agreement with the designated representative.

The non-legal representative signs an agreement which states they will act in the best interest of the individual and will comply with the program requirements. The choice of non-legal representative is reviewed by the planning team and documented in the ISP. Additionally, the support coordinator completes quarterly service monitoring as well as a quarterly provider reviews to ensure program rules are followed.

Service Monitoring takes place with each waiver participant as outlined in Appendix D-2. The monitoring process can lead to identifying issues with the representative not acting in the best interest of the waiver participant.

Appendix E: Participant Direction of Services

E-1: Overview (6 of 13)

g. Participant-Directed Services. Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Waiver Service	Employer Authority	Budget Authority
Community Specialist	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Personal Assistant Services	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Individual Directed Goods and Services	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Appendix E: Participant Direction of Services

E-1: Overview (7 of 13)

h. Financial Management Services. Except in certain circumstances, financial management services are mandatory and integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. *Select one:*

☒ **Yes. Financial Management Services are furnished through a third party entity.** (Complete item E-1-i).

Specify whether governmental and/or private entities furnish these services. *Check each that applies:*

☐ **Governmental entities**

☒ **Private entities**

☐ **No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used.** *Do not complete Item E-1-i.*

Appendix E: Participant Direction of Services

E-1: Overview (8 of 13)

i. Provision of Financial Management Services. Financial management services (FMS) may be furnished as a waiver service or as an administrative activity. *Select one:*

☐ **FMS are covered as the waiver service specified in Appendix C-1/C-3**

The waiver service entitled:

☒ **FMS are provided as an administrative activity.**

Provide the following information

i. Types of Entities: Specify the types of entities that furnish FMS and the method of procuring these services:

The Division of DD has a statewide contract with a VF/EA FMS provider for payroll services including, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance. A single VF/EA FMS contractor is responsible for payroll functions. This contractor is also responsible for verifying the citizenship status and background screenings of new workers and making available expenditure reports to individual. Reimbursement for VF/EA FMS is an administrative service and not fee for service. The provider is not a governmental entity.

VF/EA FMS is responsible for maintaining a separate account for each participant's budget, tracking and reporting disbursements and balances of participant funds, and processing and paying invoices for services approved in the service plan.

ii. Payment for FMS. Specify how FMS entities are compensated for the administrative activities that they perform:

The Division pays the VF/EA FMS contractor for services provided with general revenue and seeks reimbursement through the MO HealthNet program as an administrative expense. VF/EA FMS are provided through a single statewide contract. The contractor is a private company. The contractor has a specific rate for each new worker added, each check written etc. (by transaction). The contractor is paid for these services with general revenue and records of payments will be submitted for 50% reimbursement as administrative service in compliance with 45 CFR 74. VF/EA FMS are not reimbursed based on a percentage of the total dollar volume of transactions it processes. The VF/EA FMS sends a detailed invoice to the Division of DD monthly for the actual cost.

iii. Scope of FMS. Specify the scope of the supports that FMS entities provide (*check each that applies*):

Supports furnished when the participant is the employer of direct support workers:

- ☒ Assist participant in verifying support worker citizenship status
- ☒ Collect and process timesheets of support workers
- ☒ Process payroll, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance
- ☒ Other

Specify:

The VF/EA FMS contractor is available for technical support to the participant/guardian or designated representative in completing paperwork to set up as an employer, completing paperwork for each new worker/employee, and facilitates background checks for all new workers. The VF/EA FMS maintains evidence of employee qualifications and service documentation on behalf of the individual and family. The VF/EA FMS contractor maintains an internet web-portal where worked time can be recorded. The participant/guardian or designated representative, the employees and staff at Regional Offices, and support coordinator have access to the secure web-based system to view payment information. Individual/guardians or designated representatives can view total amounts authorized, payments made to workers, and balances. Workers can view current payroll information as well as YTD. Regional office staff and support coordination staff can also view authorized amounts, payments, and balances.

Supports furnished when the participant exercises budget authority:

- ☒ Maintain a separate account for each participant's participant-directed budget
- ☒ Track and report participant funds, disbursements and the balance of participant funds
- ☒ Process and pay invoices for goods and services approved in the service plan
- ☒ Provide participant with periodic reports of expenditures and the status of the participant-directed budget
- ☐ Other services and supports

Specify:

Additional functions/activities:

- ☐ Execute and hold Medicaid provider agreements as authorized under a written agreement with the Medicaid agency
- ☒ Receive and disburse funds for the payment of participant-directed services under an agreement with the Medicaid agency or operating agency
- ☒ Provide other entities specified by the state with periodic reports of expenditures and the status of

the participant-directed budget

☒ Other

Specify:

The VF/EA FMS maintains records of SDS employee qualification documents, maintains Service Documentation and provides Electronic Visit Verification (EVV).

iv. Oversight of FMS Entities. Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.

Oversight of the VF/EA FMS entities:

a) Individual Directed Services are prior-authorized by the local Regional Office on a yearly basis based on the support plan. Dollars authorizations are sent to the VF/EA FMS by Central Office on a daily basis (Mon-Sun) based on the regional office authorizations. Employees input delivered services by entering time through the internet on the VF/EA FMS's web-portal or faxing paper timesheets. Regional Office staff has access to review information that is input. Individuals/designated representatives also have access to the system to approve services and to review their account of authorized and delivered services/dollars. The VF/EA FMS provider pays workers by direct deposit or a manual check, and calculates, files reports and pays taxes that are due. Employee pay stubs reflecting withholdings from gross payroll are available on-line or sent by regular mail, if requested, to the employee each pay period.

The VF/EA FMS maintains a web portal for the employer. The web portal generates live time reports per payroll expenditures, which itemizes reporting of wages for each employee, total payments, total dollars amounts paid on behalf of each participant. For individuals/designated representatives who do not have internet access reports are sent monthly by mail. These reports are made available to Regional Offices and support coordinators. Additionally the VF/EA FMS's processes and systems have quality controls that ensure accurate and appropriate billing. These include system "flags" that identify over-authorizations, duplicate services, duplicate individuals and correct codes/authorizations. This ensures that units billed will not exceed state Medicaid maximums, duplicate billing for same services, and employees only enter billing for authorized services.

b) Participant services are monitored by the TCM Entity support coordinator. If concern is noted, the QE leadership team is asked to conduct a further review.

DMH Central Office also monitors the VF/EA FMS to ensure contracted activities in support of self-directed services are completed in an individual centered, timely, and accurate manner. The VF/EA FMS also follows their own internal quality assurance plan to meet accounting controls and performance standards including communications, payroll processing, and reporting. Additionally, the VF/EA FMS arranges for an annual external CPA agency audit to insure financial internal controls are followed. This report is shared with Individual for whom the VF/EA FMS is providing contracted services.

c) Monitoring by the support coordinator is quarterly, unless there is reason to monitor more frequently. The VF/EA FMS contractor, as the agent for the participant/guardian or designated representative, receives all correspondence from federal, state and local employment-related tax and insurance entities and continuously monitors for problems. The VF/EA FMS shall make available all records, books and other documents related to the contract to DMH, its designee, and/or the Missouri State Auditor in an acceptable format, at all reasonable times during the contract period and for three years after the contract termination. The Missouri's State Auditor's Office routinely reviews all programs for problems when auditing each Division Regional Office and Central Office operations.

Appendix E: Participant Direction of Services

E-1: Overview (9 of 13)

j. Information and Assistance in Support of Participant Direction. In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested (*check each that applies*):

- ☐ **Case Management Activity.** Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:

- ☒ **Waiver Service Coverage.**

Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (*check each that applies*):

Participant-Directed Waiver Service	Information and Assistance Provided through this Waiver Service Coverage
Assistive Technology	<input type="checkbox"/>
Specialized Medical Equipment and Supplies (Adaptive Equipment)	<input type="checkbox"/>
Environmental Accessibility Adaptations-Home/Vehicle Modification	<input type="checkbox"/>
Applied Behavior Analysis	<input type="checkbox"/>
Transportation	<input type="checkbox"/>
Support Broker	<input checked="" type="checkbox"/>
Day Habilitation	<input type="checkbox"/>
Community Specialist	<input type="checkbox"/>
Community Networking	<input type="checkbox"/>
Personal Assistant Services	<input type="checkbox"/>
Out of Home Respite	<input type="checkbox"/>
Crisis Intervention	<input type="checkbox"/>
Remote Supports	<input type="checkbox"/>
Health Assessment and Coordination Services	<input type="checkbox"/>
In Home Respite	<input type="checkbox"/>
Individualized Skill Development	<input type="checkbox"/>
Individual Directed Goods and Services	<input type="checkbox"/>

- ☐ **Administrative Activity.** Information and assistance in support of participant direction are furnished as an administrative activity.

Specify (a) the types of entities that furnish these supports; (b) how the supports are procured and compensated; (c)

describe in detail the supports that are furnished for each participant direction opportunity under the waiver; (d) the methods and frequency of assessing the performance of the entities that furnish these supports; and, (e) the entity or entities responsible for assessing performance:

Appendix E: Participant Direction of Services

E-1: Overview (10 of 13)

k. Independent Advocacy (*select one*).

- ☒ **No. Arrangements have not been made for independent advocacy.**
- ☐ **Yes. Independent advocacy is available to participants who direct their services.**

Describe the nature of this independent advocacy and how participants may access this advocacy:

Appendix E: Participant Direction of Services

E-1: Overview (11 of 13)

l. Voluntary Termination of Participant Direction. Describe how the state accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the state assures continuity of services and participant health and welfare during the transition from participant direction:

If an individual voluntarily requests to terminate individual direction in order to receive services through an agency, the support coordinator will work with the individual or legal representative to select a provider agency and transition services to the agency model by changing prior authorizations based on the individual's needs. The support coordinator and other staff with the regional office will make every effort for the transition to be smooth and to ensure the individual is not without services during the transition. If SDS is terminated, the same level of services will be offered to the individual through a traditional agency model.

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

m. Involuntary Termination of Participant Direction. Specify the circumstances when the state will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

If the planning team determines the health and safety of the individual is at risk, the option of self-directing may be terminated. The option of self-directing may also be terminated if there are concerns regarding the participant/guardian or designated representative's willingness to ensure employee records are accurately kept, or if the participant/guardian or designated representative is unwilling to supervise employees to receive services according to the plan, or unwilling to use adequate supports or unwilling to stay within the budget allocation, or the participant/guardian or designated representative has been the subject of a Medicaid audit resulting in sanctions for false or fraudulent claims under 13 CSR 70-3.030.

Before terminating self-direction options, the support coordinator and other appropriate staff will first counsel the individual or legal representative to assist the participant or legal representative in understanding the issues, let the participant or legal representative know what corrective action is needed, and offer assistance in making changes. If the individual/guardian or designated representative refuses to cooperate, the option of self-directing may be terminated. However, the same level of services would be offered to the individual through an agency model.

During the involuntary termination process, the support coordinator and planning team helps the individual transition to an agency model of their choice. If it is an immediate health and safety issue, the support coordinator and planning team would arrange for immediate temporary supports until a long-term agency is chosen by the individual.

Appendix E: Participant Direction of Services

E-1: Overview (13 of 13)

n. Goals for Participant Direction. In the following table, provide the state's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the state will report to CMS the number of participants who elect to direct their waiver services.

Table E-1-n

	Employer Authority Only	Budget Authority Only or Budget Authority in Combination with Employer Authority
Waiver Year	Number of Participants	Number of Participants
Year 1		270
Year 2		282
Year 3		294
Year 4		306
Year 5		318

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant Direction (1 of 6)

a. Participant - Employer Authority Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:

i. Participant Employer Status. Specify the participant's employer status under the waiver. *Select one or both:*

- ☐ **Participant/Co-Employer.** The participant (or the participant's representative) functions as the co-employer (managing employer) of workers who provide waiver services. An agency is the common law employer of participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are available to assist the participant in conducting employer-related functions.

Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

-
- ☒ **Participant/Common Law Employer.** The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.

ii. Participant Decision Making Authority. The participant (or the participant's representative) has decision making authority over workers who provide waiver services. *Select one or more decision making authorities that participants exercise:*

- ☒ **Recruit staff**
- ☐ **Refer staff to agency for hiring (co-employer)**
- ☐ **Select staff from worker registry**
- ☒ **Hire staff common law employer**
- ☒ **Verify staff qualifications**
- ☒ **Obtain criminal history and/or background investigation of staff**

Specify how the costs of such investigations are compensated:

Division of DD regional offices pay the costs. The VF/EA FMS obtains the background checks.

- ☐ **Specify additional staff qualifications based on participant needs and preferences so long as such qualifications are consistent with the qualifications specified in Appendix C-1/C-3.**

Specify the state's method to conduct background checks if it varies from Appendix C-2-a:

-
- ☒ **Determine staff duties consistent with the service specifications in Appendix C-1/C-3.**
- ☒ **Determine staff wages and benefits subject to state limits**
- ☒ **Schedule staff**
- ☒ **Orient and instruct staff in duties**
- ☒ **Supervise staff**
- ☒ **Evaluate staff performance**
- ☒ **Verify time worked by staff and approve time sheets**
- ☒ **Discharge staff (common law employer)**
- ☐ **Discharge staff from providing services (co-employer)**
- ☐ **Other**

Specify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (2 of 6)

b. Participant - Budget Authority *Complete when the waiver offers the budget authority opportunity as indicated in Item E-1-b:*

i. Participant Decision Making Authority. When the participant has budget authority, indicate the decision-making authority that the participant may exercise over the budget. *Select one or more:*

- ☒ **Reallocate funds among services included in the budget**
- ☒ **Determine the amount paid for services within the state's established limits**
- ☒ **Substitute service providers**
- ☒ **Schedule the provision of services**
- ☒ **Specify additional service provider qualifications consistent with the qualifications specified in Appendix C-1/C-3**
- ☒ **Specify how services are provided, consistent with the service specifications contained in Appendix C-1/C-3**
- ☒ **Identify service providers and refer for provider enrollment**
- ☒ **Authorize payment for waiver goods and services**
- ☒ **Review and approve provider invoices for services rendered**
- ☒ **Other**

Specify:

The individual and/or designated representative approve self-directed employee electronic timesheets for services rendered by use of the VF/EA FMS web portal, or by providing signatures on paper timesheets.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (3 of 6)

b. Participant - Budget Authority

ii. Participant-Directed Budget Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

For an individual who is self-directing their services, the planning team determines needs based on gathered assessments . The participant and their planning team identify how they best meet the assessed needs. The team identifies how these needs can be met through informal supports and other sources. Any needs that cannot be met through these means will constitute the waiver individual budget.

The UR process reviews the budget along with the support plan to ensure the level of need reflected in the budget is documented in the support plan and that services and amounts of service requested are necessary and consistent with the level of services other individuals who have a similar level of need receive. Historical costs and prior utilization data are also used to project costs and develop the budget. When an annual plan and budget are being renewed, historical costs and prior utilization data become the basis for calculating the new budget.

The individual is notified in writing of the approved budget and plan. The notice includes appeal rights should an individual disagree with the outcome. This process, which is in state regulation, is explained to individuals by the support coordinator and is available to the public from the State's DMH web-site.

Any time an individual's needs change, the support plan can be amended and a new budget can be prepared. If the new budget results in increased level of funding, the support plan and budget will be reviewed through the UR process before final approval is granted. If an increase in service are needed immediately, an immediate increase can be approved out of the annual budget by the individual or their representative. The team must then meet to determine if an increase in the annual budget is necessary. The person centered planning process including the budgeting process is explained to individual by the support coordinator. Information on the person centered planning process and the UR process which is in state regulation, are available to the public from the State's DMH web-site.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (4 of 6)

b. Participant - Budget Authority

- iii. **Informing Participant of Budget Amount.** Describe how the state informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

The method used to determine the individual budget is as follows. Needs of the individual are identified in the Support Plan. The individual along with the planning team determines how the needs can be best met through natural supports, or paid supports and a budget is drafted to meet the individual's needs.

The budget and support plan is reviewed via the UR process. UR considers the budget request in comparison with the level of funding that is approved for other individual with similar needs and either recommends the Regional Office Director approve the budget or approve the budget with changes.

The individual is notified in writing of the approved budget and support plan. The support plan has to be signed by the individual or guardian to be implemented. The notice includes appeal rights should an individual disagree with the support plan and budget.

The written notice includes information on the individual's right to a fair hearing and offers help with the appeal process. They may first appeal to the Regional Director. If they are dissatisfied, they have appeal rights through both the DMH and DSS. While individuals are encouraged to begin with the DMH's hearing system, they may skip this hearing process and go directly to the DSS, MO HealthNet Division (Single State Medicaid Agency) hearing system.

Individual/guardians or designated representatives may request changes to budgets as needs change. For example, they may authorize more services be provided in one month and less in another month. Or, if needs increase, they may request additional services. When additional services are requested, the budget must be approved through the UR process. If an increase in services are needed immediately, an immediate increase can be approved out of the annual budget by the individual or their representative. The team must then meet to determine if an increase in the annual budget is necessary.

All Regional Offices administer the UR process according to state regulation.

Individual/guardians or designated representatives served by the Division of DD and providers are provided information on the UR process.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (5 of 6)

b. Participant - Budget Authority

iv. Participant Exercise of Budget Flexibility. *Select one:*

- ☒ **Modifications to the participant directed budget must be preceded by a change in the service plan.**
- ☐ **The participant has the authority to modify the services included in the participant directed budget without prior approval.**

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

- v. Expenditure Safeguards.** Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be

associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:

Services are prior authorized on a yearly basis based on the needs and history of the individual. Individuals/guardians and designated representatives are informed of the amount of service that may be provided within that authorized period.

During the course of service implementation the individual, or if applicable, the designated representative provides a monthly services summary to the support coordinator.

The support coordinator during service monitoring, on at least a quarterly basis and more frequently as needed, is responsible to ensure that services are being delivered as they are authorized. If services are being underutilized, the support coordinator will seek to determine the reason for under utilization and will ensure the individual's health and safety are not at risk. The support coordinator is responsible for ensuring the individual has the necessary support to recruit, schedule and supervise employees and will assist the individual in accessing help as needed. A support broker assessment used to determine what supports are needed.

If an individual is at risk of exceeding the budget authorizations, the support coordinator will counsel the individual and document within the monitoring system. The Regional Office self-directed support coordinator will help create an improvement plan if needed. Also as part of the services approval process, the VF/EA FMS has a system that tracks real time service utilization for each individual. This is to ensure that only services authorized are billed.

The VF/EA FMS has safeguards and notification built in their system with alerts to the support coordinator and self-directed coordinator if an individual goes over authorizations. The VF/EA FMS posts real-time self-directed services allocations and usage on a secure, password protected website for the benefit of individuals who are self-directing so they can keep track of budget utilization to date and amounts remaining in their allocation. This can be viewed by the individual, designated representative, support coordinator and regional office designees. For individuals who self-direct services and utilize paper timesheets for their staff, the VF/EA FMS send out a monthly spending summary. If it is determined that the individual is at risk of exhausting budget allocation a support broker can be added to provide information and assistance to help the individual better manage the day to day activities of self-directing. If the issue cannot be resolved, the team may need to discuss termination of self-directed supports and transitioning to traditional agency provider supports.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The state provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The state provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Medicaid rights of due process are extended to persons who participate in the DD MOCDD Waiver. Support Coordinators provide the division's rights brochure to individuals upon entry to the waiver and at least annually during the person centered planning process. In addition, information is posted on the division's web-site. Individuals have free choice of contracted provider and have the choice of HCBS or institutional services.

When adverse action is necessary such as termination, reduction of services, suspension of services, etc. the Division of DD Regional Office is responsible for notifying the participant in writing at least ten (10) days prior to any action being taken. The service coordinator is copied on the notice. Individuals have the right to appeal anytime adverse decisions are made or actions are taken. Support coordinators provide assistance to individuals in pursuing a fair hearing if requested by the individual. Upon notification of the intent to appeal an adverse action, services are automatically continued until resolution of the appeal. Notification of appeal can be made either verbally or in writing to the DMH and/or DSS, MHD.

While not required to do so, individuals are encouraged to begin with the DMH's appeal process. The individual may, however, appeal to the MHD, before, during and after exhausting the DMH process. However, once the individual begins the appeal process with the DSS, all appeal rights with the DMH end since any decision by the single State Medicaid Agency would supersede a decision by DMH.

If the result of the agency's decision is upheld, the individual may be required to pay for the continued services. If the agency's decision is overturned, the participant is not responsible for the cost of services. Copies of written notices of adverse action and requests for a Fair Hearing are kept in the individual's record maintained by the regional office or TCM entity.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the state operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. *Select one:*

- ☐ **No. This Appendix does not apply**
- ☒ **Yes. The state operates an additional dispute resolution process**

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the state agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

(a) The DMH has an appeal process that can be utilized by individuals. Appeals are directed to the DMH Hearings Administrator in the Office of DMH General Counsel.

The Division of DD also has a UR Process defined in the Missouri Code of State Regulation (9 CSR 45-2.017) that applies to all Regional Offices. The Utilization Process is used to ensure that access to services are fair and consistent statewide, plans reflect individual's needs, levels of services are defined and documented within the outcomes of the plans, and plans meet all requirements. If, through the UR Process the decision of the Regional Office Director results in the denial, reduction, or termination of a specific service then the individual must be informed in writing at least 10 days in advance of the adverse action, must be given the reason for the action, and must be given information regarding his/her rights to appeal the decision of the Regional Office Director.

(b) If an individual is notified by a Regional Office that he/she is ineligible for services or ineligible for continued services he/she may appeal the decision. (See below appeal process) If an individual is eligible for some services but not for a specific service the appeal steps are the same (as below) except that the individual must first appeal to the case management supervisor before appealing to the regional office director. The individual must appeal to the case management supervisor in writing or orally within 30 calendar days after being notified that they are ineligible for the specific service.

Appeal Process: The individual must appeal to the Regional Office Director within 30 calendar days after receipt of written notice of their ineligibility. The individual will receive the Regional Office Director's decision on the appeal within 10 working days after the request for appeal is received. If the individual does not agree with the Regional Office Director's decision the individual can, within 30 days after receiving that decision, notify the Regional Office intake or support coordination staff and request that an appeals referee hear the case. The individual will receive written notice that the Regional Office received their request for an appeal hearing. The appeals referee then notifies the individual in writing with the date, time, and location of the hearing. The notice is given to the individual at least 30 calendar days before the hearing and no more than 60 calendar days after the individual first requested the hearing.

An individual may receive documents that relate to his/her appeal without charge. The documents shall be furnished to the individual within five (5) working days after the individual requests the documents. The appeals referee bases his or her decision only on information presented at the hearing. The Regional Office Director must convince the referee that the Regional Office's denial of services was correct.

During the hearing the individual, the individual's representative, or the Regional Office Director may speak, present witnesses, submit additional information relating to the appeal, and question witnesses. The referee records the hearing and the tape is kept for one (1) year after the hearing and is available for review by the individual or their representative. Within 30 calendar days after the hearing the individual receives written notice of the referee's decision.

If the individual disagrees with the referee's decision he or she may request that the decision be reversed or changed or appealed to the Director of the DMH. Within 30 days of the decision, the referee may reverse or change the initial appeal decision at the request of the individual, the individual's representative, or the Regional Office Director.

If the individual appeals to the department director, the individual, the individual's representative, or the Regional Office Director may present new evidence or comment on and object to the hearing decision within ten (10) working days of the individual's notice of appeal. The department director considers evidence contained on the tape recording of the appeals hearing and considers other evidence presented. Within 20 working days after receiving notice of an individual's intent to appeal the department notifies the individual and the Regional Office Director of the department director's decision. That notice is the final decision of the DMH.

If the individual disagrees with the decision of the director of the DMH he or she may appeal to the Circuit Court, according to Chapter 536 of the Revised Statutes of Missouri (RSMo).

(c.) Individuals can at any point in the DMH appeal process appeal to the DSS, MHD. However, once an appeal is filed with the DSS, all appeal rights with DMH cease since DSS is the single State Medicaid Agency and any decision through that agency would supersede a decision made by the DMH. Participants and/or responsible parties are informed this dispute resolution mechanism is not a pre-requisite or substitute for a fair hearing.

a. Operation of Grievance/Complaint System. *Select one:*

- ☐ No. This Appendix does not apply
- ☒ Yes. The state operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver

b. Operational Responsibility. Specify the state agency that is responsible for the operation of the grievance/complaint system:

Missouri Department of Mental Health.

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The Office of Constituent Services (OCS) was created in 1997 to serve as an advocate for individuals who receive services from the DMH and their families. The office provides support to individuals and family members who have DD, substance abuse problems, and mental illnesses. The main goals of the office are to ensure individuals' rights are not being violated; to review reports of abuse or neglect; and to provide useful information to individuals and family members about mental health issues.

(a) Individuals and family members may contact the OCS office about suspected abuse, neglect, violation of rights, or concerns regarding mental health facilities or community contracted providers by calling the toll-free number, completing and mailing a complaint form, sending an email to OCS, or writing to the DMH, OCS. Individuals are informed that the DMH complaint resolution mechanism is not a prerequisite or substitute for a fair hearing through the Medicaid Agency.

(b) & (c) When a complaint is received in the OCS the staff notifies the Division of DD's QE Leadership team as soon as the complaint is processed. All complaints received by the OCS are emailed/copied to the Division of DD QE Leadership team. The OCS includes the Event Report number on all correspondence for tracking purposes and includes the Event Report number in the subject box of the email.

Before the Division of DD is notified of a complaint the OCS checks the Division of DD Information System to verify the consumer or service is associated with the Division of DD before forwarding the complaint to the Division of DD.

(1) OCS e-mails information regarding the complaint within 1 working day to the designated DD facility.

(2) The DD Facility Director or designee determines if: (i) An Abuse/Neglect investigation is warranted, or (ii) An inquiry is warranted. (An inquiry is initiated when there is a complaint or suspicion of abuse, neglect, misuse of funds or property. (iii) All follow-up information regarding the complaint is forwarded within 10 working days to the local QE member with information that includes who was contacted, any follow-up that was, or is being done. This information is sent to the local QE member, who reviews the information for completeness. If the local QE member has questions, the response is returned to the DD Facility for clarification. Once the issues are adequately addressed, the complaint is forwarded to the Division of DD Consumer Safety Coordinator, who then reviews follow-up and resolves in the Event Management Tracking (EMT) System. (iv) If the person is not a DMH consumer or DMH does not have investigative authority and abuse or neglect is suspected, the DD Facility informs the OCS who then notifies the Family Support Division (FSD) if the individual is younger than 18 or the DHSS if the individual is 18 or older. The complaint is considered resolved upon referral to the appropriate investigative authority. (v) A complaint is not considered valid, if there is no apparent violation of a DMH standard, contract provision, rule or statute, or there is no valid concern that a practice or service is below customary business or medical practice. If the complaint is not valid it is considered closed upon receipt of the response.

(3) A complaint is resolved when: a) all follow-up action is entered into the EMT system; b) the issues in the complaint are addressed by the facility; c) the reason the complaint is not a valid concern is documented.

The division's complaint resolution procedure is that within 10 business days, personnel designated by each DD facility will complete follow up to each complaint requiring a response to resolve with DMH OCS.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the state operates Critical Event or Incident Reporting and Management Process that enables the state to collect information on sentinel events occurring in the waiver program. *Select one:*

☒ **Yes. The state operates a Critical Event or Incident Reporting and Management Process** (*complete Items b through e*)

☐ **No. This Appendix does not apply** (*do not complete Items b through e*)

If the state does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the state uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the state requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

System:

The state has a system for reporting and investigation of critical events or incidents. The system for identifying, reporting, and investigating critical events and incidents is outlined in the Code of State Regulations, the DMH Operating Regulations and Division of DD Directives.

Entities Required to Report:

Division Directive 4.070 & State Operated Program Waiver Policy requires DMH-DD Staff, contracted TCM entities & Contracted Provider Staff are to report the following events:

1. All events where there is a report, allegation or suspicion that an individual has been subjected to Misuse of Consumer Funds/Property, Neglect, Physical Abuse, Sexual Abuse or Verbal Abuse. (9 CSR 10-5.200, DOR 2.205, DOR 2.210)
2. All
 - a. Emergency room visits,
 - b. Non-scheduled hospitalizations,
 - c. Deaths of individuals served by DD,
 - d. Med Errors which reach an individual,
 - e. Incidents of Falls, The apparent (witnessed, not witnessed or reported) unintentional sudden loss from a normative position for the engaged activity to the ground, floor or object which has not been forcibly instigated by another person.
 - f. Uses of Emergency Procedures with an individual.

Emergency Procedures- any restraint/time out used by DMH staff or contracted staff to restrict an individuals' freedom of movement, physical activity, or normal access while in DMH services. If any of the following restraint types or time out occurs as defined they must be reported on an EMT form.

 - Chemical Restraint- a medication used to control behavior or to restrict the individual's freedom of movement and is not a standard treatment for the individual's medical or psychiatric condition. A chemical restraint would put an individual to sleep or render them unable to function as a result of the medication. (A pre-med for a dental or medical procedure would not be reported as a chemical restraint.)
 - Manual Restraint- any physical hold involving a restriction of an individual's voluntary movement. Physically assisting someone who is unsteady, blocking to prevent injury, etc. is not considered a manual restraint.
 - Mechanical Restraints- any device, instrument or physical object used to confine or otherwise limit an individual's freedom of movement that he/she cannot easily remove. (The definition does not include the following: Medical protective equipment, Physical equipment or orthopedic appliances, surgical dressings or bandages, or supportive body bands or other restraints necessary for medical treatment, routine physical examinations, or medical tests; Devices used to support functional body position or proper balance, or to prevent a person from falling out of bed, falling out of a wheelchair; or Equipment used for safety during transportation, such as seatbelts or wheelchair tie-downs; Mechanical supports, supportive devices used in normative situations to achieve proper body position and balance; these are not restraints.)
 - Time Out- The involuntary confinement of a consumer alone in a room or an area from which the consumer is physically prevented from having contact with others or leaving .
3. All events where there is Law Enforcement involvement when the consumer is either the victim, alleged perpetrator, or law enforcement is called in support in the event.
4. All events of fire, theft, or natural disaster resulting in disruption of DMH-DD service to consumer/s.
5. All events where there is sexual conduct involving an individual and it is alleged, suspected or reported that one of the parties is not a consenting participant.
6. All events involving a consumer when there is a realistic threat or physical action of serious self-harm or assault of others.
7. All events where the consumer ingests a non-food item. Non-food item-an item that is not food, water, medication or other commonly ingestible items.
8. All events that result in a need for an individual to receive lifesaving intervention or medical/psychiatric emergency intervention.

In addition to the above list State Operated Programs (SOP)/Regional Office staff is required to report the following:

9. All events that involve Employee Misconduct as outlined in DOR 2.220

10. All events that involve a DMH staff with serious injuries as defined by DOR 4.270. Serious injury an injury that results in the hospital admission of the injured person.

The state defines abuse and neglect as: (9 CSR 10-5.200, DOR 2.205, DOR 2.210):

Neglect- Failure of an employee to provide reasonable or necessary services to maintain the physical and mental health of any consumer when that failure presents either imminent danger to the health, safety or welfare of a consumer, or a substantial probability that death or physical injury would result.

Misuse of funds/property- The misappropriation or conversion for any purpose of a consumer's funds or property by an employee or employees with or without the consent of the consumer or the purchase of property or services from a consumer in which the purchase price substantially varies from the market value.

Physical abuse- An employee purposefully beating, striking, wounding or injuring any consumer; in any manner whatsoever, an employee mistreating or maltreating a consumer in a brutal or inhumane manner; or an employee handling a consumer with any more force than is reasonable for a consumer's proper control, treatment or management.

Verbal abuse- an employee making a threat of physical violence to a consumer, when such threats are made directly to a consumer or about a consumer in the presence of a consumer.

Sexual abuse: Any touching, directly or through clothing, of a consumer by an employee for sexual purpose or in a sexual manner. This includes, but is not limited to: 1. Kissing; 2. Touching of the genitals, buttocks, or breasts; 3. Causing a consumer to touch the employee for sexual purposes; 4. Promoting or observing for sexual purpose any activity or performance involving consumers including any play, motion picture, photography, dance, or other visual or written representation; 5. Failing to intervene or attempting to stop inappropriate sexual activity or performance between consumers; and/or 6. Encouraging inappropriate sexual activity or performance between consumers.

u

The State defines critical incidents as (DOR 4.270):

Critical events that are required to be reported are;

- (A) Death of a consumer suspected to be other than natural causes;
- (B) Serious injury to a consumer;
- (C) Death or serious injury to a visitor at department state operated facilities;
- (D) Death or serious injury to a department employee or volunteer while on duty;
- (E) Incidents of abuse/neglect, including abuse/neglect involving death, serious injury and sexual abuse;
- (F) Suicide attempt resulting in an injury requiring medical intervention (greater than minor first aid);
- (G) Elopement with law enforcement contacted or involved;
- (H) Criminal activity reported to law enforcement involving consumer as perpetrator or victim when the activity occurs at a facility. If not at a facility, then the criminal activity is serious (felony, etc.);
- (I) Fire, theft, or natural disaster resulting in extensive property damage, loss or disruption of service and;
- (J) Any significant incident the facility head, district administrator, provider administration or designee decides needs to be reported.

Method of Reporting & Timelines for Reporting:

- Required reporters immediately notify the Department with a written or verbal report of all required events of death, abuse, neglect or misuse of consumer funds/property or critical events. If a verbal report either by phone or in person is given, the contracted provider must send a completed event report form to the Department or directly enter the event into the EMT system by the end of the next business day from the date the event occurred or was discovered.
- All other events (not death, A/N or critical) meeting the reporting criteria must be reported by submission of an event report form or direct entry into EMT by the end of the next business day from the date the event occurred or was

discovered.

- The Code of State Regulations (9 CSR 10-5.200) requires that any director, supervisor or employee of any residential facility, day program or specialized service, that is licensed, certified or funded by the DMH immediately file a written complaint if that person has reasonable cause to believe that a consumer has been subjected to abuse or neglect while under the care of a residential facility, day program or specialized service.
- For all Department employees, complaints of abuse, neglect, or misuse funds/property shall be reported and investigated as set out in Department Operating Regulation 2.205 and 2.210. These reports shall be entered into the EMT System database within 24 hours or by the end of the next working day after the incident occurred, was discovered, or the notification was received.

Processing of reports:

All reports of events are processed through the Regional Office/State Operated Waiver Provider. The Regional Office/State Operated Waiver Provider assures proper notification of Law Enforcement (when required), DHSS (when required) and Children's Division (when required). If a report of suspected abuse and neglect is received, the Regional Office/State Operated Waiver Provider designated employee is also responsible for notifying the complainant and parent/guardian.

- The Regional Office/ State Operated Waiver Provider requests an investigation through the DMH centralized Investigations Unit for all allegations meeting reasonable cause threshold of: Physical Abuse, Verbal Abuse, Neglect, Misuse of Consumer Funds/Property, and Sexual Abuse.
- In the case of a death the DMH notifies the Executive Director of Missouri Protection & Advocacy Services via e-mail of all consumer deaths that involve any or all of the following:
 - a. Death resulting from a consumer being restrained and/or secluded;
 - b. Death resulting from suicide;
 - c. Death deemed suspicious for abuse or neglect;
 - d. Any unexpected death; or
 - e. Death with unusual circumstances.

Information provided to Missouri Protection & Advocacy Services via e-mail to the Executive Director includes:

- a. Consumer's name;
- b. Consumer's guardian, if one is appointed;
- c. Contact information for guardian;
- d. Consumer's Social Security Number;
- e. Consumer's date of birth;
- f. Consumer's date of death

Regional Office/ State Operated Waiver Provider Directors, or designated staff, are required to report such deaths to their Division Directors (for community deaths) or the Director of Facility Operations (state operated) within 24 hours of notification of death.

- c. Participant Training and Education.** Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

Training and information:

- o Support Coordinators annually provide training and education by reviewing a reference guide with to help individuals and families understand their rights. The reference guide specifies rights consumers receiving services through the Division of DD have under Missouri state law (Sec. 630.15, RSMo.) The brochure also informs consumers and their parents or guardians, they can contact the DMH OCS if they think they are being abused, neglected, or have had rights violated. Contact information includes e-mail address, a toll-free phone number and a toll phone number, fax number, and mailing address. Support Coordinators also obtain annually a signed Client's Rights Receipt to demonstrate rights information was provided to the consumer or legal guardian.

- o The Missouri DMH has a web site <https://dmh.mo.gov/> which provides consumers and families a link to the OCS where information about consumer rights, detecting and reporting abuse & neglect, the abuse/neglect definitions, and the Reporting and Investigation process which includes contact information. The DMH Client Rights brochure and other information regarding consumer rights and abuse/neglect is posted on this web site at <https://dmh.mo.gov/constituent-services>. The site also has a consumer safety video at this site which discusses abuse and neglect and the reporting and investigation process, as well as the brochure Keeping Mental Health Services Safe which is a written version of the video.

- o The brochure on Individual Rights of Persons Receiving Services from DD is located at <https://dmh.mo.gov/media/pdf/individual-rights-persons-receiving-services-division-developmental-disabilities>.

Who is responsible:

- o Assigned Division of DD or TCM entity Support Coordinators as discussed above.
- o The Division of DD Consolidated Contract requires that each provider gives participants the name, address, and phone number to the DMH OCS. Each consumer is informed that they have the right to contact this office with any complaints of abuse, neglect, or violation of rights.

Frequency of training:

- o Annually with each consumer.

d. Responsibility for Review of and Response to Critical Events or Incidents. Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

Entities Receiving Reports:

Each Regional Office/ State Operated Waiver Provider facility receives all written event report forms.

Report evaluation:

Reports are individually evaluated against set criteria for referral to the appropriate entity. Designated DD staff make decisions of follow up based on information provided at the time of the event notification and then review all written event reports within one business day of entry into the EMT system to determine if additional action is required by the division.

The criteria for referral is as follows:

All of abuse and neglect, and misuse of funds which meet the criteria for reasonable causes are submitted to the DMH Central Investigations Unit for investigation.

If the provider reporting a critical event is responsible for oversight/safety of the consumer, action must be taken to assure the welfare of the consumer. The Regional Office/ State Operated Waiver Provider facility may intervene by placing monitoring processes and staff at the program site, moving individuals from a home and/or terminating contract when appropriate.

If there is an allegation of abuse or neglect and the alleged victim is a resident or client of a facility licensed by the DHSS or receiving services from an entity under contract with DHSS then phone referral is made DHSS,

- o If there is an allegation of abuse or neglect and the alleged victim is under 18 years of age a phone referral is made to Missouri DSS/Children's Division

- o If there is alleged or suspected sexual abuse; or abuse and neglect that results in physical injury, or abuse/neglect or misuse of funds/property which may result in criminal charge this is reported to local law enforcement.

- o Missouri Protection and Advocacy is notified by e-mail of all consumer deaths that involve any or all of the following;

- Death resulting from a consumer being restrained and /or secluded
- Death resulting from suicide
- Death deemed suspicious for abuse or neglect
- Any unexpected death; or
- Death with unusual circumstance.

Entity responsible for conducting investigations & timeframes:

Upon receipt of a report from the head of the Regional Office/ State Operated Waiver Provider facility Director, or designee, the Central Investigations Unit assigns an investigator immediately. The assigned investigator initiates contact with the provider to arrange for securing evidence and such other activities as may be necessary.

A final report of the findings is sent to the Regional Office/ State Operated Waiver Provider facility within 30 working days. Upon receipt of the final report the Regional Office/ State Operated Waiver Provider Director has 20 calendar days to make a preliminary determination. If the preliminary determination substantiates abuse or neglect the alleged perpetrator is notified by certified mail. The contracted provider is also notified in writing and required to take appropriate action pertaining to the staff receiving the substantiation. The Regional Office/ State Operated Waiver Provider may request, if not already addressed, additional action to minimize the reoccurrence of a similar event. Further details including the appeals process are described in 9 CSR 10-5.200, Department Operating Regulation 2.210 and 2.205.

Informing Consumer/Guardian:

The Regional Office/ State Operated Waiver Provider notifies the consumer/guardian and follows up by mail within 10 working days from receipt of an allegation if an investigation has been initiated. Immediately after an investigation is completed and after the effective date of any disciplinary action, the Regional Office/ State Operated Waiver Provider provides written notification to the consumer/guardian of the findings of the investigation, a summary of the facts and circumstances and actions taken, except that the names of any employees or other consumers shall not be revealed.

- e. Responsibility for Oversight of Critical Incidents and Events.** Identify the state agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

Entity for overseeing incident management system:

The Missouri DMH, Division of DD is responsible for the oversight of the state's event management system which currently includes one database: EMT system. All critical incidents as defined in G 1-a, event responses, investigation findings and timelines, are input and monitored through the EMT system.

Process of communication:

Regional Office/ State Operated Waiver Provider and Support Coordinators are notified of events, including actions taken to protect the health, safety, and rights of the participants and to prevent reoccurrence.

Data collection:

- o Designated DD QE Staff analyze aggregate reports of incidents from the EMT database at least quarterly, identifying trends and patterns. These identified trends are incorporated into provider Quality Management Plans, plans of action, and/or the participant's plan of care as indicated.

- o Event data is reported in related performance measures to the Medicaid Agency quarterly.

- o When there are consistent repetitive concerns or lack of progress on plans, the stakeholders of the provider are notified including the MHD (state Medicaid agency), DMH L&C, or the accrediting body (CARF or The Council on Quality and Leadership.)

- o The Division of DD QE Leadership Team prepares a statewide report which includes quality assurance and improvement recommendations to prevent reoccurrence of patterns, trends and systemic issues. Findings and recommendations are submitted to the Division Director of DD.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

a. Use of Restraints. *(Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)*

☐ **The state does not permit or prohibits the use of restraints**

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

☒ **The use of restraints is permitted during the course of the delivery of waiver services.** Complete Items G-2-a-i and G-2-a-ii.

i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the state has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Mechanical restraints are not allowed in community settings. Physical restraint and chemical restraint may be permitted. Physical restraint is any manual hold of one person by another which restricts voluntary movement. Physical restraint does not include physically guiding a person during activities such as skill training.

Chemical restraint is defined in section 630.005, RSMO, and these medications are only administered with the primary intent of restraining a patient who presents a likelihood of serious physical injury to himself or others, not prescribed to treat a person's medical condition. The administration of medication for chemical restraint must be ordered by a physician and the order must include specific instructions for when it may be used. All administration of medication for chemical restraint must be documented in the participant's record. Chemical restraint is administered only in an emergency situation where all other less restrictive interventions are tried first and found ineffective; there are clear indications of imminent harm to the individual or others; and is included in the person's safety crisis plan. If it is used, the consumer cannot be left alone after administration and the effects must be monitored and documented, including intended and unintended effects, side effects, breathing, consciousness, and allergic or other adverse reactions.

Physical restraint techniques are limited to those that have been approved by the Division and determined unlikely to cause undue physical discomfort, pain or injury to an individual and included in the individual's safety crisis plan. Requests for use of crisis management systems other than Mandt or Non-Violent Crisis Intervention/Crisis Prevention (NCI/CPI) must be made to the Chief Behavior Analyst of the division in writing.

In addition to those general concepts, staff is also required to have knowledge of the individual's personal plan which may include additional specific techniques to employ with the individual to avoid situations escalating to physical restraint use. During the use of physical restraint, staff must monitor for intended and unintended effects, including any adverse reactions, the individual's breathing, consciousness, position of limbs.

Physical restraint is used only in an emergency situation where all other less restrictive interventions are tried first and found ineffective; there are clear indications of imminent harm to the individual or others; and is included in the person's safety crisis plan.

There are prohibited restraint techniques that include physical restraint that interferes with breathing; any technique in which a pillow, blanket or other item is used to cover the face; prone restraint; restraints which involve staff lying or sitting on top of a person; and those that use hyperextension of joints.

The Division of DD supports the use of Positive Behavior Supports concepts. Staff is required to have an introduction to the concepts upon hire and, again, knowledge of the individual's personal plan which, if indicated for the individual, would include the positive supports to be implemented. Positive Behavior Supports are also designed to mitigate the use of restraint. The service contract for providers specifies that training of MANDT, CPI, or other approved system prior to utilization of the techniques is required. The training required for MANDT, CPI, and other systems is competency based.

The Division of DD has policies governing the use of restraint, and requires documentation of all uses of restraint. In addition, each contracted provider is required to have a policy for its organization around restraint. During Certification surveys, these policies are reviewed for content and compliance with state requirements. In addition, providers who are accredited by a nationally-recognized body must meet the standards outlined by that accrediting body, including any related to the use of restraint. Accredited providers are required to submit their current accreditation report and thus the Division is informed of conformance to those standards.

The division utilizes an EMT system to track reportable events in accordance with state regulation 9 CSR 10-5.206 & Division Directive 4.070. An EMT Event Report form is completed by the person(s) involved in the physical and/or chemical restraint and these are sent to the Regional Office/ State Operated Waiver Provider for entry into the EMT system. Reporting is governed by Missouri administrative rules, known as Code of State Regulations (CSR). The Regional Office/ State Operated Waiver Provider reviews the event report where they may identify an unauthorized use of restraints. The support coordinator could also discover an

unauthorized restraint was used through review of the event summary or Service Monitoring (i.e. in conversation with the individual/staff, review of progress notes, etc.) A support coordinator could determine that the restraint is unauthorized if it is not implemented as outlined in the individual's safety/crisis plan or it is a restraint that is not approved by the Division.

Data is aggregated by region, by provider and by individual, analyzed and reported quarterly to further identify patterns and trends of use, both for consumer and for provider. Data is reported in related performance measures to the Medicaid Agency quarterly.

When a restraint is reported to the Regional Office/ State Operated Waiver Provider a designated staff reviews that event to determine if the restraint was a prohibited procedure or if more force than necessary was used in the restraint procedure. If the restraint is determined to be necessary to support the individual, it must be reviewed by the Regional Office/ State Operated Waiver Provider Due Process Committee.

- ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for overseeing the use of restraints and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

The State agency is responsible for overseeing the use of restraints and ensuring that state safeguards concerning their use are followed. Division Directive states the event report must be entered into the EMT system by the end of the next business day from the date the event occurred or was discovered.

State and regional QE Unit staff and division behavior analysts aggregate event (EMT) data quarterly to further identify patterns and trends. Division behavior analysts conduct further analysis if trends or patterns of overuse, unauthorized use and/or ineffective use are noted.

Every two years a review by L&C staff of personnel records is completed as a component of the certification process to assure all staff have received the needed training regarding the individual plan, the basic concepts of Positive Behavior Support, and an approved physical crisis management system such as MANDT or CPI, if restraint is used for the individuals supported by the provider. The L&C staff also reviews policies and procedures for compliance with state requirements.

Providers who are placed on conditional certification status are reported to MHD as it occurs. Any contract termination is reported to MHD as it occurs.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. Use of Restrictive Interventions. (*Select one*):

- ☐ The state does not permit or prohibits the use of restrictive interventions

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

- ☒ The use of restrictive interventions is permitted during the course of the delivery of waiver services Complete Items G-2-b-i and G-2-b-ii.

- i. Safeguards Concerning the Use of Restrictive Interventions.** Specify the safeguards that the state has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including

restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

Restrictive interventions may be utilized when a need for such a procedure is identified and described in an individual's ISP or BSP that is a specialized part of the individual's support plan written by a licensed behavioral provider. Relevant needs are situations in which the individual has frequently engaged in harmful behaviors and less restrictive procedures have not been successful, or as part of a legal arrangement such as when a person with sexual charges has been required to avoid certain public areas.

Through requirements of the waiver service definitions and provider contracts staff are required to be trained on the individual's ISP, BSP, and crisis/safety plan prior to implementing any individual restrictive interventions. Any staff utilizing restrictive interventions involving physical holds is required to be trained and competency-tested in MANDT or CPI or other Division-approved physical crisis management system.

Any limitations or interventions imposed with regard to the restriction of participant movement, participant access to others, locations or activities, and restriction of participant rights must be reviewed by DD State Responsible Oversight Organization or the approved Due Process Review Committee and documented in the individual's plan.

The state does not allow the use of:

Physical restraint techniques that interfere with breathing; or any strategy in which a pillow, blanket, or other item is used to cover the individual's face as part of a reactive strategy;

- Prone restraints (on stomach), restraints positioning the person on their back supine, or restraint against a wall or object;
- Restraints which involve staff lying/sitting on top of a person;
- Restraints that use the hyperextension of joints;
- Any technique which has not been approved by the Division, or for which the person implementing has not received Division-approved training;

Any reactive strategy that may exacerbate a known medical or physical condition, or endanger the individual's life, or is otherwise contraindicated for the individual by medical or professional evaluation;

- Containment without continuous monitoring and documentation of vital signs and status with respect to release criteria;
- Use of any reactive strategy on a "PRN" i.e., "as required" basis. Identification of safe procedures for use during a crisis in an individual's safety crisis plan shall not be considered approval for a restraint procedure on an as-needed basis;
- Aversive stimuli;
- Any procedure used as punishment, for staff convenience, or as a substitute for engagement, active treatment or behavior support services;
- Inclusion of a reactive strategy as part of a behavior support plan for the reduction or elimination of a behavior;
- Reactive strategy techniques administered by other persons who are being supported by the agency;
- Corporal punishment or use of aversive conditioning such as, but not limited to applying painful stimuli as a penalty for certain behavior, or as a behavior modification technique;
- Overcorrection by requiring the performance of repetitive behavior. Examples include, but are not limited to: Contingent exercise, writing sentences, over-cleaning an area, repeatedly walking down a hallway after running;
- Placing persons in totally enclosed cribs or barred enclosures other than crib; and
- Any treatment, procedure, technique or process prohibited by federal or state laws.

Less restrictive techniques, such as de-escalation, discussion, re-direction, for example, must be attempted before implementing any restrictions. Missouri State Statute outlines consumer rights and communication of any restrictions of those rights. If necessary for the individual's habilitation or therapeutic care, visitors, phone calls, clothing choices, carrying money on their person, television programming or reading materials and outdoor recreation may be restricted. The participant and guardian must be included and informed; and the criteria for removing any restrictions and timelines for reviewing must be documented in the individual's plan. For each episode in which restrictive interventions as outlined in the plan are implemented the following must be documented in the daily observation note: the circumstances and the situation, the less restrictive measures that were attempted, and the implementation of the restrictive intervention. Any restrictions are required to be reviewed by Regional Office/ State Operated Waiver Provider or authorized Due Process Review Committee.

The Regional Behavior Support Review Committee will approve or deny restrictive procedures that are presented to the committee. The Behavior Support Review Committee will review the ISP and BSP to determine that least restrictive practices are being followed to ensure best behavior support practice. The review process includes teaching practices to develop alternative skills, fading of restrictive supports, and review of data toward progress to work toward elimination of the restriction. Additionally, the ISP and BSP must be reviewed by an approved Due Process committee in the region to evaluate that due process has been afforded the individual, the guardian or individual must consent to the use of the restrictive intervention, there must be an identified strategy for elimination of the restrictions and regular review of the progress towards this. This review would occur prior to utilizing the restrictive interventions and at least annually thereafter at the time of the annual plan development.

Any participant who has a grievance regarding their rights or a complaint may contact the DMH, OCS through the toll-free telephone line, through a dedicated e-mail address or by letter.

Any of the Division's quality management functions may identify unauthorized use of restrictive interventions.

The use of restrictive procedures that have not been identified in the ISP or BSP and have not been evaluated in the Due Process committee might be identified through the Support Coordination monitoring process, L&C survey process, the incident report review process in a regional office or through reporting by the individual, guardian, or other person.

- ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

Any of the Division's quality management functions may identify unauthorized use, overuse of inappropriate use of restrictive interventions.

The use of restrictive procedures that have not been identified in the ISP or BSP and have not been evaluated in the Due Process committee might be identified through the Support Coordination monitoring process, L&C survey process, the incident report review process in a regional office or through reporting by the individual, guardian, or other person.

The operating agency is responsible for the oversight of the state's DMH event management system EMT. All reported events are entered into the DMH Event management tracking system in EMT.

Support coordinators shall have the data from the event report for personal planning purposes. Information surrounding individual issues such as restrictive procedures are reviewed and discussed by the interdisciplinary team to ensure that safeguards for the individual are followed and that due process has occurred. The TCM TACs conduct the oversight to ensure the safeguards are occurring.

Support coordinators conduct quarterly reviews of the support plan.

The State agency is responsible for overseeing the use of restrictive interventions and ensuring that state safeguards concerning their use are followed.

State and regional QE Unit staff and division behavior analysts aggregate event (EMT) data quarterly to further identify patterns and trends. Division behavior analysts conduct further analysis if trends or patterns of overuse, unauthorized use and/or ineffective use are noted.

Data reported related to restricted procedures is aggregated specific to the participant. The data, upon aggregation, is analyzed and discussed by the interdisciplinary team to ensure that safeguards for the individual are followed and any necessary strategies are implemented to prevent re-occurrence.

Any participant who has a grievance regarding their rights or a complaint may contact the DMH, OCS through the toll-free telephone line, through a dedicated e-mail address or by letter.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

c. Use of Seclusion. *(Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)*

☒ **The state does not permit or prohibits the use of seclusion**

Specify the state agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

Reporting is governed by Missouri administrative rules, known as CSR. The Regional Office/ State Operated Waiver Providers reviews the event report and may identify the use of an unauthorized use of seclusion. The support coordinator could also discover an unauthorized use of seclusion through review of the event summary or Service Monitoring (i.e. in conversation with the individual/staff, review of progress notes, etc.) The special review process will be instituted whenever use of seclusion or time out is reported or discovered as outlined in 9 CSR 45-3.090 Behavior Supports.

If use of prohibited or unauthorized procedures are discovered, the following occurs:

(A) Regional Director is notified of the use of prohibited procedures, the agency involved, persons for whom the procedures were utilized, and reasons for use;

(B) Regional Director directs regional staff and Area Behavior Analyst to conduct a focused review of the agency;

(C) If the focused review confirms that prohibited or unauthorized procedures were used, the Regional Office Director will be informed and notify the provider and support coordinator;

(D) Area Behavior Analyst works with planning teams to determine appropriateness of strategies and need for additional services to assist the provider to address the situations positively, proactively and preventatively;

(E) Area Behavior Analyst refers supports of individuals, for whom the prohibited practices have been used, to the RBSRC; and

(F) Follow up reviews of the provider will occur, to ensure that appropriate procedures and supports are utilized and prohibited practices have been discontinued, for a duration determined by the Chief Behavior Analyst.

- ☐ **The use of seclusion is permitted during the course of the delivery of waiver services.** Complete Items G-2-c-i and G-2-c-ii.

i. Safeguards Concerning the Use of Seclusion. Specify the safeguards that the state has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for overseeing the use of seclusion and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (1 of 2)

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. Applicability. Select one:

- ☐ **No. This Appendix is not applicable** (do not complete the remaining items)
- ☒ **Yes. This Appendix applies** (complete the remaining items)

b. Medication Management and Follow-Up

i. Responsibility. Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

The entities that have ongoing responsibility for monitoring participant medication regimens include the prescribing entities, contracted provider for residential services, and the Missouri Division of DD.

The responsibility for monitoring a participants medication regimen incorporates activities at three levels of service delivery.

The monitoring of a participants medication regimen starts with the participant's primary care provider who coordinates and prescribes their care and at least annually should be evaluating all prescribed medication and treatment regimens.

The contracted service provider is required to provide Residential Nursing Oversight service for all recipients of residential services. The contracted service provider is also responsible for reporting medication errors to the Division in accordance with Directive 4.070, Event Reporting Process.

Nursing oversight shall be provided by RNs licensed and in good standing in the state of Missouri.

The Residential RN is responsible to provide oversight of the medication administration program or processes including but not limited to:

- a. Continuous oversight of proper medication storage, handling, and administration procedures and techniques;
- b. Continuous evaluation of all delegated nursing tasks including medication administration;
- c. Monthly monitoring of an individual's medication administration record and physician orders for adherence to their prescribed medication regimen;
- d. Monthly monitoring of the individual's response to their prescribed medication regimen including monitoring of adverse reactions and completion of related lab monitoring.
- e. Monthly review and analysis of event reports for medication errors and injuries; and
- f. Completion of a Monthly Health Summary reflecting the nurse's clinical analysis of the above activities for each consumer.

The Division of DD QE RN's monitor the participants medication regimen through the following activities:

- Monitoring of daily reports containing reportable medication error events. As defined by the Division, medication errors may result in clinical reviews conducted by Division QE RN's for risk mitigation.
 - o Each reported medication of error regardless medication type, if classified as moderate or severe receives a Clinical/QE Review conducted by the DD QE RN. Moderate medication errors are errors which result in treatment and/or interventions in addition to monitoring or observation. Serious classifications are errors which are life threatening and/or have permanent adverse consequences. The state will follow the process of additional inquiry into the event if it is suspected that the staff responsible for making the error did something or failed to do something which put the individual in imminent danger to the health, safety, or welfare of an individual or substantial probability that death or serious physical injury would result. If following the additional inquiry and the findings meet criteria for reasonable cause for suspicion of abuse or neglect, the event will be referred to the DMH investigation unit.
 - o The Clinical/QE Review evaluates contributing factors to the medication error which may result in a Plan of Action to minimize the potential reoccurrence of future medication errors.
- Monitoring medication regimen as part of the Division's QE function for health and safety monitoring for participants in receipt of residential services. This residential participant screening occurs annually, with significant health changes, and when entering placement for the first time.
- Quarterly analysis of medication error data by regional quality units for individual and system improvement strategies which may result in individual, provider, regional plans of action .

The Division monitors on a quarterly basis for use of Psychotropic and Antipsychotic medications. The Division monitors for individuals identified through Medicaid claims billing where individuals are in receipt of 5 or more Psychotropic and/or 2 or more Antipsychotic Medications. Individuals identified as meeting this threshold are tracked in a SharePoint database .

Quarterly the State QE Unit reviews the medication error data to ensure that qualifying individuals received appropriate clinical reviews.

The Division is transitioning their Health Mentoring Process and Screening Instrument from Health Identification & Planning System (HIPS) to the MO Health Risk (HRS) Screening Process. Within the Health Risk Screening tool, the participants medication regimen will be screened for contraindications and will identify any recommended health screenings and monitoring for follow up by the provider's nurse and planning team. The utilization of this process will be fully implemented with all waiver participants by May of 2024.

- ii. Methods of State Oversight and Follow-Up.** Describe: (a) the method(s) that the state uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the state agency (or agencies) that is responsible for follow-up and oversight.

The agency responsible for oversight is the MO DMH /Division of DD (operating agency). The operating agency monitors medication administration through the Division's Quality Functions for discovery, remediation, and quality improvement.

As part of the Division's EMT process, all medication errors that reach the individual are required to be reported to the Regional Office/ State Operated Waiver Provider. A clinical review is completed by a QE RN for all medication errors meeting the division definition of moderate or severe. All clinical review findings and actions are recorded in the EMT system. The clinical review is a form of risk mitigation, reducing risk factors associated with the event.

Medication errors where there is a suspicion of abuse, neglect, and/or misuse of funds meeting the criteria for reasonable cause are submitted to the DMH Central Investigations Unit for investigation.

During monitoring visits, support coordinators are expected to review documentation to assure all prescribed medications are administered, discovered errors are reported, and adequate supplies of medications are available.

The Division monitors on a quarterly basis for use of Psychotropic and Antipsychotic medications. The Division monitors for individuals identified through Medicaid claims billing where individuals are in receipt of 5 or more Psychotropic and/or 2 or more Antipsychotic Medications. Individuals identified as meeting this threshold are tracked in a SharePoint database.

Quarterly the State QE Unit reviews the medication error data for analysis and system improvement strategies which may result in individual, provider, regional or state plans of action.

Each reported medication of error regardless of medication type, if classified as moderate or severe receives a Clinical/QE Review conducted by the DD facility QE RN. Moderate medication errors are errors which result in treatment and/or interventions in addition to monitoring or observation. Serious classifications are errors which are life threatening and/or have permanent adverse consequences. The state will follow the process of additional inquiry into the event if it is suspected that the staff responsible for making the error did something or failed to do something which put the individual in imminent danger to the health, safety, or welfare of an individual or substantial probability that death or serious physical injury would result. If following the additional inquiry and the findings meet criteria for reasonable cause for suspicion of abuse or neglect, the event will be referred to the DMH investigation unit.

The Clinical/QE Review evaluates contributing factors to the medication error which may result in a Plan of Action to minimize the potential reoccurrence of future medication errors.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (2 of 2)

c. Medication Administration by Waiver Providers

i. Provider Administration of Medications. *Select one:*

- ☐ Not applicable. *(do not complete the remaining items)*
- ☒ Waiver providers are responsible for the administration of medications to waiver participants who

cannot self-administer and/or have responsibility to oversee participant self-administration of medications. *(complete the remaining items)*

- ii. State Policy.** Summarize the state policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

In accordance with 9 CSR 45-3.070, staff who administer medication or supervise self-administration of medication to participants must be either a licensed physician; licensed nurse; or must be delegated the task of medication administration and supervised by a licensed medical professional. Persons who administer or supervise self-administration of medication to participants must be certified as a Medication Aide through the DMH or DHSS before being delegated and performing medication administration tasks.

- iii. Medication Error Reporting.** *Select one of the following:*

☒ **Providers that are responsible for medication administration are required to both record and report medication errors to a state agency (or agencies).**

Complete the following three items:

- (a) Specify state agency (or agencies) to which errors are reported:

In addition to appropriate follow up with medical professionals in response to medication errors, providers are responsible for documenting and reporting medication errors to their designated State Division of DD regional office in accordance with Event Reporting regulation 9 CSR 10-5.206. In addition, any action taken should be reported.

Even reports are entered into the statewide EMT data base.

- (b) Specify the types of medication errors that providers are required to *record*:

In accordance with 9 CSR 10-5.206, Report of Events, providers are required to record any of the following medication errors

- Failure to administer;
- Wrong Dose;
- Wrong Medication;
- Wrong Route;
- Wrong Person;
- Wrong Time;

- (c) Specify the types of medication errors that providers must *report* to the state:

In accordance with 9 CSR 10-5.206 Report of Events, providers are required to report medication errors meeting the policy definitions of: In accordance with 9 CSR 10-5.206 Report of Events, providers are required to report any of the following medication error types that reach an individual;

- Failure to administer;
- Wrong Dose;
- Wrong Medication;
- Wrong Route;
- Wrong Person;
- Wrong Time

☐ **Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the state.**

Specify the types of medication errors that providers are required to record:

- iv. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

Oversight is conducted by the operating agency, Division of DD. In accordance with 9 CSR 10-5.206, medication errors are reported to the Regional Office/ State Operated Waiver Provider using the standardized Event Report form. These reports are entered into the statewide event database (EMT) and are tracked for analysis of trends and patterns at the provider, consumer, regional, and state level. Division of DD QE RNs also review medication error event reports to identify patterns or trends for consumers and/or providers. The reports are also reviewed to ensure appropriate safeguard measures were taken.

If medication errors are noted in the records, the support coordinator may investigate further to ensure the errors were properly reported to the state in accordance with 9 CSR 10-5.206 and that all necessary corrective action was taken.

Quarterly the Division of DD's State QE Unit analyzes data to identify trends or patterns that may require additional actions for the provider, the region, or statewide.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Health and Welfare

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:

- a. Sub-assurance:** *The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death.* (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

and % of unexpected deaths meeting criteria for a DD Mortality Review, closed at the Division level with a closed plan of action. (# and % of unexpected deaths meeting

criteria for a DD Mortality Review, closed at the Division level with a closed plan of action/the number of unexpected deaths meeting criteria for a DD Mortality review closed at the Division level with a plan of action identified)

Data Source (Select one):

Mortality reviews

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

When events are discovered in the course of regular DD activities that may meet requirements to be entered into the EMT system, appropriate DD staff are notified and conduct further follow-up. The nature of the concerning event will determine which DD staff is responsible for following-up. If the event is determined to meet reporting requirements, it is entered into the EMT system.

All events entered into the EMT system require an electronic review be conducted by designated DD facility staff. Upon review of events entered into the EMT system individual problems may be discovered. When individual problems are discovered the designated DD facility staff conducting the event review will notify appropriate DD staff who will conduct further review to address the individual problem. The nature of the individual problem will determine what DD staff is responsible for addressing the issue. If further follow up is required, remediation of the individual problem is documented at the facility level and monitored through quarterly reviews at the state division level.

Remediation may be a coordinated effort by DD central office staff, DD facility staff, contracted provider, the person's planning team and other concerned parties which may include law enforcement or other state Departments. The state routinely monitors and evaluates events to ensure all individual problems have been reviewed.

For example, when a prohibited practice is discovered and entered into the EMT system, the Division's Area Behavior Analyst under the supervision of the Chief Behavior Analyst will work with the person impacted and their team to remediate the situation to safely discontinue the prohibited practice.

Any time a person's rights are limited, the planning team must assure that all elements of due process have been afforded, which is then documented in the individual service plan (ISP). For all individuals who have rights limitations documented in their ISP, the Due Process Committee reviews ISP and relevant ancillary documentation to determine if due process has been afforded. When due process has not been afforded, an individual problem is noted and the Due Process Committee notifies appropriate DD staff, the individual person (and guardian, if applicable), and the planning team. The planning team will meet to review and remediate the individual problem. Relevant DD staff will conduct further review to ensure successful remediation. The nature of the individual problem will determine which DD staff is responsible for follow-up.

When there is an unexpected death, the death event will receive a Mortality Review with Provider Agency input and a Regional Office or State Operated Program secondary review. The death event has a further Mortality Review completed by Central Office staff. Unexpected deaths are then referred to the Fatality Review Panel Coordinator to determine the need for Fatality Review Panel review and discussion. Anytime throughout these layers of review that there are identified items that need remediation, the appropriate staff will be designated for follow-up and the remediation may be a coordinated effort by DD Central Office Staff, DD facility staff, contracted provider, the person's planning team, or other concerned parties. Documentation for follow-up will be included in the accompanying death event reporting and/or the Mortality Review, and/or at the provider agency level.

When an individual has met the fall threshold or is the victim of a moderate or serious medication error, the Regional Office Quality Programs nurse completes a Clinical QE Review and documents findings in the event reporting system. The provider agency is responsible for remediation and this is also documented in the event report that aligns with the specific events.

The provider agency oversight RN is responsible for creating the Health Risk Support Plans in the HRST system. The risk mitigation strategies contained in the Health Risk Support Plans are to be implemented by whomever is designated in the plans. The Regional Office Quality Programs nurses are responsible for reviewing the Health Risk Support Plans for the individuals. There are modules in the HRST system that are used to document the review of the Health Risk Support Plans. The plans are housed in the HRST system.

ii. Remediation Data Aggregation

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix H: Quality Improvement Strategy (1 of 3)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the state has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the state specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the state is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I) , a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances; and
- The *remediation* activities followed to correct individual problems identified in the implementation of each of the assurances.

In Appendix H of the application, a state describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the state's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the state plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid state plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the state must be able to stratify information that is related to each approved waiver program. Unless the state has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the state must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 3)

H-1: Systems Improvement

a. System Improvements

- i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

Overview: The Division's quality management strategy includes multiple real-time methods of feedback and information gathering in addition to periodic inspection processes. Individuals (program participants) and community members are in active roles. The system utilizes quality improvement processes such as data analysis, tracking, and trending. Data bases are in place for gathering information and subsequent analysis and trending. In addition to the statewide quality management functions completed by the Division of DD, there are functions completed by the DMH and other state agencies including DSS/MHD, the Medicaid administrative agency. Each quality management function has its own guidelines, designated implementation staff, and process of identification, communication, and remediation. This allows for timely evaluation of information and development of an appropriate action plan for the individual issue(s) identified. Systems improvement efforts are based upon the consolidation and analysis of data from all functions, as well as other information. The following are the identified quality functions performed by the Division of DD.

Participant-Centered Service Planning and Delivery

Division Directive 3.020, Individual Support Plan Monitoring and Review, prescribes monitoring standards for services funded through DMH/DD. This directive describes the frequency of monitoring visits/contacts for services, service areas to be reviewed, documentation, and process for identification, communication, and resolution of issues. Support Coordinators enter all service monitoring findings into the IQMFD Database (formerly APTS).

Provider Capacity and Capabilities

Licensure & Certification

Licensure and Certification (L&C) Missouri Code of State Regulations (9CSR45-5.060) outline the certification process, which includes a biennial review of health, safety, and legal rights deficiencies discovered from L&C are entered into the IQMFD database.

DMH contract process ensures providers are qualified to provide the services they propose to deliver. Providers must keep their credentials current and maintain a current POS waiver contract with DMH in order to continue as an active waiver provider. The DMH contract covers financial responsibility, quality of care, and the provider's obligation to protect the health, safety and human rights of consumers.

Provider Relations Review

Division Guideline #55 prescribes the functions of Provider Relations as it relates to the review of contracted providers with the DMH/DD to ensure consistent application across the state and to develop partnerships that enhance the overall quality of services delivered. Provider Relations staff work with contractors to ensure service delivery is consistent with best practices, State Rules, Medicaid waiver guidelines and DMH contract and policy.

Participant Safeguards

Fiscal Review

The Missouri Medicaid Audit and Compliance Unit (MMAC), established within the Department of Social Services provide oversight, audit and compliance of Missouri Medicaid Program providers and participants. Findings from MMAC are sent to Regional Offices (RO) and are entered into the IQMFD Database.

The Division of DD conducts a purchase of service and individual funds review in accordance with Division Directive 5.070. The purpose of the review is to ensure all benefits and other individuals' funds managed by a RO or contract provider are appropriately utilized to meet the needs, wants and desires of the individual. The review also ensures services authorized under the POS program and funds paid via general revenue to contract providers are provided and paid in accordance with the POS service requirements.

Service Monitoring

Division Directive 3.020 prescribes monitoring standards for services funded through DMH/DD. This directive describes the frequency of monitoring visits/contacts for services, service areas to be reviewed, documentation, and process for identification, communication, and resolution of issues. All service monitoring findings from private TCM agencies are now directly entered into the IQMFD Database.

Event Report Processing

Division Directive 4.070 prescribes criteria and procedures for reporting events affecting consumers in residential facilities, day programs or a specialized service that is licensed, certified, accredited or funded by the Division of DD.

Department Guideline #69 prescribes the procedures for accepting, reviewing and conducting follow up to event reports, which meet criteria for entry into the Division of DD Information System-EMT system as outlined in Division Directive 4.070.

Division of DD Information System Event Management Tracking collects data related to incidents events and medication errors in community services, as outlined in CSR 10-5.200 & 206 & Division Directive 4.070. This system also maintains the data for deaths and investigations for abuse, neglect or misuse of consumer funds.

Regional QE teams, State QE Leadership Team, and DMH Investigations Unit are responsible for managing and

tracking the data in the system.

Division Guideline #68 describes the RO Inquiry Process. The intent of the guideline and policy is to prescribe the structural consistency needed for conducting Division RO inquiries when there is a complaint, suspicion or allegation of Abuse/Neglect/Misuse of Consumer Funds & Property.

Complaint Response Process

Division guideline #75 prescribes the structural consistency needed for receiving, reviewing and responding to complaints (Contacts) received by the DMH Office of Constituent Services (OCS). The purpose of the OCS is to ensure that individual rights are not being violated; to review reports of abuse or neglect; and to provide useful information to constituents and family members about mental health issues. This guideline outlines the DD response process required for follow up action and documentation; ensuring that all issues of the complaint have been addressed by DMH/DD. The DMH/DD Consumer Safety Coordinator and the OCS are responsible for managing, tracking, and trending the data in the Division of DD Information System-EMT.

Mortality Review

Division Directive 3.070 prescribes procedures to be followed for notification and reviewing of deaths of individuals served by DMH/DD.

Quality of Services Review

The Quality of Services Review, as described in Division Guideline #54, prescribes a standardized procedure to ensure the individual has full access to benefits of community living and the opportunity to receive services in the most appropriate integrated setting.

Participant Rights and Responsibilities

Due Process (Human Rights) Committee –9 CSR 45-3.090 Behavior Supports describes the rights of individuals and Division assurances in home and community settings. Directive 4.200 describes the functions and roles of the Due Process (Human Rights) Committee in reviewing and assuring due process has occurred when there is a proposal for any restriction or limitation of a person's rights. All Committee meetings and findings are tracked in a statewide tracking system.

Participant Outcomes and Satisfaction

National Core Indicators (NCI)

DMH/DD continues to participate in the NCI initiative which includes a consumer survey and family surveys. NCI measures system performance and consumer satisfaction and compares this performance with the other participating states and national averages. The findings from surveys are shared with stakeholders and DMH/DD staff. Information obtained from the NCI survey is utilized by the DMH/DD for the development of statewide quality initiatives.

Data for trending, prioritizing, remediating and implementing system improvements is continually collected through the identified quality functions, entered into databases, and analyzed/reported at designated intervals in accordance with Division Directive 4.080. Reports are provided to Division management, regional level management and staff, providers, stakeholders, and the Medicaid agency at designated intervals, dependent upon the specified function and need. The state-wide QE Leadership Team provides the oversight, management and evaluation of the quality improvement processes/strategy for the Division of DD.

Reports are shared with the Quality Advisory Council (QAC), a group of self-advocates and family members or guardians. The QAC represents a cross-section of advocacy groups, family members, consumers and public guardians. The Council reviews a wide variety of information from waiver performance, NCI, all quality integrated functions, current grants and Division initiatives.

The process for trending is grounded in the CMS waiver quality assurances. Data is aggregated and reported state-wide, by individual region, and, at the regional level, by provider and consumer. The state QE Leadership Team tracks and evaluates remediation at the regional or state level for identified trends.

Process for Trending:

Per guideline #79 RO Quarterly Quality Enhancement Plan meeting the community support unit (CSU) analyzes and reports statewide information to senior Division management and regional directors from areas noted in the guideline. These reports include summarizing performance in the identified areas, describing any patterns/trends, and discussing actions needed. These reports aggregate data state-wide and also aggregate by region. If trends are noted to occur within specific regions or with certain contracted providers, the CSU Lead notifies RO QE staff of the concerns to be addressed locally.

Performance measures as outlined in each of the waiver quality assurances are analyzed and reported by state QE staff to the state Medicaid agency (the MHD) quarterly. In addition to the written reports, the DD Federal Programs Unit, DD QE staff and the MHD meet quarterly to review the data reports/trends specific to each waiver and discuss other issues pertinent to the performance measures and the operation of the waivers.

When the Quality Improvement Strategy (QIS) spans more than one waiver information is stratified for each

waiver. The sampling methodology is based upon a representative sample for each waiver and the QIS is reported in Appendix H for each waiver. QIS may span more than one waiver and is dependent upon the quarterly analysis of the data related to each specific performance measure. The majority of the performance measures for the four division operational HCBS waivers (MO.0178, MO.0404, MO.0841 and MO.40185) are consistent in what is being measured to meet a specific assurance and therefore QIS may impact all applicable waivers. There may be instances where a specific QIS is targeted to a particular waiver if performance is at or below 87%. No other long-term care services are addressed in the QIS.

Implementation of system improvements:

When patterns or trends are identified from the data and the reviews mentioned above, further analysis is conducted by the CSU along with stakeholders who are involved in the identified trends. Work groups may then be developed to determine what systems improvement strategies could be developed to impact the areas identified.

Changes in rules, policy, and contracts are drafted and distributed to allow feedback from stakeholders. Once finalized, changes are distributed to Division DD's staff and contracted providers. Discussions are held at local and statewide provider meetings or focus events, as well as statewide coalitions of providers to assure that changes are understood and implementation dates are communicated. Any training required to assist with the implementation of these changes are initially planned and coordinated by process leads and then assumed by RO staff. The implementation of system improvements is analyzed for effectiveness of remediation through periodic reviews, and through ongoing analysis of related data.

ii. System Improvement Activities

Responsible Party (<i>check each that applies</i>):	Frequency of Monitoring and Analysis (<i>check each that applies</i>):
<input checked="" type="checkbox"/> State Medicaid Agency	<input type="checkbox"/> Weekly
<input checked="" type="checkbox"/> Operating Agency	<input type="checkbox"/> Monthly
<input type="checkbox"/> Sub-State Entity	<input checked="" type="checkbox"/> Quarterly
<input type="checkbox"/> Quality Improvement Committee	<input checked="" type="checkbox"/> Annually
<input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%; margin-top: 5px;"></div>	<input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%; margin-top: 5px;"></div>

b. System Design Changes

- i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the state's targeted standards for systems improvement.

Performance measures as outlined in each of the waiver quality assurances are analyzed and reported by state QE staff to the state Medicaid agency (the MHD) quarterly. In addition to the written reports, the DD Federal Programs Unit, DD QE staff and the MHD meet quarterly to review the data reports/trends specific to each waiver and discuss other issues pertinent to the performance measures and the operation of the waivers.

When the Quality Improvement Strategy (QIS) spans more than one waiver information is stratified for each waiver. The sampling methodology is based upon a representative sample for each waiver and the QIS is reported in Appendix H for each waiver. QIS may span more than one waiver and is dependent upon the quarterly analysis of the data related to each specific performance measure. The majority of the performance measures for the four division operational HCBS waivers (MO.0178, MO.0404, MO.0841 and MO.40185) are consistent in what is being measured to meet a specific assurance and therefore QIS may impact all applicable waivers. There may be instances where a specific QIS is targeted to a particular waiver if performance is at or below 87%. No other long-term care services are addressed in the QIS.

Implementation of system improvements:

When patterns or trends are identified from the data and the reviews mentioned above, further analysis is conducted by the CSU Leads along with stakeholders who are involved in the identified trends. Work groups may then be developed to determine what systems improvement strategies could be developed to impact the areas identified. Sometimes this process results in policy/procedure changes, technical assistance with providers or private TCM entities, training with state staff, or it could be in the form of an awareness campaign to bring a more heightened attention to the identified situation.

Changes in rules, policy, and contracts are drafted and distributed to allow feedback from stakeholders. Once finalized, changes are distributed to Division DD's staff and contracted providers. Discussions are held at local and statewide provider meetings or focus events, as well as statewide coalitions of providers to assure that changes are understood and implementation dates are communicated. Any training required to assist with the implementation of these changes are initially planned and coordinated by the applicable CSU and then assumed by regional office staff. The implementation of system improvements is analyzed for effectiveness of remediation through periodic reviews, and through ongoing analysis of related data.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

There are several points at which the QIS is evaluated. As data is reported at the identified intervals, data integrity and fidelity of the review processes are also evaluated. This allows an opportunity to impact design of the quality strategy, discovery processes, remediation effectiveness and methods, and prioritizing for systems improvement.

Each quarter at both the regional and state level, the results of the discovery processes are reported. This is also an opportunity to note changes, trends, and to identify if those trends indicate a need for updating the QIS.

Per Guideline #79 Regional Office Quarterly Quality Enhancement Plan Meeting on a quarterly basis, the QIS is evaluated and summarized in Appendix B-Quarterly Data Analysis report. When changes are needed, objectives are outlined and strategies to meet those objectives are identified and assigned in the Appendix A-Regional Office Quarterly Quality Enhancement Plan. The information is presented to Division of DD management.

Appendix H: Quality Improvement Strategy (3 of 3)

H-2: Use of a Patient Experience of Care/Quality of Life Survey

a. Specify whether the state has deployed a patient experience of care or quality of life survey for its HCBS population in the last 12 months (*Select one*):

- ☐ No
- ☒ Yes (*Complete item H.2b*)

b. Specify the type of survey tool the state uses:

- ☐ HCBS CAHPS Survey :
- ☒ NCI Survey :
- ☐ NCI AD Survey :
- ☐ Other (Please provide a description of the survey tool used):

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

a) Requirements concerning the independent audit of provider agencies:

Contract providers that provide services to individuals who participate in 1915(c) waivers administered by the Division of DD are not considered sub-recipients as defined in 2 CFR 200.330 since they do not have responsibility for determining program and service eligibility and they do not make programmatic decisions.

Division of DD contract providers that expend \$750,000 or more in federal grant funds received from the Department are required by DMH contract to have an annual audit conducted in accordance with 2 CFR 200.501.

Expenditures for this waiver are subject to the State of Missouri Single Audit conducted by the Missouri State Auditor's Office. Audits may be conducted by the Audit Services Unit of the DMH upon request. Audits may be requested by the Director of the DMH or the Director of the Division of DD based upon monitoring results, recommendations from regional offices, reports from provider staff, reports from the general public, etc.

b) As per the MOU between the DMH and the Department of Social Services(DSS) effective September 2011 there is a Missouri Medicaid Audit and Compliance Unit (MMAC) within DSS which directly manages and administers Medicaid program integrity, audit and compliance, and Medicaid provider contracts. The Division of DD is the division within DMH responsible for provision of services to individuals with DD. Division of DD provides TCM and waiver services as part of their service delivery. MMAC and Division of DD work in conjunction with regard to assuring program integrity, audit and compliance for Medicaid services. More specifically MMAC conducts provider reviews to ensure provider qualifications and services rendered in accordance and compliance with the Medicaid Program, the support plan, waiver services program, and all applicable federal and state laws and regulations. MMAC will also conduct internal audits of Division of DD enrolled Medicaid waiver providers to ensure payments comply with HCBS waiver assurances.

c) Agency (or agencies) responsible for conducting the financial audit program:

1. The DSS MMAC reviews a sample of waiver provider billings and conducts compliance audits, annually, in which documentation of services provided is reviewed to ensure services are in compliance with policies/regulations, service billed to MO HealthNet (MHD) were provided, and services were documented as required; the MMIS includes edits to ensure appropriate payments.

MMAC utilizes both on-site and desk reviews. Providers are selected based on complaints, referrals, exception reports, direction from supervisor, or geographical area. Multiple factors contribute to whether an on-site or desk review is conducted. A desk review could escalate into an on-site review if there is difficulty getting the requested records from the provider or depending on the preliminary results of the desk review.

MMAC reviews many items to ensure services were rendered including but not limited to progress notes, employee time sheets, staffing patterns, and attendance records. MMAC also reviews the ISP and any exception approvals needed for any items exceeding the cost limits, which would explain the need for the service to be approved and why the limit was exceeded. MMAC also reviews budgets that are approved and based on waivers, may question why cost limits were approved to be exceeded.

There are several ways of determining fraudulent billing activities. MMAC compare staff timesheets with other places of employment for staff, investigative reports completed by DMH indicate problem areas such as staff not being present when 24 hour care is needed, no notes present or notes do not support time or service, verbatim notes from day to day, billing for services that could not have been performed such as after date of death, staff documenting is not the staff that is working, etc. Any type of fraudulent activity is sent to an investigative unit and can then possibly be referred to the Attorney General's office for additional follow up.

MMAC furnishes copies of the review findings to both Department of Mental Health and MO HealthNet. The DMH Office of Audit Services only performs financial audits on non-Medicaid services since the establishment of MMAC. The state auditor's annual Single State Audit includes a review of Medicaid waiver Documentation, but not specific to MOCDD Waiver.

Post Payment Review Sampling Methodology

- 1) Providers are selected for review based on complaints, referrals, exception reports, direction from supervisor, or geographical area.*
- 2) Claims are selected for review based on abnormal billing patterns on the Truven (FADS) report, APTS reports that may identify issues, prior DMH-DD billing reviews.*

- 3) *MMAC does not do statistical samples for Waiver services.*
- 4) *MMAC reviews approximately 30% of enrolled Waiver providers annually*
- 5) *The time period for reviews can extend back 5 years. Depending on the type of review, 3 months or a year of claims could be reviewed during an audit.*

2. State Auditor's Office conducts financial audits under the Single State Audit or based on information from stakeholders.

As part of the Medicaid provider enrollment process, all waived service providers are required to have a DMH Purchase of Service contract. The DMH serves as the billing agent on behalf of all waiver service providers since the Department maintains the prior authorization system. This process pertains to all waiver services which are all prior authorized.

The Division of DD's automated network allows support coordinators to request services identified in the ISP. Before services are authorized, all new plans and plans requesting increased services must go through the regional office's Utilization Review (UR) process for approval. Approved services are input in the prior authorization system.

The Division of DD maintains an information system which included prior authorization. The provider can access the authorization system online and bill for authorized services that have been delivered. Based on the Medicaid Agency published claims processing calendar, the claim data and any adjustments are approved by DMH central office and submitted to the Medicaid Agency's fiscal agent for processing.

Claims are submitted electronically to the MHD fiscal agent and are subjected to appropriate edits in the MMIS system to ensure that payment is made only on behalf of those clients who are Medicaid eligible, and to providers who are enrolled, on the date a service was delivered. The provider subsequently receives payment directly from the MHD as reimbursement for services rendered. A remittance advice indicating the disposition of billed services accompanies the provider's reimbursement.

The audit trail consists of electronic encounter documentation and claims data located in the Division of DD information system, MHD, and with the provider of service. The Division of DD regional offices and contracted TCM entities maintain the ISP for individuals they support.

The Division of DD also maintains billed claim data for all claims submitted to the MHD, Medicaid remittance advices, and a history of authorized and paid services by fiscal year. The information collected and maintained by the Medicaid agency's MMIS system includes: copies of all paid and denied claims; Medicaid remittance advices; and eligibility information on each individual served.

Providers are required to maintain financial records and service documentation on each person served in the waiver including the name of the participant, the participant's Medicaid identification number, the name of the individual provider who delivered the service, the date that the service was rendered, the units of service provided, the place of service, attendance and census data collection, progress notes and monthly summaries.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:

The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

i. Sub-Assurances:

a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the

reimbursement methodology specified in the approved waiver and only for services rendered.

(Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of waiver service claims paid that did not exceed the maximum allowable rate. (Number of paid waiver service claims by procedure code that did not exceed the maximum reimbursement allowance divided by total number of paid waiver service claims)

Data Source (Select one):

Financial records (including expenditures)

	<input type="checkbox"/> Other Specify: <div></div>

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

1. All waiver services are prior authorized. All approved waiver services for waiver-enrolled persons are input into the prior authorization system in Division of DD Information System. DMH serves as the billing agent on behalf of all waiver service providers since DMH maintains the prior authorization system. The automated prior authorization system creates claims that are submitted electronically to the MHD fiscal agent and subject to the appropriate edits in MMIS to include persons were Medicaid eligible and providers were actively enrolled with MO HealthNet on date of service.

2. Prior authorized services include the rate that is authorized. Only the amount authorized can be paid.

3. Payment is not made through the MMIS unless a valid waiver procedure code has been authorized and billed.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

1) For performance measure I.i.a.i.1, any claims billed to MO HealthNet that are not covered waiver services will be adjusted so that reimbursement is returned to MO HealthNet.

2) Performance measure I.i.a.i.2 involves tracking on a quarterly basis to ensure paid claims for an individual service recipient are applied to the waiver with which he or she is enrolled on each date of service. This is verified by comparing the date of service and eligible dates for the individual in receipt of the waiver. Any service claims paid for the individual outside of the eligibility dates will be returned to MO HealthNet.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party (check each that applies):	Frequency of data aggregation and analysis (check each that applies):
<input type="checkbox"/> State Medicaid Agency	<input type="checkbox"/> Weekly
<input checked="" type="checkbox"/> Operating Agency	<input type="checkbox"/> Monthly
<input type="checkbox"/> Sub-State Entity	<input checked="" type="checkbox"/> Quarterly
<input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 30px; width: 100%; margin-top: 5px;"></div>	<input type="checkbox"/> Annually
	<input type="checkbox"/> Continuously and Ongoing
	<input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 30px; width: 100%; margin-top: 5px;"></div>

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

☒ **No**

☐ **Yes**

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

Each Division of DD Regional Office has Provider Relations staff assigned to work with Division of DD Waiver Providers. The Division of DD is responsible for rate development. The rate methodology for each group of services is described below and will be effective July 1, 2022. A maximum allowable for each service is calculated and is applied across all areas of the State. All maximum allowable rates are approved by MO HealthNet. Service rates may be adjusted prospectively based on State budget appropriations.

Funding for waiver services includes funding from the temporary 10 percentage point increase to the FMAP for Medicaid expenditure for home and community-based services provided under section 9817 of the American Rescue Plan Act of 2021 (ARP). Utilization ARP funding will continue until all funds are exhausted at which time funding of the State match will switch to all State general/tax revenue.

Rates are developed for each waiver service using one of the following rate methodologies. In the event that a provider is currently being paid above the 7/1/22 effective rate for a given service, their current rate will continue to be paid to comply with the MOE requirements of the American Rescue Plan, Section 9817.

1. The fee schedule methodology is utilized for the following services: day habilitation, day habilitation—behavioral, day habilitation—medical, applied behavior analysis, transportation, community networking, individualized skill development, personal assistant, personal assistant-group, personal assistant – medical, support broker, community specialist, respite and crisis intervention. One statewide fee schedule rate is developed for each service and paid to all providers.

To develop the fee schedule rates, the following key cost components were considered for each service:

- A. Staff wages*
- B. Employee benefits and other employee-related expenses*
- C. Productivity*
- D. Other service-related expenses*
- E. Administrative expenses*

To model the cost components, various market data sources were reviewed including Bureau of Labor Statistics, Missouri-specific staff wages and Missouri-specific health exchange costs. The market assumptions for each cost component were factored together to develop an overall hourly rate, which was then converted to a “per unit” rate using the specific unit definition for each service (e.g., per 15 minute unit).

2. The negotiated market price methodology is utilized for the following services: environmental accessibility adaptations, specialized medical equipment and supplies, assistive technology, remote supports, health assessment and coordination, and individual directed goods and services. For environmental accessibility adaptations, specialized medical equipment and supplies and assistive technology services, bids or cost estimates for a job/equipment/supply are obtained from two or more providers. The regional office reviews the quotes for reasonability and then authorizes a service price based on the provider with the lowest and best price. For health assessment and coordination, the unit of service is (1) month. Providers may not be reimbursed more than (1) month or 12 units per year. For all these services, the authorized amount cannot exceed the maximum allowed rate set by the State for the service.

The Non-federal funding sources for the Environmental Accessibility Adaptation limit increase will be made from the temporary 10 percentage point increase to the federal medical assistance percentage (FMAP) under section 9817 of the American Rescue Plan Act of 2021 (ARP) Fund appropriated by the Missouri General Assembly through the Department of Mental Health appropriations.

3. The self-directed methodology is used for the following services: self-directed personal assistance, self-directed medical personal assistance, community specialist, and team collaboration personal assistance. Employers (families, individuals, guardians) are given a budget based on the necessary hours determined for the individual and the statewide average rate for agency personal assistance. The employer sets the actual wage of the direct care staff based on their budget authority and must stay within the budget. The per unit cost cannot exceed the maximum allowable rate set by the State.

The State re-examines rates at least once every five years, upon renewal of its waivers. Methods for reviewing rates include periodic market surveys, cost analysis and price comparison. At any time during the five-year period, re-evaluation of pricing and rate increases are considered as warranted based upon provider inquiries, service access and budgetary considerations. DDD monitors the number of providers delivering each waiver service, reviews participant

complaints regarding ability to select/find a qualified provider, and considers participant feedback on service quality. Rate increases are determined by the State based on the outcomes of the periodic rate reviews performed by the State and available budget appropriations.

Individuals, providers, and other stakeholders have an opportunity to make public comments to the Division of DD, MHD, and elected officials on rates and methodology for rate setting during annual legislative hearings in preparation for the appropriation process. Many of the Medicaid maximum allowable rates have been adjusted over the years for COLA funding appropriated by the General Assembly. Individual rates may be adjusted for market or programmatic changes. For waiver submissions that impact rates, interested parties are notified by email blasts, online postings, postings in Regional Offices, and newspaper advertisements statewide informing of the 30 day public comment period and stakeholder forums. Additionally, providers and other stakeholders may provide comment to the Division of DD Director or DMH Director at any time regarding rates by writing a letter or during public meetings.

During the person centered planning process when service providers are selected, the participant is informed of provider rates. Individuals in all areas of the state receive services based on their needs as indicated in the ISP (person-centered service plan), regardless of the cost per unit. Also, participants are given a copy of their approved budget which contains the rate for each service they are approved to receive.

All fee schedules are located at <https://apps.dss.mo.gov/fmsFeeSchedules/main disclaimer.shtml>.

- b. Flow of Billings.** Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the state's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

The division contracts with TCM entities who may initiate the process for prior authorized services. Regional Office staff may also initiate the process for prior authorized services. The Division of DD information system allows staff of both the TCM entities and the regional offices to request prior authorization of services identified in the support plan. Before services are prior authorized, the support plan must go through the regional office's utilization review process if the plan is new or requests an increase in service. Final approval is performed by the Division regional offices. TCM providers are paid under State Plan for case management services and not the actual prior authorization of a service.

Waiver providers are required to submit claims for services they provide through the Division of DD Information system and may not bill claims directly to MO HealthNet fiscal agent.

The automated prior authorization system creates claims that are submitted electronically to MO HealthNet fiscal agent and subject to the appropriate edits in MMIS to include persons were Medicaid eligible and providers were actively enrolled with MO HealthNet on date of service.

The ASC X12N 837 Health Care Claim format is used for billing waiver services. Claims submitted electronically are subjected to appropriate edits in the MMIS system to ensure that payment is made only on behalf of participants who are MO HealthNet eligible, and to providers who are enrolled, on the date a service was delivered. The provider receives a remittance advice indicating the disposition of billed services and any reimbursement due, directly from the MHD. The Division of DD also receives copies of remittance advices since the state share paid to providers is the Department's responsibility. The Division of DD is appropriated funds for the state share of waiver service programs it administers. As claims are adjudicated in the MMIS, Division of DD delegates authority to the MHD to access the funding needed for payment of the waiver services.

The state will demonstrate compliance with the Electronic Visit Verification System (EVV) requirements for personal care services (PCS) by January 1, 2021 in accordance with the Good Faith Exemption granted by the Centers for Medicare and Medicaid Services.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

- c. Certifying Public Expenditures** (select one):

- ☒ *No. state or local government agencies do not certify expenditures for waiver services.*
- ☐ *Yes. state or local government agencies directly expend funds for part or all of the cost of waiver services and certify their state government expenditures (CPE) in lieu of billing that amount to Medicaid.*

Select at least one:

- ☐ ***Certified Public Expenditures (CPE) of State Public Agencies.***

Specify: (a) the state government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-a.)

- ☐ ***Certified Public Expenditures (CPE) of Local Government Agencies.***

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

- d. Billing Validation Process.** Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

(a) Waiver providers must submit bills through the DMH Division of DD information system where the prior authorization resides. Claims must successfully process through the prior authorization system before the Department sends the claims to the MHD fiscal agent for processing through the MMIS claims processing system. There are edits within the MMIS to verify eligibility for each date of service before the system approves payment to the provider. If an individual is not eligible for any date of service, the MMIS claims processing system does not allow payment to the provider for periods of ineligibility.

(b)&(c) Billing validation to determine if services are provided is done once a year as part of the MHD's review of a sample of waiver participants. The division reviews properly paid claims ongoing with quarterly and annually data analysis. Part of the process is to review the plan and ensure all service needs have been provided and that all services provided were included in the plan. In addition, MMAC performs reviews of providers who received payment for services to participants. Providers must provide documentation to MMAC that services were delivered. Anytime a claim is refunded or recouped due to inappropriate billings, the claim is adjusted in the system. The adjustment is reported on the CMS-64.

The MMAC conducts reviews of provider payments to ensure the provider has evidence/documentation that services were provided. Only authorized services are paid. Payment is made directly to the provider of service.

- e. Billing and Claims Record Maintenance Requirement.** Records documenting the audit trail of adjudicated claims

(including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

a. Method of payments -- MMIS (select one):

- ☒ **Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).**
- ☐ **Payments for some, but not all, waiver services are made through an approved MMIS.**

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- ☐ **Payments for waiver services are not made through an approved MMIS.**

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- ☐ **Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.**

Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

b. Direct payment. In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):

- ☐ **The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.**
- ☒ **The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.**
- ☐ **The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.**

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

- ☐ **Providers are paid by a managed care entity or entities for services that are included in the state's contract with the entity.**

Specify how providers are paid for the services (if any) not included in the state's contract with managed care entities.

Appendix I: Financial Accountability

I-3: Payment (3 of 7)

c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to states for expenditures for services under an approved state plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

- ☐ **No. The state does not make supplemental or enhanced payments for waiver services.**
- ☒ **Yes. The state makes supplemental or enhanced payments for waiver services.**

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the state to CMS. Upon request, the state will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

The Department of Mental Health will implement nine incentive payments. The performance period will be a state fiscal year starting with state fiscal 2023. The Non-federal funding sources for the value based payment incentives will be made from the temporary 10 percentage point increase to the federal medical assistance percentage (FMAP) under section 9817 of the American Rescue Plan Act of 2021 (ARP) Fund appropriated by the Missouri General Assembly through the Department of Mental Health appropriations. Even though the Department of Mental Health provides the non-federal funding, the source is the General Revenue Fund that would be the same fund if the appropriation was to the Medicaid agency.

The State distributed information to stakeholders through various communication channels and in-person/virtual meetings/webinars. Communication channels include: Division email blasts, social media platforms, newsletters, and provider relations distribution lists. In-person and virtual meetings. In addition, a VBP Ad Hoc Committee with representatives from the provider community was established to provide feedback on all nine incentives, as well as distribute information throughout the provider community. The State will continue to distribute information via the established channels described above as well as add VBP information in the provider enrollment process to educate new providers, Medicaid DD Provider Waiver Manual, and request ongoing feedback via Division surveys.

The Division of Developmental Disabilities with the assistance of administrative contractors will collect and monitor incentive data. The State has created standard reporting templates based on stakeholder feedback which providers will access for data reporting and collection. The State has developed a web-based platform to input data collected for each incentive. All providers will use the same platform for data collection and reporting to maintain consistency. The State developed a uniform process to analyze data reported to ensure consistency in reports completed and provider notification protocol. The Division of Developmental Disabilities will make the final determination that a payment is earned. Additional incentive detail is located in the provider's contract and on the Division's webpage Value Based Payments (VBP) | dmh.mo.gov.

1. Establish Incentive Payments for DMH DD Agency Personal Assistant Services (Not Self-Directed) where Personal Assistant Waiver Providers are engaged in Electronic Verification Visit (EVV) with the Missouri EVV Aggregator

Payment earned and paid to DMH DD agency personal assistant service provider to interface with an EVV vendor, complete state system aggregator registration with on-boarding training, and successfully transmit verified personal assistant service EVV records to the state aggregator system.

The EVV incentive payment can be earned once every six months (i.e., once for the July-December time period and once for the January-June time period). To earn the payment, the agency personal assistant provider must successfully transmit at least 80% of their personal assistant service EVV records for the given six-month period to the state aggregator system. The EVV records must contain all required data points. The incentive payment amount paid to the provider is equivalent to 1% of the total Medicaid paid personal assistant claims payment made to the agency personal assistant provider for the applicable six month period. HCBS waiver providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.

2. Establish Pay for Reporting Incentive Payments for DD DMH waiver employment service providers who submit data elements that report outcomes and activities in the delivery of Career Planning, Prevocational, Job Development, Supported Employment, and Benefits Planning services.

Payment earned and paid to the DMH DD provider for each quarterly report that employment service providers complete and submit to the state.

A provider can earn the incentive payment for each quarterly episode of pay for reporting (i.e., four times per year), as outlined in the provider contract. The quarterly payment is equivalent to \$55 and is only paid for a service-reporting episode where the provider completes 100% of the activities report containing all required data points. HCBS waiver providers retain 100% of the value based payment incentive supplemental, including the Federal and State Share.

(PLEASE SEE MAIN SECTION B-OPTIONAL FOR THE ADDITIONAL INFORMATION IN THIS SECTION)

Appendix I: Financial Accountability**I-3: Payment (4 of 7)**

d. Payments to state or Local Government Providers. Specify whether state or local government providers receive payment for the provision of waiver services.

- ☐ **No. State or local government providers do not receive payment for waiver services.** Do not complete Item I-3-e.
- ☒ **Yes. State or local government providers receive payment for waiver services.** Complete Item I-3-e.

Specify the types of state or local government providers that receive payment for waiver services and the services that the state or local government providers furnish:

Some county entities are reimbursed as waiver service providers, as well as Division of DD regional offices and habilitation centers. Out of Home Respite services may be provided as a direct service by a county entity, or an habilitation center. County Entities and Regional Offices may also provide the following services as a direct service: Day habilitation, in-home respite, personal assistant, support broker, community specialist, crisis intervention, Applied Behavior Analysis services, environmental accessibility adaptations, specialized medical equipment and supplies, assistive technology, or transportation. The county entity or regional office must have staff qualified to provide the service and must have been chosen by the participant to provide the service.

Both county entities and regional offices are more likely to provide waiver services under the Organized Health Care Delivery System (OHCDS) option, sub-contracting for waiver services from otherwise qualified providers that have chosen not to enroll as a MO HealthNet (Medicaid) provider.

Appendix I: Financial Accountability**I-3: Payment (5 of 7)**

e. Amount of Payment to State or Local Government Providers.

Specify whether any state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the state recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

- ☒ **The amount paid to state or local government providers is the same as the amount paid to private providers of the same service.**
- ☐ **The amount paid to state or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.**
- ☐ **The amount paid to state or local government providers differs from the amount paid to private providers of the same service. When a state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the state recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.**

Describe the recoupment process:

Appendix I: Financial Accountability**I-3: Payment (6 of 7)**

*f. **Provider Retention of Payments.** Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:*

- ☒ *Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.*
- ☐ *Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.*

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the state.

Appendix I: Financial Accountability

I-3: Payment (7 of 7)

g. Additional Payment Arrangements

*i. **Voluntary Reassignment of Payments to a Governmental Agency.** Select one:*

- ☒ *No. The state does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.*
- ☐ *Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).*

Specify the governmental agency (or agencies) to which reassignment may be made.

*ii. **Organized Health Care Delivery System.** Select one:*

- ☐ *No. The state does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.*
- ☒ *Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.*

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:

a) Entities that may be designated as an OHCDs are Division of DD regional offices and other MO HealthNet service providers that meet the requirements set forth in 42 CFR 447.10, and desire to serve as an OHCDs. There are no restrictions as to waiver services that may be provided under this option as long as all applicable provider standards are met for that service. They have systems capable of contracting and paying other providers directly. Other waiver providers of MHD services may also elect to become an OHCDs provider if they are approved by the local regional office and have systems capable of contracting with and paying waiver service providers directly and meet the assurances. The ability to contract directly with providers allows individuals and families to select and develop or train individuals they want to deliver services and care, thereby increasing the individual's self-determination. The OHCDs option also enhances the availability and responsiveness of the service delivery system for individuals and their families.

(b) Any qualified provider of a waiver service may enroll directly with the MHD as a Division of DD waiver provider. Providers are not required to provide services through an OHCDs arrangement. The OHCDs option allows individuals and families the ability to select and develop or train individuals they want to deliver services and care, thereby increasing the individual's self determination. The OHCDs option also enhances the availability and responsiveness of the service delivery system for individuals and their families. Completing the enrollment process through the MO HealthNet program can take time. Contracting with an OHCDs qualified entity may be an expedient way to get services started. The option expands provider choice for individuals and families.

(c) Participants have free choice of qualified providers and are not required to access services through an OHCDs entity/arrangement. Providers are not required to contract with OHCDs entities, but may do so by choice. Qualified providers may enroll with MMAC to become a MO HealthNet waiver provider.

(d) Provider agencies that have OHCDs designation have a specialized contract with the DMH and with MHD. The agreement specifies the following:

- Individual providers and agency providers are not required to contract with an OHCDs under the waiver.*
- All persons or agencies which do contract with an OHCDs to provide waiver services must meet the same requirements and qualifications as apply to providers enrolled directly with the Medicaid agency.*
- No OHCDs or contractor will be allowed to limit a participant's free choice of provider.*
- Any state entity wishing to be designated an OHCDs must agree to bill the Medicaid program no more than its cost.*
- All contracts executed by an OHCDs, and all subcontracts executed by its contractors, to provide waiver services, must meet the applicable requirements of 42 CFR 434.6 and 45 CFR Part 74, appendix G.*

(e) MMAC is responsible for enrolling all waiver providers as Missouri Medicaid providers. A standard provider qualification for each waiver provider is that the provider has an active contract to provide waiver services for the Division of DD. This contract is required along with other MO HealthNet provider enrollment forms and any other proof of license or other credential in order for the provider to enroll as a Missouri Medicaid provider of waiver services.

In addition, support coordinators inform individuals of qualified providers and assist individuals in exercising choice. Regional offices use the OHCDs option to expand choice by contracting or until the provider enrollment process is completed.

(f) Regional Offices bill the same amount to the MHD as the Regional Office paid the contract provider. MMAC Unit has the responsibility for reviewing paid claims. MMAC reviews paid claims by provider type or by specialty type if the provider type is too broad in scope. They select a sample within a set timeframe. Providers must maintain sufficient documentation to prove they provided services for which they were paid by the MHD. In addition, all services are prior authorized to qualified providers, by Regional Offices. Support Coordinators monitor services to determine if the services authorized in the plan are being received and if the services are meeting the individual's needs.

iii. Contracts with MCOs, PIHPs or PAHPs.

- ⦿ **The state does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.**
- **The state contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state**

Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- ☐ This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.
- ☐ This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.
- ☐ If the state uses more than one of the above contract authorities for the delivery of waiver services, please select this option.

In the textbox below, indicate the contract authorities. In addition, if the state contracts with MCOs, PIHPs, or PAHPs under the provisions of §1915(a)(1) of the Act to furnish waiver services: Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency. Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the state source or sources of the non-federal share of computable waiver costs. Select at least one:

- ☐ Appropriation of State Tax Revenues to the State Medicaid agency
- ☒ Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the state entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

a) The non-federal share is appropriated to DMH, Division of DD from General Revenue and Mental Health Local Tax Fund.

b) The State utilizes Intergovernmental Transfers (IGT). Funds from any local government (county boards) are deposited into the Mental Health Local Tax Fund with Division of DD, and expenditures for the State share for services in their county are made through Division of DD appropriations. MO HealthNet through the use of IGT directly accesses the Division of DD appropriations when making payments to providers. In addition, funds used for the state share for services delivered by private providers are also made through an IGT process from DMH general revenue appropriations.

☐ **Other State Level Source(s) of Funds.**

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. *Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:*

☐ **Not Applicable.** *There are no local government level sources of funds utilized as the non-federal share.*

☒ **Applicable**

Check each that applies:

☒ **Appropriation of Local Government Revenues.**

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

a) Some Missouri counties have passed laws that give them authority to levy taxes for residents who have DD. Legislation which allows an individual county to create a local DD authority and through a vote of the citizens of the county collect a special tax levied on property up to 40 cents per hundred dollars valuation on property. RSMo 205.968-205.973 is the statutory reference.

b) The source of their revenue is the special tax on property.

c) Funds from any local government (county boards) that are designated for the state share are deposited into the Mental Health Local Tax Fund with Division of DD, and expenditures for the State share for services in their county are made through Division of DD appropriations. MO HealthNet through delegation of authority directly accesses the Division of DD appropriations when making payments to providers.

☐ **Other Local Government Level Source(s) of Funds.**

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the state Medicaid agency or fiscal agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

c. Information Concerning Certain Sources of Funds. Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. Select one:

☒ **None of the specified sources of funds contribute to the non-federal share of computable waiver costs**

☐ **The following source(s) are used**

Check each that applies:

☐ **Health care-related taxes or fees**

☐ **Provider-related donations**

☐ **Federal funds**

For each source of funds indicated above, describe the source of the funds in detail:

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. Services Furnished in Residential Settings. Select one:

☐ **No services under this waiver are furnished in residential settings other than the private residence of the individual.**

☒ **As specified in Appendix C, the state furnishes waiver services in residential settings other than the personal home of the individual.**

b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. The following describes the methodology that the state uses to exclude Medicaid payment for room and board in residential settings:

The only service that is provided in a residential setting is Out of Home Respite. Federal Financial Participation (FFP) is not claimed for the cost of room and board except when provided as part of respite care furnished in a facility approved by the State that is not a private residence.

Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

☒ **No. The state does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.**

☐ **Yes. Per 42 CFR §441.310(a)(2)(ii), the state will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The state describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when**

01/18/2023

the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. Specify whether the state imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

- ☒ **No. The state does not impose a co-payment or similar charge upon participants for waiver services.**
- ☐ **Yes. The state imposes a co-payment or similar charge upon participants for one or more waiver services.**

i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):

- ☐ **Nominal deductible**
- ☐ **Coinsurance**
- ☐ **Co-Payment**
- ☐ **Other charge**

Specify:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

a. Co-Payment Requirements.

iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

b. Other State Requirement for Cost Sharing. Specify whether the state imposes a premium, enrollment fee or similar cost sharing on waiver participants. Select one:

- ☒ No. The state does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.
- ☐ Yes. The state imposes a premium, enrollment fee or similar cost-sharing arrangement.

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Level(s) of Care: ICF/IID

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (1 of 9)

a. Number Of Unduplicated Participants Served. Enter the total number of unduplicated participants from Item B-3-a who

will be served each year that the waiver is in operation. When the waiver serves individuals under more than one level of care, specify the number of unduplicated participants for each level of care:

Table: J-2-a: Unduplicated Participants

Waiver Year	Total Unduplicated Number of Participants (from Item B-3-a)	Distribution of Unduplicated Participants by Level of Care (if applicable)	
		Level of Care:	
		ICF/IID	
Year 1	366		366
Year 2	366		366
Year 3	366		366
Year 4	366		366
Year 5	366		366

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

- b. Average Length of Stay.** Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

The Average Length of Stay was taken from the 372 Report based on the most recent FY15 372 report (306.6); 307 used in application.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

- c. Derivation of Estimates for Each Factor.** Provide a narrative description for the derivation of the estimates of the following factors.

- i. Factor D Derivation.** The estimates of Factor D for each waiver year are located in Item J-2-d. The basis and methodology for these estimates is as follows:

Factor D projections are based on actual service utilization data from the FY 20 CMS 372 report trended forward to WY 1 based on adjustments for program funding changes passed by the General Assembly. This information was applied to the total slots available in the waiver renewal. Although FY2023 unduplicated participants was 366, the state held the previously projected unduplicated participants (waiver slots) constant at 366 to allow for continued growth. The number of Users and Average Units per User were held constant for each service, since no additional waiver slots were requested. The total projected expenditure was then divided by the unduplicated number of slots available. The projected users for waiver services remain constant for years 2 -5 of the waiver. The unit costs for each waiver service was projected forward using an average trend of 5.7% for years 2 – 5 of the waiver application based on BLS trends.

With this renewal, Remote Supports was removed from Assistive Technology and included as a stand-alone waiver service. Estimates for the Remote Supports are based on FY22 actual utilization and estimates for number of Users and Units per User are held constant for waiver years 2-5.

Since, Home and Community Based waiver service costs (Factor D) are typically driven by changes in direct care wages (compensation), the BLS Employment Cost Index for Total Compensation was used. We utilized nationwide historical trends specific to the Healthcare and Social Assistance industry. The source link used to obtain the most current data is: <https://www.bls.gov/news.release/eci.t05.htm>. At the time of waiver submission, the most recent data available was for the 12 months ending September 2020, which reflected a 5.7% trend. This data point is located in Table 5 at the following link: <https://www.bls.gov/news.release/eci.t05.htm>.

- ii. Factor D' Derivation.** The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these

estimates is as follows:

Factor D' is based on actual paid claims data from the FY20 CMS 372 report trended forward 5.1% annually based on BLS Medical Services CPI. Medical State Plan service projected costs (Factor D' and Factor G') were trended based on the BLS Consumer Price Index for all Urban Consumers (12 months ended July 2022). At the time of waiver submission, the most recent data available was for the 12 months ending July 2022. The source link used to obtain the BLS Medical CPI for State Plan services:

<https://www.bls.gov/opub/ted/2022/consumer-price-index-unchanged-over-the-month-up-8-5-percent-over-the-year-in-july-2022.htm>.

There were no Medicare Part D figures in this data.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The basis for determining Factor G for institutional costs was based on ICF/ID actual cost data 2020 for the four state habilitation centers. Factor G was trended annually by 5.5% based BLS trends. Direct care wages are one of the main drivers behind Intermediate Care Facility unit costs for Individuals with Developmental Disabilities (ICF/ID) (Factor G). Therefore, Factor G was trended based on the BLS Employment Cost Index for Total Compensation. We utilized nationwide historical growth rates specific to Nursing and Residential Care Facilities. The source link used to obtain the most current data is: <https://www.bls.gov/news.release/eci.t05.htm>. At the time of waiver submission, the most recent data available was for the 12 months ending June 2022, which reflected a 5.5% trend. This data point is located in Table 5 at the following link:

<https://www.bls.gov/news.release/eci.t05.htm>

iv. Factor G' Derivation. The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The basis for determining Factor G' for acute care costs for institutionalized participants was based on actual state plan claims data from 2020 for the four state habilitation centers. Factor G' was trended annually by 5.1% based on BLS Medical CPI. Medical State Plan service projected costs (Factor D' and Factor G') were trended based on the BLS Consumer Price Index for all Urban Consumers (12 months ended July 2022). At the time of waiver submission, the most recent data available was for the 12 months ending July 2022. The source link used to obtain the BLS Medical CPI for State Plan services: <https://www.bls.gov/opub/ted/2022/consumer-price-index-unchanged-over-the-month-up-8-5-percent-over-the-year-in-july-2022.htm>.
