Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Fort Bellefontaine, located in St. Louis, Missouri, is a twenty-four bed moderate level care facility operated by the Missouri Division of Youth Services (DYS). The facility provides services to young adolescent males, ages 13-17, who have been adjudicated delinquent.

The notifications of the on-site audit were posted on January 29, 2018, six weeks prior to the date of the on-site audit. The posting of the notices was verified by photographs received electronically from the Agency PREA Coordinator. The photographs indicated notices were posted in various locations throughout the facility including housing and administrative areas. The pre-audit questionnaire (PAQ), policies, procedures and supporting documentation were received within adequate timeframe for review. The documents were uploaded to a USB flash drive. The initial review revealed the flash drive was well-organized and easy to navigate. Any additional information needed was discussed with the Agency PREA Coordinator and was received within a timely manner or available for review during the onsite visit.

The on-site audit was conducted on March 5, 2018. An entrance briefing was conducted with the Facility Manager and Assistant Regional Administrator. During the briefing, Auditor explained the audit process and a tentative schedule for the day to include conducting interviews with the staff and residents and reviewing the documentation. A complete guided tour of the entire facility was conducted. Located in the three-story building are two dayrooms and kitchen on first floor. Two dorm style rooms, bathrooms and offices are located on the second floor. Located on the third floor (basement) is the laundry and storage room. School and food services are housed in separate buildings on campus. During the tour, residents were observed to be under constant supervision of the staff. The facility was clean and well maintained. Notifications of the PREA audit were posted in various locations throughout the facility as well as postings informing residents of the telephone numbers to call to report or seek help in the event of sexual abuse and sexual harassment. The facility does not utilize video recording cameras.

During the one-day on-site visit, there were a total of 19 residents in the facility. A total of 12 residents were interviewed. All of the residents were well informed of their right to be free from sexual abuse and harassment and how to report sexual abuse. A review of risk screenings and staff interviews did not identify youth for targeted interviews.

Fifteen staff including representation from all three shifts, administrative and supervisory staff, Regional Nurse, contracted staff, the Facility Manager, and PREA Compliance Manager were interviewed. The Assistant Regional Administrator and Agency PREA Coordinator were also interviewed. The interviews revealed staff are knowledgeable of PREA standards and were able to articulate their responsibilities. The Auditor noted one area of concern which was how youth access the phone for PREA Hotline calls.

This was addressed with Facility Manager and Assistant Regional Administrator. Refresher training was conducted with staff and youth; documentation was provided to the Auditor prior to submission of report.

The facility's first PREA audit was conducted in June 2015. The current audit was assigned to the Auditor by Correctional Management and Communications Group, LLC of Minneola, Florida.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Fort Bellefontaine is a 24-bed medium secure facility located on Missouri Hills campus within a state park, located in St. Louis County. The facility houses groups of boys generally ranging in age from 12-17 years that have been determined to be at risk youth. They have been committed to the care and custody of Division of Youth Services through the juvenile court system. Fort Bellefontaine serves youth from the following counties: St. Louis City and County, Jefferson and St. Charles counties. Generally, youth are committed to this facility for offenses ranging from car theft, burglary, drugs to third degree assaults.

Fort Bellefontaine employs 17 Youth Specialists, two Group Leaders, two Teachers, Secretary and Facility Manager. Medical and mental health services are coordinated by DYS Regional staff who attend to youth medical needs along with Dr. Dunston from Cardinal Glennon Medical Facility.

Treatment in the facility is varied and includes individualized and group counseling, education, and medical services. Psychosocial, along with other needs are addressed to meet the individualized needs of each youth in care at the facility. The treatment services that are unique to the facility are the Rite of passage ("What is a Man"). Facility activities also include camping, canoeing, biking, rock climbing, orienteering high and low ropes course, community service projects with Bellefontaine beautification, and several youth participate in the job readiness program.

The facility environment is based upon maintaining safety, cleanliness, and organization at all times within a structured, positive, and supportive environment. There are no cameras located at this facility. DYS staff are trained to maintain awareness supervision, therefore "blind spots" should be minimal. When staff cannot see a youth they are to reposition themselves so they can have full awareness supervision. Treatment goals and objectives are developed in the context of youth and family's strengths; trauma-informed; and incorporate positive youth development principles within the framework of well-being. Treatment goals and objective also include mastery, stability, safety, access to mainstream relevant resources, and social connections.

Education is an important part of the youth's program, to assist them in future success. Youth are able to continue to work toward obtaining their high school diploma, or may study toward achieving a High School Equivalency certificate, or prepare for college through taking the ACT, standardized test used for college admissions.

Facility services are also supplemented by DYS Family Specialist, Treatment Coordinators, a Regional Clinical Coordinator and Community Mentors. All youth are assigned an individual Service Coordinator to assist them in their progress from their commitment into DYS up until their eventual discharge. Youth can have access to psychiatric services through contracted providers.

Fort Bellefontaine and DYS believe that family is vital to the treatment process. Youth and families are encouraged to build and strengthen relationships through phone calls, visitation, and active participation in the youth's progress.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

During this audit period all 41 standards were met.

Number of Standards Exceeded:	0
Number of Standards Met:	41
Number of Standards Not Met:	0

Summary of Corrective Action (if any)

A corrective action was implemented and is discussed in this report under Standard 115.331 Employee Training.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The state of Missouri, Division of Youth Services (DYS) 9.18 PREA, DYS Policy Employee Conduct, DYS Policy 3.23 Ethical Standards, DYS Policy 9.28 Developing Relationship mandates zero tolerance of sexual assault and rape of clients in juvenile justice facilities. The Policies give guidance in how to prevent, detect and respond to sexual abuse and sexual harassment. Included are definitions of prohibited behaviors and sanctions for those found to have participated in prohibited behaviors.

The Missouri Division of Youth Services employs an Agency PREA Coordinator. The PREA Coordinator has complete and unrestricted access to all Agency facilities contract/residential programs, offices, records, staff and residents. Facility staff and contract providers must comply fully with the Agency PREA Coordinator without fear of reprisal or reprimand. The PREA Coordinator reports to Missouri DYS Division Director.

The Agency PREA Coordinator is involved with PREA decisions and implementation at the highest level of the Agency. The PREA policy is structured by subject matter, thereby allowing the reader of the policy to discover relevant policy provisions by topics corresponding to each PREA Juvenile Standard.

The Agency PREA Coordinator confirmed she has sufficient time and authority to develop, implement, and oversee Agency efforts to comply with the PREA Juvenile Standards in all its facilities. Each facility is required to designate a PREA Compliance Manager. The Facility Manager serves as the PREA Compliance Manager. Random staff acknowledge through interviews the role of the compliance manager. Facility Manager and Compliance Coordinator were able to discuss how the different departments worked together to maintain PREA compliance across all departments.

The Facility PREA Compliance Manager confirmed she has sufficient time and authority to coordinate facility efforts to comply with the PREA Juvenile Standards.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DYS Policy 9.6: Program Supervision, provides guidelines for adhering to the staffing ratios as required in PREA Standard 115.313. The minimum direct care staff to youth ratio is 1:6 during waking hours and 1:6 during sleep hours. Any deviation from this minimum staffing must be documented in an incident report that lists the reason(s) and the duration that the minimum staff/Youth ratio was not met and any actions taken to correct the situation. Interview with Facility Manager, review of work schedules and observations during the facility tour indicated adherence to facility staffing ratios of 1:6 during wake hours and 1:6 during the sleeping hours. These requirements are set forth in DYS Policy 9.18.

DYS Policy 9.6 Program Supervision dictates at least once a year a review of staffing plan occurs. The annual staffing plan assessment was last completed on 3/13/17 by the Assistant Regional Administrator and Facility Manager. The assessment was reviewed by the Regional Administrator. The process included but was not limited to a review of the following: staffing plan; monitoring system; resources available and commitment to ensure adherence to the staffing plan and the occurrence of unannounced rounds. The form summarizing the process was provided for review.

The PREA policy provides for compliance to the staffing plan except during limited and exigent circumstances and the deviation be documented. The facility reports the average daily number of residents during the past year is 21 and the average daily number of residents on which the current staffing plan was predicated is 24. The facility also reports there were no deviations from the staffing plan in the past 12 months.

DYS Policy 9.6 Program Supervision dictates a requirement that unannounced rounds are conducted by higher level and intermediate level staff. The unannounced rounds are conducted to identify and deter sexual abuse and sexual harassment. Review of unannounced program documentation,

interviews with staff, Assistant Regional Administrator and Facility Manager verify unannounced rounds are conducted. Staff are not alerted regarding visits.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DYS Policy 5.8 Searches for Contraband verify cross-gender pat searches are prohibited, except in exigent circumstances. Interviews with direct care staff, residents and administrative staff support that cross-gender searches are not conducted.

Staff training agenda stresses the need for all searches to be conducted as humanely and respectively as possible. At least two staff should be involved when any student is being searched, except exigent circumstance the individual conducting searches shall be of same gender of youth.

DYS Policy 7.2: Standards prohibits staff from searching or physically examining a transgender or intersex resident for the sole purpose of determining the residents genital status. Staff interviews verified if there are questions this information would be obtained through a medical exam conducted by a medical practitioner in private. Body cavity searches are not conducted by Fort Bellefontaine staff and require the use of a medical professional and the approval of the Fort Bellefontaine Facility Manager.

DYS Policy 9.18, staff and resident interviews confirm residents are able to shower, change clothes and perform bodily functions without being viewed by staff of the opposite gender. All staff of the opposite gender must announce their presence when entering a resident housing unit. Residents interviewed verified this practice and were also verified during the comprehensive tour of the facility. All toilets have doors and all showers have curtains which allow for viewing of youth's head and feet. Youth must dress prior to exiting shower. DYS staff both male and female supervise in the bathroom area. The staff do not view the youth unclothed.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DYS Policies 6.1 and 8.3 Programmatic Rights of Youth and Grievance Procedures and Individual Education Program-Special Education mandate youth have the right to be informed of their rights, rules, procedures and schedules which have an impact on them. When needed, this will be provided in a manner that is sensitive to limited English proficiency or disability.

During the intake process residents complete the "Safety 1st" youth orientation packet which is available in English and Spanish.

Documentation was reviewed for a statewide contract for the following services: Sign Language Interpretation Services, Telephone Based Interpreter Services, Verbal Language Interpretation Services and Written Languages Translation Services.

The PREA information must be provided verbally and in written form and in a language and format the client can understand. The use of resident interpreters is prohibited except in limited circumstances when delay in translation could compromise resident safety or the performance of first responder duties according to DYS Policy 9.18 PREA

The resident's initial contact with the Group Leader during intake triggers the need for interpreter services if required. The interview with the Intake Coordinator and review of documentation confirmed support services will be provided. Contracts for support services were reviewed. The facility reports there has not been a need for interpreters during the past twelve months.

The random staff interviews and review of facility staff training curriculum support the facility does not rely on resident interpreters, resident readers or any type of resident assistants for the provision of PREA information for another resident. Resident handbook contains information regarding reporting an allegation of sexual abuse and sexual harassment. Reporting information is also posted on the living units and in the various areas of the facility

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DYS Policy 9.18 PREA Hiring and Promotion, and DSS Policy 2-107 Background Checks on Current Employees, pg. 2, are aligned with PREA Standard 115.317. The combination of policies and interview with the Human Resources Manager provided details regarding the hiring process. The policies provide that background checks occur and that child abuse registries are checked prior to employment. Background checks are run yearly on all employees. A review of sample personnel files and the interview with the Human Resource Manager confirmed the practice.

Policy prohibits the hiring or promoting anyone who may have contact with residents and prohibit enlisting the services of any contractor who may have contact with residents who has engaged in previous sexual misconduct.

The interview conducted with the Human Resource Manager confirmed the facility considers any incident of sexual abuse or sexual harassment in determining whether to hire an individual contract for services or whether to promote an employee. Human Resource Manager also verified the requirement that all staff have a continuing duty to report related misconduct and provide omissions of such conduct or providing false information will be grounds for termination in accordance with DYS Policy 9.18 PREA.

The agency is not responsible for conducting any form of criminal or administrative sexual abuse investigation. The agency offers all residents who experienced abuse access to forensic medical examination without financial cost where evidentiary or medically appropriate. A statewide contract exists. Residents from Fort Bellefontaine would be serviced by Children's Advocacy Services of Greater St. Louis. Providers are physicians, nurse practitioners, or physician assistants who are specialty trained to provide medical examinations of children when abuse or neglect is suspected.

Children's Advocacy Services of Greater St. Louis has agreed to meet any advocacy needs for youth in custody of the Missouri Division of Youth Services in this region. Forensic exams are performed at Cardinal Glennon Medical Facility and SAFE/SANE staff are available. The facility reported no forensic medical exams in past 12 months.

DYS Policy 9.18, states that as requested by the victim, the victim's parent/guardian a victim advocate, or a trained or licensed DYS direct care employee such as a Clinical Coordinator or Regional Psychologist shall accompany and support the victim through the forensic medical examination process and investigatory interviews. The aforementioned staff must provide emotional support crisis interventions, information and referrals.

DYS has conveyed the PREA requirements to the appropriate external investigation agencies: Missouri Children's Division, Out of Home Investigation Unit, and local law enforcement.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DYS Policy 9.18, DYS Policy 3.8, and DYS Policy 6.1, interviews with staff, PREA Coordinator and Facility Manager support the requirement/practice that allegations of sexual abuse and sexual harassment will be investigated by Missouri Children's Division, Out of Home Investigations Unit (CD-OHI). If the situation involves recent abuse, law enforcement is also contacted.

Policy directs staff to report all allegations of sexual abuse and sexual harassment and to document reports. Staff interviews verified awareness of this protocol. During the past 12 months, there were no allegations of sexual abuse or sexual harassment. The Missouri DYS website provides the information and policy for reporting allegations of sexual abuse. Reporting information is also posted in various areas of the facility, accessible to residents, staff and visitors.

DYS Policy 3.18 Training and DYS Policy 9.18 PREA addresses PREA related training for staff. The policies, training materials, staff interviews and a review of training rosters document that the staff training occurs. Staff members interviewed were familiar with the primary components of preventing, detecting and responding to sexual abuse or sexual harassment.

Auditor noted one area of concern, how youth access the phone for PREA Hotline calls. This was addressed with the Facility Manager and Assistant Regional Administrator. Refresher training, as a corrective action, was conducted with staff and youth. Documentation of the refresher training was provided to the Auditor prior to submission of the report.

Gender responsive training is designed to provide staff training tailored to the unique needs and attributes of the gender of the residents at the facility. Staff must sign acknowledging they read and understand the policies and procedures. The Facility Manager/PREA Compliance Manager ensures key information is continuously and readily available and/or visible to all staff.

Direct Care, Medical and mental health staff interviewed reported receiving PREA training. Facility PREA Policy provides that PREA refresher training is conducted yearly. All Direct Care, Medical and Mental Health staff interviewed and a review of training documentation verified the general topics included in the PREA standards are addressed in the training provided by the facility.

PREA education is also included and involves directions to residents about how to report allegations of sexual abuse and sexual harassment and the right to be free from retaliation for reporting, as well as other rights. Policy states additional education will be provided to residents within 10 days of intake.

The resident handbook provides information to residents on how to report allegations of sexual harassment and sexual abuse. The Group Leader or Youth Specialist provides the PREA education to residents during intake. Each youth sign an acknowledgement form. Interviews with a Group Leader and residents indicated PREA education sessions occur.

The facility has the capability of providing PREA education in formats accessible to all residents including those who may be limited English proficient; deaf; visually impaired, or otherwise disabled, and to residents who have limited reading skills. PREA related information is posted throughout facility. Interpretive and translation services are provided as needed. The PREA related information is provided to staff through facility policies, training and staff meetings.

Resident and staff interviews confirmed that residents are not used as translators or readers for other residents. Staff members provide support to residents as needed and ensure access to services that will provide disabled residents the opportunity to participate in and benefit from PREA education

sessions. The facility reports 26 residents admitted in the last 12 months, received comprehensive age-appropriate PREA education.

DYS Policy 9.18 PREA, ensures information from the comprehensive assessment is used to make placement decisions with the goal of keeping all youth safe and free from sexual abuse.

DYS Policy 9.8 Separation and DYS Policy 9.18 PREA allows for the use of separation to protect youth from harm. Youth who have alleged to have suffered sexual abuse, will only be placed in isolation or separation as a last resort and only until less restrictive measures can be found. DYS Policy 9.8 supports if a resident at risk for sexual victimization is held in isolation, the facility affords each such resident a review every 30 days to determine whether there is a continuing need for separation from the general population.

DYS Policy 9.8 Separation, provides for youth who are placed in isolation have access to legally require educational programming, special education services and large muscle exercise. The practice is that the facility does not use isolation.

DYS Policy 9.18 prohibits placing LGBTI (lesbian, gay, bisexual, transgender, intersex) in particular housing, bed or other assignment solely on the basis of such identification or status. No residents identified as LGBTI.

DYS Policy 6.1 and DYS Policy 9.28 prohibit considering LGBTI identification or status as an indicator or likelihood of sexual abusers. Agency policy and staff interviews support housing and program assignments for transgender or intersex residents would be made on a case by case basis to ensure the residents health and safety. The residents concern for his own safety is taken into account through responses obtained from the risk assessment and confirmed through the resident interviews.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DYS Policy 9.18 PREA, and DYS Policy 6.1 address the standard and provide multiple internal ways a resident may report including how he can privately report sexual abuse, sexual harassment and retaliation. Residents may report to a staff member and may also write down their report and use the youth and family grievance system to submit report. Access to writing tools is provided.

Information about reporting allegations of sexual abuse and sexual harassment is also contained in the resident handbook and is posted in the living units and other areas of the facility. Residents and staff interviews revealed their awareness of the methods a resident may report allegation. Administration reports residents are not detained for civil immigration purposes.

All residents interviewed stated they have the ability to report to someone who does not work at the facility. Also, staff and residents understand that a third party may report allegations either in writing, anonymously and/or through the abuse hotline.

DYS Policy 9.18 PREA and staff interviews support that staff members receiving a report of sexual assault/rape or attempted sexual assault/rape or staff neglect and/or violation of responsibility that contributes to the abuse on staff that become aware of sexual activity between youth or between a youth and staff, contractor, visitor, or volunteer must immediately report this event to their supervisor. Staff members receive information on how to report through policies and procedures, training, staff

meetings and posted information. Staff can privately report sexual abuse or sexual harassment of residents using the Children's Division hotline.

Auditor Overall Compliance Determination

	Exceeds Standard (Substantially exceeds requirement of standards)
\boxtimes	Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
	Does Not Meet Standard (Requires Corrective Action)

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DYS Policy 9.18 PREA, and PREA Training Curriculum requires all staff, volunteers or contractors to report immediately any knowledge, suspicion or information they receive regarding an incident of sexual abuse or sexual harassment that occurs within the facility, retaliation against a resident or staff who reported such an incident; and any staff neglect or violation of responsibility that may have contributed to an incident or retaliation.

Medical and mental health staff will report all allegations of abuse or sexual harassment to designated supervisors. Allegations are documented by the "Grievance Review Request" of actual or suspected child abuse or neglect. The site supervisor must immediately relay the report to the Facility Manager or designee. The Administrator is responsible for notifying their division personnel officers to report the allegations.

Direct Care and mental health staff revealed through interviews their awareness of the requirements regarding reporting duties and acknowledged they are mandatory reporters and must immediately report all allegations of sexual abuse and complete a written report. In accordance with Missouri Mandatory Reporting Law, staff members are also required to report allegations that were made anonymously or by third-party.

DYS Policy 3.8 Employee Conduct, provides apart from reporting to the designated supervisors, staff must not discuss the details of the sexual abuse reports with anyone other than to the extent necessary to make treatment, investigation and other security and management decisions. Interviews with Facility Manager reveal when the facility receives an allegation of sexual abuse, administration reports the allegation to Caseworker and Children's Division-OHI.

DYS First Responder Protocols for Sexual Abuse requires any staff acting as a first responder must separate the alleged victim from the alleged abuser; call for help; and take the appropriate steps for the preservation and collection of any evidence. The policy directs the first responder to request that the alleged victim does not wash, brush their teeth; change clothes; wash or do anything that may destroy evidence.

Interviews with staff members who would serve as first responders reveal they are aware of their duties. Policy notes that for purposes of PREA all staff will respond as security staff. During this reporting period, there was not an allegation of sexual abuse that required the implementation of the first responder duties regarding preserving or maintaining evidence. There were no allegations of sexual abuse.

DYS Policy 9.18 PREA, staff interviews and a review of documentation provide that investigations are conducted by Missouri Children's Division, Out of Home Investigation Unit. If the situation involves recent abuse, law enforcement is also contacted.

The Policies direct facility staff to cooperate with investigations and documentation reviewed indicates such. Policy also provides that an investigation is not terminated because the source recants the allegation. DYS follows protocols in conducting administrative investigations and investigators receive specialized training in cases of administrative investigations. DYS has conveyed the PREA requirement to external investigating agencies. This information was verified by interview with Missouri PREA Compliance Coordinator.

Investigation results must be reported out to all parties as required in the standards. There were no sustained allegations of conduct that were referred for prosecution since the last PREA audit.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DYS Policy 9.18 PREA; DSS Policy 2-124 Discipline. pg.7; DSS Policy 2-101 Sexual Harassment/Inappropriate Conduct, pg.1; and employee handbook requires staff disciplinary sanctions up to and including termination for staff that violate the facility's sexual abuse and sexual harassment zero-tolerance policy. The facility reports during this reporting period no staff members violated facility

or agency policy regarding sexual abuse or sexual harassment. The policies also mandate the violation be reported to law enforcement.

Disciplinary sanctions for violations of agency sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanction imposed for comparable offenses by other staff with similar histories. The interviews with the Human Resource Manager and the Facility Manager revealed personnel practices and their knowledge of the related Policies.

DYS Policy 9.18 PREA, and employee handbook require volunteers and contractors in violation of the facility's policies and procedures regarding sexual abuse and sexual harassment of residents will be reported to local law enforcement and relevant licensing bodies.

The documentation and interview with Facility Manager revealed the facility takes measures to provide volunteers and contractors a clear understanding that sexual misconduct with a resident is strictly prohibited. Interviews with a contractor support the occurrence of PREA training. The interview revealed awareness of zero-tolerance policy and how to report allegations of sexual abuse or sexual harassment of residents. During this audit period there have been no allegations of sexual abuse or sexual harassment regarding a contractor or volunteer.

DYS Policy 9.18 PREA, requires timely and unimpeded access to emergency medical treatment and crisis intervention services for victim of sexual abuse will be provided by medical and mental health staff as required. Processes and services are in place for a victim to receive timely access to sexually transmitted infection prophylaxes, where medically appropriate, at the local hospital and follow up as needed. It is documented through policies and understood by staff that treatment services will be provided at no cost to the victim, whether or not the victim names the abuser, or whether or not the victim cooperates with the investigation.

The interview with the Regional Nurse revealed residents have access to unimpeded access to emergency services and medical and mental health services are determined according to the professional judgement of the practitioner. Policies and procedures and a documented coordinated response plan exist for protecting residents and for contacting the appropriate staff regarding allegations or incidents of sexual abuse.

Staff interviews confirmed their awareness of the policies and the methods to implement for protecting residents.
